I. General DepartmentQuarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 and the actuarial valuation of pension benefits under IAS 19 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

The Report should be read in conjunction with the April 30, 2022 Annual Financial Statements and the notes thereto to be published in early October 2022.

GENERAL DEPARTMENT

The IMF conducts its operations and transactions through the General Department. The General Department comprises three accounts: (i) the General Resources Account (GRA); (ii) the Investment Account (IA); and (iii) the Special Disbursement Account (SDA).

GENERAL RESOURCES ACCOUNT (GRA)

The financial operations of the IMF with its members are primarily conducted through the GRA. The assets and liabilities in the GRA reflect the payment of member quota subscriptions, use and repayment of GRA credit, borrowings and repayments to lenders, collection of charges from borrowers, payment of remuneration on creditor positions and interest to lenders, and other operations.

The IMF provides financial assistance to member countries experiencing actual or potential balance of payments problems. Upon the request of a member country, GRA resources are made available either under a financing arrangement or in the form of outright purchases (disbursements). An arrangement is a decision by the IMF Executive Board that gives a member the assurance that the IMF stands ready to provide resources to the member during a specified period and up to a specified amount, in accordance with the terms of the financing instrument.

Assets are invested by external managers, except for investments with the Bank for International Settlements and short-term investments (residual cash balances).

SPECIAL DISBURSEMENT ACCOUNT (SDA)

The SDA is the vehicle used to receive profits from the sale of gold held by the IMF at the time of the Second Amendment of the IMF's Articles of Agreement (April 1978). SDA resources can be used for various purposes, as specified in the Articles of Agreement, including transfers to the GRA for immediate use in operations and transactions, transfers to the IA, or operations and transactions that are not authorized by other provisions of the Articles of Agreement but are consistent with the purposes of the IMF, in particular to provide balance of payments assistance on special terms to low-income member countries. At July 31 and April 30, 2022, the SDA did not hold any resources.

AVERAGE INTEREST RATES for the three months ended July 31, 2022: SDR Interest Rate: 0.835%,

^{**} Precautionary balances consist of the reserves of the GRA (excluding SDR 4.4 billion attributable to the profits from the limited gold sales in 2009–10 that have been earmarked for the Endowment Subaccount). In determining precautionary balances, the net asset/liability under retirement benefit plans calculated under IAS 19 is deducted from/added to the GRA reserves, and any net liability measured using a discount rate that reflects the expected long-term return on plan assets, would be deducted from the GRA reserves.

II. SDR Department

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

The Report should be read in conjunction with the April 30, 2022 Annual Financial Statements and the notes thereto, to be published in early October 2022.

THE SPECIAL DRAWING RIGHT (SDR)

The SDR is an international interest-bearing reserve asset, created by the IMF in 1969 to supplement its member countries' official reserves. SDRs are allocated to participants in the SDR Department, all of whom are also members of the IMF. At July 31, 2022, SDR 660.7 billion had been allocated, including SDR 456.5 billion allocated on August 23, 2021 and SDR 182.7 billion allocated in 2009. SDR allocations play a role in providing liquidity and supplementing member countries' official reserves.

Further details can be found in the link below. https://www.imf.org/en/Topics/special-drawing-right

The value of the SDR is based on a basket of five currencies—the Chinese renminbi, the Euro, the Japanese yen, the Pound sterling, and the US dollar.

USES OF SDRs

Transactions

Participants and prescribed holders can use and receive SDRs in transactions and operations by agreement among themselves in accordance with the IMF's Articles of Agreement and decisions adopted by the IMF Executive Board ("Executive Board"). Participants may also conduct such transactions with any participant or prescribed holder through voluntary trading arrangements to buy and sell SDRs. Participants can use SDRs in operations and transactions involving the General Resources Account (GRA) of the General Department, such as the payment of quota, payment of charges, and repurchases. The GRA can use SDRs in operations and transactions involving participants, such as purchases, payment of remuneration, and repayment of borrowings.

Unit of Account

The financial statements and quarterly reports on IMF Finances are presented in SDRs, which is the IMF's

unit of account. The value of the SDR is determined daily by the IMF by summing specific amounts of the basket currencies in US dollar equivalents on the basis of market exchange rates. The weights and amounts of the currencies in the SDR basket, effective October 1, 2016 through July 31, 2022, are shown on Table 1.

On May 11, 2022, the Executive Board concluded the quinquennial review of the method of valuation of the SDR and agreed to maintain the current composition of the SDR currency and interest rate baskets and approved their updated weights. The updated basket implies slightly higher weights for the US dollar and the Chinese renminbi and, accordingly, somewhat lower weights for the British pound, the euro, and the Japanese yen. Effective August 1, 2022, the weights and amounts of the currencies in the SDR basket are as shown on

Table 1. SDR Currency Basket at July 31, 2022 SDR basket currency Weight (in percent) **Amount** Chinese renminbi 10.92 1.0174 Furo 30.93 0.38671 Japanese yen 8.33 11.900 Pound sterling 8.09 0.085946 US dollar 41.73 0.58252

Table 2. The next review of the method of valuation of the SDR will take place in 2027, unless developments in the interim justify an earlier review. Further details can be found on: https://www.imf.org/en/Topics/special-drawing-right

III. Concessional Lending and Debt Relief Trusts Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in these interim financial reports.

The Report should be read in conjunction with the April 30, 2022 Annual Financial Statements and the notes thereto to be published in early October 2022.

The International Monetary Fund (IMF) is the Trustee of the following trusts:

(i) The Poverty Reduction and Growth Trust (PRG Trust); (ii) The Trust for Special Poverty Reduction and Growth Operations for the Heavily Indebted Poor Countries and Interim ECF Subsidy Operations (PRG-HIPC Trust) and the related Umbrella Account for HIPC Operations (the PRG-HIPC Umbrella Account); and (iii) The Catastrophe Containment and Relief Trust (CCR Trust) and the related Umbrella Account for CCR Operations (CCR Umbrella Account). Collectively, these trusts are referred to as the "Concessional Lending and Debt Relief Trusts" or the "Trusts". The Trusts provide loans on concessional terms and/or debt relief assistance to qualifying low-income member countries.

POVERTY REDUCTION AND GROWTH TRUST (PRG TRUST)

The PRG Trust provides loans on concessional terms to qualifying low-income member countries. Financing is available under the following facilities:

- The Extended Credit Facility (ECF) for members with protracted balance of payments problems under three- to five-year arrangements;
- The Standby Credit Facility (SCF) for actual or potential short-term balance of payments needs under one- to three-year arrangements;
- The Rapid Credit Facility (RCF) for urgent balance of payments needs, which provides financial support in outright loan disbursements.

The operations of the PRG Trust are currently conducted through four Loan Accounts, five Subsidy Accounts (including the General Subsidy Account, three Earmarked Subsidy Accounts, and the Subsidy Reserve Account), the Reserve Account, and the Deposit and Investment Account.

IV. Administered Accounts Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

The Report should be read in conjunction with the April 30, 2022 Annual Financial Statements and the notes thereto to be published in early October 2022.

ADMINISTERED ACCOUNTS

At the request of certain members, the IMF has established accounts to administer resources contributed for financial and technical services consistent with the purposes of the IMF.

The instruments establishing the Administered Accounts provide the terms and conditions, as agreed with the IMF and contributing parties, under which the resources may be used. The assets of each account/subaccount are separate from the assets of all other accounts/subaccounts of, or administered by, the IMF. The assets of each account/subaccount are not to be used to discharge liabilities or to cover losses incurred in the administration of other accounts/subaccounts.

The changes in total assets of these accounts were as follows:

	April 30, 2022	Contributions / transfers in	Net income	Transfers out	July 31, 2022

Framework Administered Account for Selected Fund Activities	468.9	31.1	1.4	(47.4)	454.0	
Administered Account for Interim Holdings of Voluntary Contributions for Fund Activities ²					_	

The account was established in April 2022 to channel resources in the form of grants and loans from members, their official institutions, and intergovernmental agencies and organizations (together referred to as "donors") to assist Ukraine in meeting its balance of payments and budgetary needs in order to help stabilize its economy. During the first quarter of FY2023, Ukraine received a loan from Canada (SDR 585.8 million) and a grant from Germany (SDR 790.3 million) through this account. The loan and grant proceeds were transferred to Ukraine's SDR holdings account on a pass-through basis. Net income on the account represents administrative fees paid by donors.

² The account is open but had a zero balance on July 31 and April 30, 2022, due to no activity.

^{**} Less than SDR 50,000.
