Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 and the actuarial valuation of pension benefits under IAS 19 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This Report should be read in conjunction with the [April 30, 2022 Annual Financial Statements](#) and the notes therein.

GENERAL DEPARTMENT

The International Monetary Fund (IMF) conducts its operations and transactions through the General Department. The General Department comprises three accounts: (i) the General Resources Account; (ii) the Investment Account; and (iii) the Special Disbursement Account.

GENERAL RESOURCES ACCOUNT (GRA)

The financial operations of the IMF with its member countries are primarily conducted through the GRA. The assets and liabilities in the GRA reflect the payment of member quota subscriptions, use and repayment of GRA credit, borrowings and repayments to lenders, collection of charges from borrowers, payment of remuneration on creditor positions and interest to lenders, and other operations.

The IMF provides financial assistance to member countries experiencing actual or potential balance of payments problems. Upon the request of a member country, GRA resources are made available either under a financing arrangement or in the form of outright purchases (disbursements). An arrangement is a decision by the IMF Executive Board that gives a member country the assurance that the IMF stands ready to provide resources to the member country during a specified period and up to a specified amount, in accordance with the terms of the financing instrument.

INVESTMENT ACCOUNT (IA)

The IA holds resources transferred from the GRA, which are invested to broaden the IMF's income base. The IA comprises two subaccounts: the Fixed-Income Subaccount and the Endowment Subaccount. Assets are invested by external managers, except for investments with the Bank for International Settlements and short-term investments (residual cash balances).

SDR 21.7 billion
Fixed-Income Subaccount
(net asset value)

SDR 6.2 billion
Endowment Subaccount
(net asset value)

SDR 479 million
Net investment loss

SPECIAL DISBURSEMENT ACCOUNT (SDA)

The SDA is the vehicle used to receive profits from the sale of gold held by the IMF at the time of the Second Amendment of the IMF's Articles of Agreement (April 1978). SDA resources can be used for various purposes, as specified in the Articles of Agreement, including transfers to the GRA for immediate use in operations and transactions, transfers to the IA, or operations and transactions that are not authorized by other provisions of the Articles of Agreement but are consistent with the purposes of the IMF, in particular to provide balance of payments assistance on special terms to low-income member countries. At October 31 and April 30, 2022, the SDA did not hold any resources.

EXCHANGE RATE at October 31, 2022: SDR 1 equal to US\$1.28329.

AVERAGE INTEREST RATES for the six months ended October 31, 2022: SDR interest rate: 1.341%, Rate of charge: 2.341%, Rate of remuneration: 1.341%.

Precautionary Balances of the GRA**	21,726	20,873

* Current period balance excludes the effects of the remeasurement of pension assets/liabilities which are recorded at end-April.

** Precautionary balances consist of the reserves of the GRA (excluding SDR 4.4 billion attributable to the profits from the limited gold sales in 2009–10 that have been earmarked for the Endowment Subaccount). In determining precautionary balances, the net asset/liability under retirement benefit plans calculated under IAS 19 is excluded from the GRA reserves, and any net liability measured using a discount rate that reflects the expected long-term return on plan assets, would be deducted from the GRA reserves.

* Less than 0.5 percent.

Liquid liabilities		
Reserve tranche positions	119,857	114,746
Outstanding borrowings	1,907	2,615

¹ Usable resources consist of (i) holdings of currencies of member countries considered by the IMF as having balance of payments and reserve positions sufficiently strong for their currencies to be used in transfers, (ii) SDR holdings, and (iii) any unused amounts under credit lines that have been activated.

² Repurchases by member countries falling due during the coming 12-month period.

³ Repayments of borrowings falling due during the coming 12-month period.

⁴ Prudential balance is set at 20 percent of quota subscriptions of member countries whose currencies are used in the financing of IMF transactions.

⁵ The FCC does not include commitments under the NAB and bilateral commitments from member countries to boost the IMF's resources, because none of these are currently activated.

⁶ Outstanding drawings and commitments under the NAB cannot exceed SDR 362.5 billion and SDR 360.8 billion at October 31, 2022 and April 30, 2022, respectively.

II. SDR Department

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This report should be read in conjunction with the [April 30, 2022 Annual Financial Statements](#) and the notes included therein.

THE SPECIAL DRAWING RIGHT (SDR)

The SDR is an international interest-bearing reserve asset, created by the IMF in 1969 to supplement its member countries' official reserves. SDRs are allocated to participants in the SDR Department, all of whom are also members of the IMF. At October 31, 2022, SDR 660.7 billion had been allocated, including SDR 456.5 billion allocated on August 23, 2021 and SDR 182.7 billion allocated in 2009. SDR allocations play a role in providing liquidity and supplementing member countries' official reserves.

Further details can be found in the link below.

<https://www.imf.org/en/Topics/special-drawing-right>

The value of the SDR is based on a basket of five currencies—the Chinese renminbi, the euro, the Japanese yen, the Pound sterling, and the US dollar.

USES OF SDRs

Transactions

Participants and prescribed holders can use and receive SDRs in transactions and operations by agreement among themselves in accordance with the IMF's Articles of Agreement and decisions adopted by the IMF Executive Board (Executive Board). Participants may also conduct such transactions with any participant or prescribed holder through voluntary trading arrangements (VTA) to buy and sell SDRs. Participants can use SDRs in operations and transactions involving the General Resources Account (GRA) of the General Department, such as the payment of quota, payment of charges, and repurchases. The GRA can use SDRs in operations and transactions involving participants, such as purchases, payment of remuneration, and repayment of borrowings.

Unit of Account

The financial statements and quarterly reports on IMF Finances are presented in SDRs, which is the IMF's unit of account. The value of the SDR is determined daily by the IMF by summing specific amounts of the basket currencies in US dollar equivalents on the basis of market exchange rates.

On May 11, 2022, the Executive Board concluded the quinquennial review of the method of valuation of the SDR and agreed to maintain the current composition of the SDR currency and interest rate

baskets and approved their updated weights. The updated basket implies slightly higher weights for the US dollar and the Chinese renminbi and, accordingly, somewhat lower weights for the British pound, the euro, and the Japanese yen. The weights and amounts of the currencies in the SDR basket effective August 1, 2022 are as shown in Table 1. The next review of the method of valuation of the SDR will take place in 2027, unless developments in the interim justify an earlier review. Further details can be found at:

III. Concessional Lending and Debt Relief Trusts

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This Report should be read in conjunction with the [April 30, 2022 Annual Financial Statements](#) and the notes therein.

The International Monetary Fund (IMF) is the Trustee of the following trusts:

(i) The Poverty Reduction and Growth Trust (PRG Trust); (ii) The Trust for Special Poverty Reduction and Growth Operations for the Heavily Indebted Poor Countries and Interim ECF Subsidy Operations (PRG-HIPC Trust) and the related Umbrella Account for HIPC Operations (the PRG-HIPC Umbrella Account); and (iii) The Catastrophe Containment and Relief Trust (CCR Trust) and the related Umbrella Account for CCR Operations (CCR Umbrella Account). Collectively, these trusts are referred to as the “Concessional Lending and Debt Relief Trusts” or the “Trusts”. The Trusts provide loans on concessional terms and/or debt relief assistance to qualifying low-income member countries.

POVERTY REDUCTION AND GROWTH TRUST

The PRG Trust provides loans on concessional terms to qualifying low-income member countries. Financing is available under the following facilities:

- The Extended Credit Facility (ECF) for members with protracted balance of payments problems under three- to five-year arrangements;
- The Standby Credit Facility (SCF) for actual or potential short-term balance of payments needs under one- to three-year arrangements;
- The Rapid Credit Facility (RCF) for urgent balance of payments needs, which provides financial support in outright loan disbursements.

The operations of the PRG Trust are currently conducted through four Loan Accounts, five Subsidy Accounts (including the General Subsidy Account, three Earmarked Subsidy Accounts, and the Subsidy Reserve Account), the Reserve Account, and the Deposit and Investment Account.

New Developments in the PRG Trust Investment Accounting Structure

The implementation of the Resilience and Sustainability Trust (RST) included amendments to the PRG Trust Instrument to permit pooling of certain investments. Resources of the RST invested in short duration fixed income instruments will be pooled with resources of the PRG Trust invested in the same class of assets, and investment positions and net investment income will be attributed proportionately to each Trust. There were no RST investments in the pool as of October 31, 2022.

PRG-HIPC TRUST AND RELATED UMBRELLA ACCOUNT

The PRG-HIPC Trust provides financial assistance in the form of grants or loans to low-income member countries that qualify for the HIPC Initiative. The HIPC Initiative helps these member countries reduce their external debt burden to sustainable levels. The PRG-HIPC Trust receives and invests resources, which consist of grant contributions, transfers from the Special Disbursement Account, transfers of earnings from Administered Accounts, and net earnings from investments. The PRG-HIPC Trust can also borrow from donors and invest the proceeds to generate income for its operations. Grants made by the PRG-HIPC Trust are administered in the PRG-HIPC Umbrella Account on behalf of the recipients.

CCR TRUST AND RELATED UMBRELLA ACCOUNT

The CCR Trust provides balance of payments assistance in the form of grants to eligible low-income member countries following qualifying catastrophic natural or public health disasters. The CCR Trust receives and invests resources, which consist of grant contributions, transfers from the SDA, and net earnings from investments. The CCR Trust can also borrow from donors and invest the proceeds to generate income for its operations. Grants made by the CCR Trust are administered in the CCR Umbrella Account on behalf of the recipients.

IV. Resilience and Sustainability Trust

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

The first audited Annual Financial Statements for the Resilience and Sustainability Trust will be prepared for the year ending April 30, 2023.

The Resilience and Sustainability Trust (RST, or the Trust) was established effective May 1, 2022, to provide affordable long-term financing to support countries undertaking macro-critical reforms to reduce risks to prospective balance of payments stability, including those related to climate change and pandemic preparedness. The RST complements the General Resources Account (GRA) and Poverty Reduction and Growth Trust (PRGT) lending by focusing on longer-term structural challenges that entail significant macroeconomic risks and by lending at correspondingly longer maturities as discussed below.

The Trust is administered by the IMF, as Trustee, with all assets and liabilities of the Trust held separately from those of all other administered or proprietary accounts of the IMF, including those of other trusts, with the exception that the resources of the RST may be pooled with those of the PRGT for investment purposes. The Trust's assets cannot be used to meet the liabilities, obligations, or losses incurred in the administration of other accounts or trusts.

The Trust became ready to start its lending operations on October 12, 2022, following the Managing Director's notification to the IMF's Executive Board.

The RST has a similar governance and financial structure to that of the PRGT. The Trust provides loans to qualifying eligible members of the IMF under the Resilience and Sustainability Facility (RSF). To qualify for an RSF arrangement, eligible members would need to have: (i) a package of high-quality reform measures addressing qualifying longer-term structural challenges; (ii) a concurrent upper credit tranche (UCT) program with at least 18 months remaining prior to its expiry (during the initial 6 months from RST operationalization on October 12, 2022, a minimum of 12 months remaining is required); and (iii) sustainable debt and adequate capacity to repay. Upon the request of a qualifying member country, the RST resources may be made available under an RSF arrangement. The first RSF arrangement was approved in November, after the closing of the second quarter.

The operations of the RST are conducted through three accounts: (i) the Loan Account (LA), (ii) the Reserve Account (RA), and (iii) the Deposit Account (DA). The details of each account are discussed below. Each contributor is typically expected to sign a contribution agreement package with three parts, constituting contributions to the LA, RA and DA. Contributions to the RA and DA are expected be a minimum of 2 percent and 20 percent, respectively, of a contributor's commitment to the LA. The Trust may also receive standalone contributions to the RA and/or the DA.

Loan Account

All lending to eligible members under the RSF is conducted in the LA, funded by contributions under borrowing agreements. The period during which the Trustee may draw under such agreements (the “drawdown period”) for the purpose of making disbursements of Trust loans spans through November 30, 2030. Each drawing under a borrowing agreement shall be repaid in accordance with the repayment schedule for Trust loans. Loans to borrowing members have a maturity of 20 years and a grace period of 10.5 years after the disbursement. The LA receives interest from loans (at the SDR interest rate plus a margin) and pays interest on borrowings (up to the SDR interest rate). Margin income from Trust loans is accumulated in the LA and transferred to the RA on a quarterly basis. As of October 31, 2022, five countries had signed borrowing agreements to provide the first round of contributions to the RST, amounting to a total of SDR 8.6 billion (See Schedule 1).

Reserve Account

The RA holds resources that may be used to: (i) invest in liquid, high-quality instruments in accordance with guidelines established by the IMF’s Executive Board; (ii) provide security to the lenders of the LA in the event of delayed or nonpayment by RST borrowers; (iii) pay for the cost of administering the Trust; and (iv) make distributions to contributors to the RA.

The resources of the RA primarily consist of direct contributions, payments of service charges by borrowers, transfers of margin income and other net earnings from the LA, net earnings from investment of RA resources, and transfers of net investment income attributable to contributions to the DA upon full repayment of these contributions. Contributions to the RA are not remunerated. Contributions to the RA as of October 31, 2022, totaled SDR 74.2 million (See Schedule 2). China’s contribution to the RA of SDR 100 million was received soon after October 31, 2022.

Deposit Account

The DA holds resources that may be used (i) to invest in liquid, high-quality instruments in accordance with guidelines established by the IMF’s Executive Board; (ii) to make payments of interest and principal repayments to contributors to the DA; and (iii) as a backstop to the RA to provide security to the lenders of the LA in the event of delayed or nonpayment by RST borrowers in extreme tail risk events.

The resources of the DA primarily consist of direct contributions and net earnings from investments of DA resources. Contributions to the DA are remunerated at interest rates up to the SDR interest rate. The maturity date of contributions to the DA that are made in conjunction with a contribution to the LA is specified as 20 years after the end of the LA drawdown period (i.e., November 30, 2050). Contributions to the DA as of October 31, 2022, amounted to SDR 742.6 million (See Schedule 2). China’s contribution to the DA of SDR 1 billion was received soon after October 31, 2022.

Investment of RA and DA resources

Under the investment guidelines of the RST, the resources of the DA and RA may be invested in a short duration fixed-income strategy and liquidity instruments such as deposits with the Bank for International Settlements. For investment purposes, resources of the RST in the short duration fixed-income component will be pooled with resources of the PRGT, invested in the same class of assets, and investment positions and net investment income will be attributed to each relevant trust or account. There were no RST assets invested in the pool as of October 31, 2022.

V. Administered Accounts

Quarterly Report on IMF Finances

This Quarterly Report is prepared in compliance with the IMF Rules and Regulations, and in accordance with International Financial Reporting Standards' (IFRS) measurement and recognition requirements.

Assessments for potential expected credit losses under IFRS 9 are conducted annually for the year-end financial statements but are not included in the quarterly financial reports.

This Report should be read in conjunction with the [April 30, 2022 Annual Financial Statements](#) and the notes therein.

ADMINISTERED ACCOUNTS

At the request of certain members, the IMF has established accounts to administer resources contributed for financial and technical services consistent with the purposes of the IMF.

The instruments establishing the Administered Accounts provide the terms and conditions, as agreed with the IMF and contributing parties, under which the resources may be used. The assets of each account/subaccount are separate from the assets of all other accounts/subaccounts of, or administered by, the IMF. The assets of each account/subaccount are not to be used to discharge liabilities or to cover losses incurred in the administration of other accounts/subaccounts.

The changes in total assets of these accounts were as follows:

	April 30, 2022	Contributions / transfers in	Net income	Transfers out	October 31, 2022
<i>(in millions of SDRs)</i>

Administered Account for Interim Holdings of Voluntary Contributions for Fund Activities ²	—	—	—	—	—

¹ The account was established in April 2022 to channel resources in the form of grants and loans from members, their official institutions, and intergovernmental agencies and organizations (together referred to as "donors") to assist Ukraine in meeting its balance of payments and budgetary needs in order to help stabilize its economy. During the first six months of FY2023, Ukraine received two loan tranches from Canada (SDR 850.9 million) and a grant from Germany (SDR 790.3 million) through this account. The loan tranches and grant proceeds were transferred to Ukraine's SDR holdings account on a pass-through basis. Net income on the account represents administrative fees paid by donors.

² The account is open but had a zero balance on October 31 and April 30, 2022, due to no activity.
