# Conversion Matrix from the *BPM5* to the *BPM6*

## Comments and Explanatory Notes to the Conversion Matrix

For the balance of payments and IIP, the conversion matrix matches the standard components and additional details of the *BPM5* to the standard components and selected other items of the *BPM6*; see:

- *BPM5 Balance of Payments: Standard Components*, pages 43–48
- *BPM5 Tables 7 and 8, Balance of Payments: Standard Components and Additional Detail*
- *BPM5 International Investment Position: Standard Components*, pages 108–111
- *BPM5 Table 9, International Investment Position: Standard Components and Additional Detail*
- *BPM6 Appendix 9 Standard Components and Selected Other Items*

The Comments column of the conversion matrix provides further explanation and information regarding the changes between the *BPM5* and *BPM6*. To enhance clarity, the titles of *BPM5* standard components are shown in italics in the comments.

The conversion matrix follows the Standard Components and Selected Other Items of the *BPM6*. In a number of cases the order of the *BPM5* items has been adjusted to facilitate the linking.

In the conversion matrix, the corresponding items of the *BPM5* and *BPM6* are linked via arrows. To reduce confusion, in cases where nonrelated arrows cross, different fonts have been selected for the crossing arrows.

In cases where the *BPM5* item is broken down in the *BPM6*, split arrows are used to link all new items to the old one. Split arrows are also used when the *BPM6* shows not only the original *BPM5* item, but also an “of which” item thereof that was not included in the *BPM5*. For the sake of clarity, in those cases different fonts are used to distinguish the “of which” item.

Current account		1. Current account	
<b>Goods and services (P6/P7)</b>		A. Goods and services	
<b>Goods (P61/P71)</b>		a. Goods	* In <i>BPM6</i> , <i>Goods for processing and Repairs on goods</i> are recorded under <i>Services</i> , unlike <i>BPM5</i> where these items were recorded under <i>goods</i> .
General merchandise on a balance of payments basis <i>Of which Re-exports</i>		1. General merchandise	<ul style="list-style-type: none"> <li>* <i>BPM6</i> includes a reconciliation table to show the relationship between merchandise trade statistics and goods on a balance of payments basis; see <i>BPM6</i>, Table 10.2.</li> <li>* In <i>BPM6</i>, migrants personal effects are not classified as transactions as in <i>BPM5</i> and so are no longer included in goods, nor elsewhere in the international accounts; see <i>BPM6</i>, paragraph 10.22 (b).</li> <li>* In <i>BPM6</i>, goods bought abroad for own use or to give away that exceed customs thresholds are included in general merchandise; see <i>BPM6</i>, paragraph 10.20. In <i>BPM5</i>, these goods are recorded in travel; see <i>BPM5</i>, paragraphs 212 and 250.</li> <li>* In <i>BPM6</i>, general merchandise includes goods procured in ports, which in <i>BPM5</i> is separately classified; see <i>BPM6</i>, paragraph 10.17(d).</li> <li>* Unlike in <i>BPM5</i>, re-exports, that is goods produced in other economies and previously imported, which are exported without a substantial transformation, should be separately recorded if they are a significant proportion of exports; see <i>BPM6</i>, paragraphs 10.37 - 10.40.</li> </ul>
		4. Goods procured in ports by carriers	
		9. Other business services	<ul style="list-style-type: none"> <li>* Merchanting of goods is included under exports of goods (both gross/net); see <i>BPM6</i>, paragraphs 10.41-10.49. In <i>BPM5</i>, merchanting a is included in 9.1 <i>Merchanting and other trade-related services</i>. When these goods are kept in inventories from one period to the next, <i>BPM5</i> recommends that the purchases are booked as imports, and the subsequent sales as negative imports of goods. In that case, any difference between the value of the goods when acquired and relinquished is entered under <i>Merchanting and other trade-related services</i>; see <i>BPM5</i>, paragraphs 207, 213 and 262. In <i>BPM6</i>, the acquisition of the good is classified as a negative goods export of the economy of the merchant, and the sale is a positive goods export, with the difference between sales and purchases recorded as 'net exports of goods under merchanting'.</li> </ul>
		9.1 Merchanting and other trade-related services (partly; see below for other trade-related services)

Construction		4. Construction services	* The separate items Construction abroad and Construction in the reporting economy are introduced as supplementary items; see <i>BPM6</i> , paragraphs 10.105 - 10.106. In <i>BPM6</i> , expenditures by nonresident construction enterprises on local supplies are included in Construction services; see <i>BPM6</i> , paragraph 10.102. In <i>BPM5</i> , they are part of Other business services (see <i>BPM5</i> , paragraph 254). As in <i>BPM5</i> , goods and services provided from the home economy of the enterprise (resident-to-resident transactions) should be excluded from general merchandise and/or services of the local economy.
Construction abroad <sup>3</sup>		9. Other business services (partly)	Other than in <i>BPM5</i> , goods and services acquired from third economies are recorded under general merchandise and/or services for the economy of the enterprise; see <i>BPM6</i> , paragraph 10.102.

Insurance and pension services <sup>1</sup> <i>Direct insurance</i> Reinsurance <i>Auxiliary insurance services</i> <i>Pension and standardized guaranteed services</i>	5. Insurance services	* In BPM6, premium supplements are taken into account in deriving insurance services; see BPM6, paragraph 10.111 and Appendix 6c. BPM5 accepts ignoring these flows on practical grounds; see BPM5, paragraph 257. In BPM6, reinsurance and direct insurance are treated consistently; see BPM6, paragraph 10.111, whereas BPM5 recommends recording the balance of all flows between resident insurers and nonresident reinsurers (and vice-versa) in services; see BPM5, paragraph 257. In contrast to BPM5, the estimate of insurance claims used to derive the value of insurance services may be adjusted to take account of claim volatility; see BPM6, paragraph 10.114 (c).	
Financial services <i>Explicitly charged and other financial services</i>	6. Financial services	* Financial dealers' implicit charges via margins are included under financial services; see BPM6, paragraph 10.119. In BPM5, implicit margins are not discussed separately and may therefore be included in the financial flows. In BPM6, services of asset-holding entities to their owners, where asset management costs are taken out of income, are included in financial services; see BPM6, paragraph 10.124. In BPM5, these costs are not discussed separately and may therefore be included in investment income.  * BPM6 recognizes FISIM on loans and deposits when those loans and deposits are provided by, or deposited with, financial corporations (as defined in BPM6, paragraphs 4.63 - 4.64); see BPM6, paragraph 10.127. In BPM6, FISIM can be attributed to interest on loans and deposits in direct investment, other investment and reserve assets, but not portfolio investment. In BPM5, FISIM is not recognized in Financial services; see BPM5, paragraph 508.	
<i>Financial intermediation services indirectly measured (FISIM)</i>		B.2 Investment income (partly) Financial intermediation charge indirectly measured	
Charges for the use of intellectual property n.i.e. <sup>1</sup>	8. Royalties and license fees	* BPM6 uses the title Charges for the use of intellectual property instead of Royalties and license fees in BPM5. It includes charges for the use of (i) franchises and trademarks, like in BPM5; and (ii) the outcomes of research and development (R&D). In BPM6, as in BPM5, outright purchases/sales of franchises and trademarks are recorded in the capital account. Charges for the use of intellectual property also includes licenses to reproduce and/or distribute (i) software; and (ii) audiovisual and related services; (BPM5 is not explicit on the recording of licenses to reproduce and/or distribute). See BPM6, paragraphs 10.137-10.140 and Table 10.4.

Telecommunications, computer, and information services <sup>1</sup>			* In <i>BPM6</i> , a grouping of telecommunications, computer, and information services is introduced (see <i>BPM6</i> , paragraph 10.141). This includes the following <i>BPM5</i> items: (i) 3. Communications services (except postal and courier services, which are recorded under Transport in <i>BPM6</i> ); and (ii) 7. Computer and information services.
<i>Telecommunications services</i>		3. Communications services (partly)	
<i>Computer services</i>		7. Computer and information services	* In <i>BPM6</i> , Computer services includes (i) licenses to use software; and (ii) outright purchases/sales of software. Computer services does not include (i) licenses to reproduce and/or distribute software (see Charges for use of intellectual property, <i>BPM6</i> , paragraph 10.137 (b)); and (ii) transactions in noncustomized (mass-produced) software provided on physical media with right to perpetual use, which need to be recorded under goods (the latter is not a change, but clarification to <i>BPM5</i> ). See <i>BPM6</i> , paragraph 10.143 and Table 10.4.
<i>Information services</i>			
<i>Other business services</i> <sup>1</sup>		9. Other business services	
<i>Research and development services</i>		2. Capital and Financial Account 2.A.2. Acquisition/disposal of nonproduced, nonfinancial assets (partly)	* In <i>BPM6</i> , the results of R&D are considered produced assets. Outright purchases and sales of the results of R&D are therefore recorded under Research and development services; see <i>BPM6</i> , paragraphs 10.147–10.148. In <i>BPM5</i> , sales and purchases of the results of R&D are recorded in the capital account / nonproduced nonfinancial assets; see <i>BPM5</i> , paragraph 358. In <i>BPM6</i> , charges for the use of the outcomes of R&D are included in Charges for the use of intellectual property. In <i>BPM5</i> , the provision of R&D services is included under 9.3 Miscellaneous business, professional, and technical services; see <i>BPM5</i> , paragraph 264.
<i>Professional and management consulting services</i>		9.1 Merchanting and other trade- 9.2 Operational leasing services	* In <i>BPM6</i> , merchanting is recorded under Goods / Net exports of goods under merchanting, unlike services in <i>BPM5</i> ; see <i>BPM6</i> , paragraphs 10.41–10.49.
<i>Technical, trade-related, and other business services</i>		9.3 Miscellaneous business, professional, and technical services

Personal, cultural, and recreational services <sup>"1</sup>		10. Personal, cultural, and recreational services	* In BPM6, Audiovisual and related services, and Other personal, cultural and recreational services include (i) licenses to use the products; and (ii) outright purchases/sales. Audiovisual and related services do not include (i) licenses to reproduce and/or distribute (see Charges for the use of intellectual property); and (ii) transactions in non-customized (mass-produced) products provided on disks, etc., which need to be recorded under goods (this is not a change, but clarification to BPM5). See BPM6, paragraphs 10.162 - 10.166 and Table 10.4.
Audiovisual and related services	↓	10.1 Audiovisual and related services	* BPM6 describes the service charge of lotteries and gambling as the margin between the gambling charges and the winnings payable by the operator. The service charge is included under Other personal, cultural, and recreational services; see BPM6, paragraph 10.170. Winnings payable between the operator and the participants are recorded under Personal transfers; see BPM6, paragraphs 12.53 - 12.54. BPM5 only discusses the recording of gambling in terms of Other current transfers; see BPM5, paragraph 303. Gambling by visitors abroad (not discussed in BPM5) is to be included in travel; see BPM6, paragraph 10.88.
Other personal, cultural, and recreational services	↓	10.2 Other personal, cultural, and recreational services	This supplementary item allows for a link with tourism satellite accounts as well as supply and use tables BPM6, paragraph 10.95.

<b>Primary income: General Comments</b>			
* The term <i>Primary income</i> is introduced to be consistent with the 2008 SNA; see <i>BPM6</i> , paragraph 11.1. Rent and Taxes/subsidies on products and production are explicitly included in primary income; see <i>BPM6</i> , tables 11.1, 11.2, and 11.3.			
* Compensation of employees. The employer-employee relationship is clarified to distinguish between compensation of employees and payment for services in <i>BPM6</i> , paragraph 11.12. This is a clarification to <i>BPM5</i> and in accordance with its general principles. Yet, it may result in reclassifications involving compensation of employees and services.			
* Dividends. In <i>BPM6</i> , dividends are recorded when the shares go ex dividend; see <i>BPM6</i> , paragraph 3.48; in <i>BPM5</i> : when payable; see <i>BPM5</i> , paragraphs 282 and 284. Withdrawals of income from quasicorporations are recorded when withdrawn, consistent with <i>BPM5</i> principles; see <i>BPM6</i> , paragraph 11.31. <i>BPM6</i> describes superdividends, which should be recorded as withdrawals of equity, not primary income; see <i>BPM6</i> , paragraph 11.27. The term 'superdividends' is not discussed in <i>BPM5</i> , but the treatment in <i>BPM6</i> is in line with the general principals of <i>BPM5</i> (notably liquidating dividends; see <i>BPM5</i> , paragraph 290). In <i>BPM6</i> , the title income from quasicorporations replaces the <i>BPM5</i> term <i>Distributed branch profits</i> ; see <i>BPM6</i> , paragraph 11.26. Adjustments for transfer pricing (which may result in a counterentry in dividends or equity flows) are clarified; see <i>BPM6</i> , paragraphs 11.101 - 11.102. This clarification is not a change from <i>BPM5</i> ; see <i>BPM5</i> , paragraphs 97 - 103.			
* Interest. In <i>BPM6</i> , interest income is adjusted to show 'pure' interest, i.e. the financial intermediation services indirectly measured (FISIM) component is included in Financial services; see <i>BPM6</i> , paragraphs 11.74 - 75. <i>BPM6</i> recognizes FISIM on loans and deposits when those loans and deposits are provided by, or deposited with, financial corporations (as defined in <i>BPM6</i> , paragraph 4.64); see <i>BPM6</i> , paragraph 10.127. FISIM can be attributed to interest on loans and deposits in direct investment income, other investment income, and reserve assets, but not portfolio investment. <i>BPM5</i> does not recognize FISIM; see <i>BPM5</i> , paragraph 258, note 7. Nonetheless, it is included as additional detail in <i>BPM5</i> , Table 7 to allow reconciliation with the SNA.			
* Reserve assets. In <i>BPM6</i> , income on reserve assets is identified separately. If not available for publication, income from reserve assets may be included in other investment / interest; see <i>BPM6</i> , paragraph 11.109. In <i>BPM5</i> , income on reserve assets is included in other investment income; see <i>BPM5</i> , paragraph 281.			
* Fees on securities lending and gold loans. In <i>BPM6</i> , fees on securities lending and gold loans are clarified and treated as interest if the fees accrue to the owner lending these assets (see <i>BPM6</i> , paragraphs 11.67 - 11.68) with the counter-entry in other accounts receivable/payable; see <i>BPM6</i> , paragraph 5.73. <i>BPM5</i> does not discuss these fees explicitly. As in <i>BPM5</i> , fees payable to custodians etc. for the administrative services associated with the lending are recorded in Financial services.

Other investment		2.3 Other investment	* See Primary income; general comments: interest, and reserve assets.
Withdrawals from income of quasi-corporations (D42O)		Equity income (not available in BPM5)	* In BPM6, income from equity not included in direct investment and not in the form of securities (i.e. D42O) is separately distinguished in income from other investment; see BPM6, paragraphs 5.26 -5.27. BPM5 does not specify this kind of equity.

<i>Rent (D45)</i>			* In <i>BPM5</i> , rent (D45) is not separately identified.
<b>Secondary income : General Comments</b>			
* The term Secondary income is introduced to be consistent with the SNA and is clarified in <i>BPM6</i> , paragraphs 12.1 - 12.4. More detailed types of current transfers are introduced on a supplementary basis; see <i>BPM6</i> , paragraphs 12.21 - 12.24. Refunds of taxes to taxpayers are treated as negative taxes, i.e., the amount of taxes is reduced by tax refunds; see <i>BPM6</i> , paragraph 12.21. In <i>BPM5</i> , tax refunds are recorded under government transfers; see <i>BPM5</i> , paragraph 299. The delineation between taxes and services is clarified. Business licenses to fish, hunt, etc. are no longer automatically treated as taxes as in <i>BPM5</i> , but as services, rent, taxes, or acquisition of a license asset, depending on what is supplied in return; see <i>BPM6</i> , paragraphs 10.179-180, 12.23; <i>BPM5</i> , paragraph 300.

Personal transfers (Current transfers between resident and nonresident households) Of which: Workers' remittances		2.1 Workers' remittances	* <i>BPM6</i> introduces the concept of <i>Personal transfers</i> , which is broader than workers' remittances (in both <i>BPM5</i> and <i>BPM6</i> ) because it includes all transfers between individuals, not just those of migrants who are employed in new economies and considered residents there; see <i>BPM6</i> , paragraphs 12.47 - 12.51 and Appendix 5.

In <i>BPM6</i> , reinsurance and direct insurance are treated consistently; see <i>BPM6</i> , paragraph 10.111, whereas <i>BPM5</i> recommends recording the balance of all flows between resident insurers and nonresident reinsurers (and vice versa) in services; see <i>BPM5</i> , paragraph 257. Unlike in <i>BPM5</i> , the estimate of insurance claims used to derive the value of insurance services may be adjusted to take account of claim volatility; see <i>BPM6</i> , paragraph 10.114 (c). Unlike in <i>BPM5</i> , insurance claims may be treated as capital transfers in exceptional cases of catastrophic losses to be consistent with the SNA; see <i>BPM6</i> , paragraph 13.24.

When crossborder flows are minor, the adjustment item may be omitted; see <i>BPM6</i> , paragraph 12.32.
<b>Capital account: General Comments</b>			
* Debits and credits for the acquisition/disposal of nonproduced nonfinancial assets are to be recorded separately, not netted as in <i>BPM5</i> ; see <i>BPM6</i> , paragraphs 13.7 and 3.113.			
* Unlike in <i>BPM5</i> , emission rights and internet domain names are identified as possible economic assets; see <i>BPM6</i> , paragraphs 13.14 and 13.18, respectively.			
* In <i>BPM6</i> , the results of R&D, such as patents and copyrights, are no longer treated as nonproduced assets. Outright purchases and sales of these products no longer appear in the capital account (as in <i>BPM5</i> , see paragraphs 3.12 and 358), but are classified as produced assets with transactions recorded in services (R&D services for patents and copy-rights); see <i>BPM6</i> , Table 10.4 and <i>BPM5</i> , paragraph 358.			
* Capital transfers associated with the activation of one-off guarantees and other debt assumption are specified; see <i>BPM6</i> , paragraphs 8.42 - 8.45, 13.19, and Box 8.1. One-off guarantees are not discussed in <i>BPM5</i> .			
* Large inheritances are treated as capital transfers, instead of current transfers as in <i>BPM5</i> ; see <i>BPM6</i> , paragraph 13.30.

<b>Net lending (+) / net borrowing (-) (balance from current and capital account) (B9)</b>			The sum of the balances of the current and capital account, i.e., the sum of all credits minus the sum of all debits in these accounts, represents the net lending (surplus) or net borrowing (deficit) by the economy with the rest of the world. This is conceptually equal to the net balance of the financial account; see <i>BPM6</i> , paragraph 2.18 and Table 2.1.
<b>Financial account: General Comments</b>			
* In <i>BPM6</i> , central bank replaces monetary authorities as an institutional 1 subsector, whereas monetary authorities remains an essential concept for defining reserve assets and a supplementary subsector where relevant; see <i>BPM6</i> , paragraphs 4.70 and 6.66. <i>BPM6</i> introduces a breakdown of other sectors into 'other financial and nonfinancial corporations, households and NPISHs'; see <i>BPM6</i> , Chapter 4, Table 4.2.			
* In <i>BPM6</i> , the detailed classification of financial assets and liabilities is harmonized with the <i>SNA</i> and <i>Monetary and Financial Statistics Manual 2000</i> in terms of detail and terminology; see <i>BPM6</i> , Table 5.3. In the <i>BPM5</i> standard components, instruments are combined and different names for them are used in different places.			
* In <i>BPM6</i> , arrears are retained in the original asset/liability and identified as a memorandum item if related to exceptional financing (otherwise supplementary item). In <i>BPM5</i> , arrears are reclassified from the original asset/liability to short-term other assets / liabilities and requested as a supplementary item; see <i>BPM6</i> , paragraphs 5.99 - 5.102, <i>BPM6</i> , paragraphs 8.58 - 8.59, and <i>BPM5</i> , paragraphs 453, 528 - 529.			
* A convention for distinction between write-offs and debt forgiveness is introduced; see <i>BPM6</i> , paragraph 9.10.			
* Financial assets and liabilities of entities (migrants) changing residence are included as Other changes in volume; see <i>BPM6</i> , paragraphs 9.21 - 9.23, unlike as transactions in <i>BPM5</i> ; see <i>BPM5</i> , paragraph 354.			
* The content of the <i>Financial Derivatives Supplement 2000</i> is incorporated. As a consequence, the coding of the <i>BPM5 Balance of Payments: Standard Components and Additional Detail</i> in this conversion table is not corresponding to <i>BPM5 1993</i> but rather to the revised coding of the <i>Financial Derivatives Supplement 2000</i> .			
<b>Direct investment: General Comments</b>			
* In <i>BPM6</i> , direct investment is presented on an assets and liabilities basis, unlike on the directional principle in <i>BPM5</i> . In the standard components, direct investment is classified according to the relationship between the investor and the entity receiving the investment; see <i>BPM6</i> , paragraphs 6.37 - 6.41. Thus, under 'Direct investor in direct investment enterprises' the reporting economy of the direct investor records the assets of the direct investor, and the reporting economy of the direct investment enterprises records the (mirror) liabilities of the direct investment enterprises (whether in an immediate or indirect relationship); see <i>BPM6</i> , paragraphs 6.37.(a). Under 'Direct investment enterprises in direct investor' (reverse investment) the reporting economy of the direct investment enterprises records the assets of the direct investment enterprises, and the reporting economy of the direct investor records the liabilities of the direct investment enterprises (whether in an immediate or indirect relationship); see <i>BPM6</i> , paragraphs 6.37.(b). Under the item 'Between fellows' the reporting economy reports assets and /or liabilities as appropriate; see <i>BPM6</i> , paragraphs 6.17.			
* Data on the directional basis are also recognized as essential for many purposes; see <i>BPM6</i> , paragraphs 6.44 - 6.45. The details needed to compile these data are shown in <i>BPM6</i> , Box 6.4.

<b>BPM6 Balance of Payments: Standard Components and Selected Other Items (Items in italic are supplementary)</b>			
* In <i>BPM6</i> , the Framework for Direct Investment Relationships (FDIR) is adopted for identifying direct investment relationships; see <i>BPM6</i> , paragraphs 6.8 - 6.18 and <i>BPM6</i> Box 6.1. Ownership of ordinary shares is removed from the operational definition of direct investment; see <i>BPM6</i> , paragraphs 6.12 and 6.19. In <i>BPM6</i> , the separate category of investment in fellow enterprises is included, see <i>BPM6</i> , paragraph 6.17 (c). The coverage of direct investment relationships due to indirect voting power and fellow enterprises is elaborated; see <i>BPM6</i> , paragraph 6.14.			
* Superdividends are treated as a withdrawals of equity; see <i>BPM6</i> , paragraph 8.23. The term 'superdividends' is not used in <i>BPM5</i> , but the treatment in <i>BPM6</i> is in line with the general principals of <i>BPM5</i> (notably liquidating dividends; see <i>BPM5</i> , paragraph 290).			
* Insurance technical reserves are potentially included in direct investment; see <i>BPM6</i> , paragraph 6.27. In <i>BPM5</i> , technical reserves of insurance enterprises are excluded from the stock of direct investment; see <i>BPM5</i> , paragraph 379.			
* The concept of pass-through funds is introduced; see <i>BPM6</i> , paragraphs 6.33 - 6.34. It is encouraged that compilers in economies that have large values of pass-through funds consider the compilation of supplementary data on funds in transit, based on national definitions.			
* In <i>BPM6</i> , all debt between selected types of affiliated financial corporations is excluded from direct investment, unlike in <i>BPM5</i> , where so-called Permanent debt was included in direct investment. The financial corporations to whom this applies are central banks, deposit-taking corporations other than the central bank, investment funds, and other financial intermediaries except insurance companies and pension funds; see <i>BPM6</i> , paragraph 6.28.			
<b>Financial account</b>			
<b>B. Financial account</b>			The net balance of the financial account is equal to the net increase of assets minus the net increase in liabilities. This concept is conceptually equal to the net balance of the current and capital account; see <i>BPM6</i> , paragraphs 2.17 - 2.18 and Table 2.1.

* The <i>BPM5</i> titles Bonds and notes and Money market instruments are replaced by Long-term and Short-term debt securities in <i>BPM6</i> ; see <i>BPM6</i> , paragraphs 5.44 and 5.103 - 105.			
* The conditions to reclassify traded loans as securities are clarified; see <i>BPM6</i> , paragraph 5.45. However, the impact is likely to be small.			
* Debt instruments with both the amount to be paid at maturity and periodic payments indexed to a foreign currency are classified and treated as if they are denominated in foreign currency. Also, the treatment of index-linked debt instruments is clarified and modified; see <i>BPM6</i> , paragraphs 11.50(a) - (c) and 11.59 - 11.65. <i>BPM5</i> is less explicit about the treatment of this type of securities; see <i>BPM5</i> , paragraphs 397.

<i>Other investment (FO)</i>		<b>4. Other investment</b>	* <i>BPM6</i> specifies all other investment instruments and does not have a residual item Other investment / other assets - other liabilities as in <i>BPM5</i> .
<i>Other equity (F519O)</i>			* In <i>BPM6</i> , equity not included in direct investment and not in the form of securities is separately distinguished in Other investment / other equity; see <i>BPM6</i> 5.26-5.27. <i>BPM5</i> does not specify this kind of equity. In <i>BPM6</i> , capital subscriptions to international organizations is included in other equity, whereas <i>BPM5</i> includes these subscriptions in other assets / liabilities (see items 4.1.4/4.2.4 below).
<b>Currency and Deposits: General Comments</b>			
* In <i>BPM6</i> , unlike <i>BPM5</i> , unallocated accounts in gold and other precious metals are included in currency and deposits, except for unallocated gold accounts held by monetary authorities for reserves purposes, for which the asset holding is included in monetary gold; see <i>BPM6</i> , paragraph 5.39.			
* The treatment of overnight deposits (or sweep accounts) is discussed; see <i>BPM6</i> , paragraph 7.62. In view of the fact that the positions can differ substantially depending on when these accounts are measured, it is recommended to record them consistently after the funds are moved at the end of the day and a cross-border position is created.			
* In <i>BPM6</i> , interbank positions is introduced as an 'of which' item to deposits; see <i>BPM6</i> , paragraph 5.42.

<b>Loans: General Comments</b>				
* In <i>BPM6</i> , arrears are retained in the original asset / liability and identified as a memorandum item if related to exceptional financing (otherwise supplementary item). In <i>BPM5</i> , arrears are reclassified from the original asset / liability to short-term other assets / liabilities and requested as a supplementary item; see <i>BPM6</i> , paragraphs 5.99 - 5.102, <i>BPM6</i> , paragraphs 8.58 - 8.59, and <i>BPM5</i> , paragraphs 453, 528 -				
* The conditions to reclassify traded loans as securities are clarified; see <i>BPM6</i> , paragraph 5.45. However, the impact is likely to be small.				
* In <i>BPM6</i> , a convention for the treatment of the activation of one-off guarantees and other debt assumption is included; see <i>BPM6</i> , paragraphs 8.42 - 8.45, 13.12, and Box 8.1.

Insurance, pension, and standardized guarantee schemes: General Comments				
* In <i>BPM 6</i> , for nonlife insurance, changes in insurance technical reserves consist of prepayments of insurance premiums and changes in outstanding claims. Similarly, for life insurance, pension funds, annuity funds, and standardized guarantee schemes, the changes in technical reserves due to transactions are recorded in the financial account and consist of amounts of the estimated obligations to beneficiaries and holders that were accrued during the period; see <i>BPM6</i> , paragraphs 8.46 - 8.49 and Appendix 6c. <i>BPM5</i> 's definition of technical reserves is effectively the same as in <i>BPM6</i> (see <i>BPM5</i> , paragraphs 257, footnote 6), with technical reserves recorded as separate additional detail in other investment/other assets/liabilities, where relevant; see <i>BPM5</i> , Table 7. In <i>BPM6</i> , provisions for calls under standardized guarantees are identified and treated similarly to insurance technical reserves; see <i>BPM6</i> , paragraph 5.68. Standardized guarantees are not classified as financial assets / liabilities in <i>BPM5</i> .

<b>Reserve assets: General comments</b>			
* Monetary gold. In <i>BPM6</i> , unlike <i>BPM5</i> , unallocated gold accounts held by monetary authorities with nonresidents for reserves purposes are included in monetary gold, which is broken down in gold bullion and unallocated gold accounts. Unallocated accounts in other precious metals held with nonresidents are included in currency and deposits; see <i>BPM6</i> , paragraphs 5.39 and 5.74 - 5.78. <i>BPM6</i> gives an extensive explanation of the recording of gold swaps; see <i>BPM6</i> , paragraphs 6.82. The explanation is in line with the general principles of <i>BPM5</i> , although the latter is more concise; see <i>BPM5</i> , paragraph 434.			
* In <i>BPM6</i> , the conditions under which net creditor positions in regional payment agreements can be included in reserve assets have been brought in line with the general principles of reserve assets and have thus become more restrictive; see <i>BPM6</i> , paragraphs 6.112 and <i>BPM5</i> , paragraph 432.			
* Unlike in <i>BPM5</i> , working balances of government agencies are not included in reserve assets in <i>BPM6</i> ; see <i>BPM6</i> , paragraphs 6.112 and <i>BPM5</i> 433.			
* In <i>BPM6</i> , the treatment of pooled assets and assets in special purpose government funds are described consistent with the general principles of reserve assets; in <i>BPM5</i> they were not described. The treatment of pledged assets in reserve assets is clarified; see <i>BPM6</i> , paragraphs 6.93, 6.99 and 6.107 - 6.109. <i>BPM6</i> , paragraph 6.110 discusses the treatment of frozen assets that do not qualify as reserve assets.			
* Guidance on positions with the IMF is provided in <i>BPM6</i> , Chapter 7, Annex 7.1.

Securities obtained as collateral under reverse repos result in legal but not in economic ownership changing hands and so should not be included in the reserves (or portfolio) assets of the securities borrower; see <i>BPM6</i> , paragraphs 5.54 and 7.58 - 7.59. <i>BPM5</i> does not discuss the treatment of repo transactions in reserves assets.

## BPM6-IIIP: Changes in Treatment or Classification

International Investment Position Items			
<i>BPM6 International Investment Position: Standard Components and Selected Other Items (Items in italic are supplementary)</i>	Remapping	<i>BPM5 International Investment Position: Standard Components and Additional Details (Items in italic are supplementary)</i>	Comments on Change in Treatment or Clarification
<b>IIIP: General Comments</b>			
* In <i>BPM6</i> , central bank replaces monetary authorities as an institutional subsector, whereas monetary authorities remains an essential concept for defining reserve assets and a supplementary subsector where relevant; see <i>BPM6</i> , paragraphs 4.70 and 6.66. <i>BPM6</i> introduces a breakdown of other sectors into 'other financial and nonfinancial corporations, households and NPISHs'; see <i>BPM6</i> , Chapter 4, Table 4.2.			
* In <i>BPM6</i> , the detailed classification of financial assets and liabilities is harmonized with the <i>SNA</i> and <i>Monetary and Financial Statistics Manual 2000</i> in terms of detail and terminology; see <i>BPM6</i> , Table 5.3. In the <i>BPM5</i> standard components, instruments are combined and different names for them are used in different places.			
* In <i>BPM6</i> , arrears are retained in the original asset/liability and identified as a memorandum item if related to exceptional financing (otherwise supplementary item). In <i>BPM5</i> , arrears are reclassified from the original asset/liability to short-term other assets / liabilities and requested as a supplementary item; see <i>BPM6</i> , paragraphs 5.99 - 5.102, <i>BPM6</i> , paragraphs 8.58 - 8.59, and <i>BPM5</i> , paragraphs 453, 528 - 529.			
* In <i>BPM6</i> , classification, netting and ordering in IIIP is consistent with the Financial account and Primary income account of the balance of payments, and with the Other changes of the IIIP, so as to facilitate reconciliation and calculation of rates of return; see <i>BPM6</i> , paragraphs 7.13 and 8.5.			
* In <i>BPM6</i> , a currency breakdown is introduced as memorandum item for debt claims, debt liabilities and financial derivatives positions vis-à-vis nonresidents; see <i>BPM6</i> , Appendix 9.C, Table I. The compilation of data on remaining maturity is encouraged for selected position data; see <i>BPM6</i> , paragraphs 5.103 - 105.			
* The Other changes in financial assets/liabilities is explained and the distinction between exchange rate and other revaluations is elaborated; see <i>BPM6</i> , Chapter 9.			
* A convention for distinction between write-offs and debt forgiveness is introduced; see <i>BPM6</i> , paragraph 9.10.			
* Financial assets and liabilities of entities (migrants) changing residence are included as Other changes in volume; see <i>BPM6</i> , paragraphs 9.21 - 9.23, unlike as transactions in <i>BPM5</i> ; see <i>BPM5</i> , paragraph 354.			
* The content of the <i>Financial Derivatives Supplement 2000</i> is incorporated. As a consequence, the coding of the <i>BPM5 Balance of Payments: Standard Components and Additional Detail</i> in this conversion table is not corresponding to <i>BPM5</i> 1993 but rather to the revised coding of the <i>Financial Derivatives Supplement 2000</i> .			
<b>Direct investment: General Comments</b>			
* In <i>BPM6</i> , direct investment is presented on an assets and liabilities basis, unlike on the directional principle in <i>BPM5</i> . In the standard components, direct investment is classified according to the relationship between the investor and the entity receiving the investment; see <i>BPM6</i> , paragraphs 6.37 - 6.41. Thus, under 'Direct investor in direct investment enterprises' the reporting economy of the direct investor records the assets of the direct investor, and the reporting economy of the direct investment enterprises records the (mirror) liabilities of the direct investment enterprises (whether in an immediate or indirect relationship); see <i>BPM6</i> , paragraph 6.37.(a). Under 'Direct investment enterprises in direct investor' (reverse investment) the reporting economy of the direct investment enterprises records the assets of the direct investment enterprises, and the reporting economy of the direct investor records the liabilities of the direct investor (whether in an immediate or indirect relationship); see <i>BPM6</i> , paragraph 6.37.(b). Under the item 'Between fellows' the reporting economy reports assets and /or liabilities as appropriate; see <i>BPM6</i> , paragraph 6.17.			
* Data on the directional basis are also recognized as essential for many purposes; see <i>BPM6</i> , paragraphs 6.44 - 6.45. The details needed to compile these data are shown in <i>BPM6</i> , Box 6.4.			

International Investment Position Items (continued)			
BPM6 International Investment Position: Standard Components and Selected Other Items (Items in italic are supplementary)	Remapping Components and Additional Details (Items in italic are supplementary)	BPM5 International Investment Position: Standard	Comments on Change in Treatment or Clarification
* In BPM6, the Framework for Direct Investment Relationships (FDIR) is adopted for identifying direct investment relationships; see BPM6, paragraphs 6.8 - 6.18 and BPM6, Box 6.1. Ownership of ordinary shares is removed from the operational definition of direct investment; see BPM6, paragraphs 6.12 and 6.19. In BPM6, the separate category of investment in fellow enterprises is included, see BPM6, paragraph 6.17 (c). The coverage of direct investment relationships due to indirect voting power and fellow enterprises is elaborated; see BPM6, paragraph 6.14.			
* Direct investment is valued at the best indicator of market prices. For approximating market value for equity that is not regularly traded, see BPM6, paragraph 7.15 (et seq.). In BPM5, market valuation was adopted in principle, while noting that book values 'are generally utilized' in practice; see BPM5, paragraph 467.			
* Superdividends are treated as a withdrawals of equity; see BPM6, paragraph 8.23. The term 'superdividends' is not used in BPM5, but the treatment in BPM6 is in line with the general principles of BPM5 (notably liquidating dividends; see BPM5, paragraph 290).			
* Insurance technical reserves are potentially included in direct investment; see BPM6, paragraph 6.27. In BPM5, technical reserves of insurance enterprises are excluded from the stock of direct investment; see BPM5, paragraph 379.			
* The concept of pass-through funds is introduced; see BPM6, paragraphs 6.33 - 6.34. It is encouraged that compilers in economies that have large values of pass-through funds consider the compilation of supplementary data on funds in transit, based on national definitions.			
* In BPM6, all debt between selected types of affiliated financial corporations is excluded from direct investment, unlike in BPM5, where so-called Permanent debt was included in direct investment. The financial corporations to whom this applies are central banks, deposit-taking corporations other than the central bank, investment funds, and other financial intermediaries except insurance companies and pension funds; see BPM6, paragraph 6.28.

* The <i>BPM5</i> titles <i>Bonds and notes</i> and <i>Money market instruments</i> are replaced by Long-term and Short-term debt securities in <i>BPM6</i> ; see <i>BPM6</i> , paragraphs 5.44 and 5.103 - 105.			
* The conditions to reclassify traded loans as securities are clarified; see <i>BPM6</i> , paragraph 5.45. However, the impact is likely to be small.			
* Debt instruments with both the amount to be paid at maturity and periodic payments indexed to a foreign currency are classified and treated as if they are denominated in foreign currency. Also, the treatment of index-linked debt instruments is clarified and modified; see <i>BPM6</i> , paragraphs 11.50(a) - (c) and 11.59 - 11.65. <i>BPM5</i> is less explicit about the treatment of this type of securities; see <i>BPM5</i> , paragraph 397.

<i>Other equity (AF5110)</i>		* In <i>BPM6</i> , equity not included in direct investment and not in the form of securities is separately distinguished in Other investment / other equity; see <i>BPM6</i> , paragraphs 5.26 - 5.27. <i>BPM5</i> does not specify this kind of equity. In <i>BPM6</i> , capital subscriptions to international organizations is included in other equity, whereas <i>BPM5</i> includes these subscriptions in other assets / liabilities (see item 4.4 below).	
<b>Currency and Deposits: General Comments</b>			
* In <i>BPM6</i> , unlike <i>BPM5</i> , unallocated accounts in gold and other precious metals are included in currency and deposits, except for unallocated gold accounts held by monetary authorities for reserves purposes, for which the asset holding is included in monetary gold; see <i>BPM6</i> , paragraph 5.39.			
* The treatment of overnight deposits (or sweep accounts) is discussed; see <i>BPM6</i> , paragraph 7.62. In view of the fact that the positions can differ substantially depending on when these accounts are measured, it is recommended to record them consistently after the funds are moved at the end of the day and a cross-border position is created.			
* In <i>BPM6</i> , interbank positions is introduced as an 'of which' item to deposits; see <i>BPM6</i> , paragraph 5.42.

* The conditions to reclassify traded loans as securities are clarified; see <i>BPM6</i> , paragraph 5.45. However, the impact is likely to be small. In <i>BPM6</i> , traded loans are valued at nominal value in the IIP, like other loans; see <i>BPM6</i> , paragraph 7.40. In <i>BPM5</i> , they are recorded at transaction value by the creditor; see <i>BPM5</i> , paragraph 471. While nominal value is the primary valuation method for nonnegotiable instruments in <i>BPM6</i> , memorandum and supplementary items are recorded to measure impaired loan assets; see <i>BPM6</i> , paragraphs 7.45 and 7.48-7.53.

<b>Insurance, pension, and standardized guarantee schemes: General Comments</b>			
* In <i>BPM 6</i> , for nonlife insurance, changes in insurance technical reserves consist of prepayments of insurance premiums and changes in outstanding claims. Similarly, for life insurance, pension funds, annuity funds, and standardized guarantee schemes, the changes in technical reserves due to transactions are recorded in the financial account and consist of amounts of the estimated obligations to beneficiaries and holders that were accrued during the period; see <i>BPM6</i> , paragraphs 8.46 - 8.49 and Appendix 6c. <i>BPM5</i> 's definition of technical reserves is effectively the same as in <i>BPM6</i> (see <i>BPM5</i> , paragraph 257, footnote 6), with technical reserves recorded as separate additional detail in other investment / other assets/liabilities, where relevant; see <i>BPM5</i> , Table 7. In <i>BPM6</i> , provisions for calls under standardized guarantees are identified and treated similarly to insurance technical reserves; see <i>BPM6</i> , paragraph 5.68. Standardized guarantees are not classified as financial assets / liabilities in <i>BPM5</i> .

<b>Reserve assets: General comments</b>			
* Monetary gold. In <i>BPM6</i> , unlike <i>BPM5</i> , unallocated gold accounts held by monetary authorities with nonresidents for reserves purposes are included in monetary gold, which is broken down in gold bullion and unallocated gold accounts. Unallocated accounts in other precious metals held with nonresidents are included in currency and deposits; see <i>BPM6</i> , paragraphs 5.39 and 5.74 - 5.78. <i>BPM6</i> gives an extensive explanation of the recording of gold swaps; see <i>BPM6</i> , paragraph 6.82. The explanation is in line with the general principles of <i>BPM5</i> , although the latter is more concise; see			
* In <i>BPM6</i> , the conditions under which net creditor positions in regional payment agreements can be included in reserve assets have been brought in line with the general principles of reserve assets and have thus become more restrictive; see <i>BPM6</i> , paragraph 6.112 and <i>BPM5</i> , paragraph 432.			
* Unlike <i>BPM5</i> , working balances of government agencies are not included in reserve assets in <i>BPM6</i> ; see <i>BPM6</i> , paragraph 6.112 and <i>BPM5</i> , paragraph 433.			
* In <i>BPM6</i> , the treatment of pooled assets and assets in special purpose government funds are described consistent with the general principles of reserve assets; in <i>BPM5</i> they are not described. The treatment of pledged assets in reserve assets is clarified; see <i>BPM6</i> , paragraphs 6.93, 6.99 and 6.107 - 6.109. <i>BPM6</i> , paragraph 6.110 discusses the treatment of frozen assets that do not qualify as

Securities			
Debt securities (AF3R)		5.4.2 Securities	* <i>BPM6</i> explains that securities transferred under repos can either (i) be included as reserves assets with the loan incurred (if to a nonresident) reported as other investment / liabilities / loans (and classified as a memorandum item under reserve-related liabilities); or (ii) excluded from reserve assets and reclassified as portfolio investment; see <i>BPM6</i> , paragraphs 6.88 - 6.90.
Short-term (AF31R)		5.4.2.3 Money market instruments	Securities obtained as collateral under reverse repos result in legal, but not in economic ownership changing hands and so should not be included in the reserves (or portfolio) assets of the securities borrower; see <i>BPM6</i> , paragraphs 5.54 and 7.58 - 7.59. <i>BPM5</i> does not discuss the treatment of repo transactions in reserves assets.
Long-term (AF32R)		5.4.2.2 Bonds and notes	
Equity and investment fund shares (AF5R)		5.4.2.1 Equities	
Financial derivatives (AF7R)*		5.4.3 Financial derivatives (net)	
Other claims		5.5 Other claims (partly)	* In <i>BPM5</i> , <i>Other claims</i> is a residual that covers part of currency and deposits and securities n.i.e.; see <i>BPM5</i> , paragraph 443. In <i>BPM6</i> , <i>Other claims</i> includes loans to nonresident nondeposit-taking corporations, long-term loans to IMF Trust Accounts that are readily repayable, loans arising from a reverse repo (unless classified as deposits), and other financial assets not included elsewhere that fulfill the general principles of reserve assets; see <i>BPM6</i> , paragraph 6.92.
