The accompanying notes are an integral part of these consolidated financial statements.

1. Basis of preparation and measurement

The unaudited consolidated financial statements of the General Department are prepared in accordance with International Accounting Standard 34 (*Interim Financial Reporting*) issued by the International Accounting Standards Board (IASB). The consolidated financial statements include the accounts of the General Resources Account (GRA); the Investment Account (IA); and the Special Disbursement Account (SDA). The consolidated financial statements for the three and nine months ended January 31, 2015 also incorporate the MDRI-I Trust through the SDA since the latter had control over the MDRI-I Trust. These consolidated financial statements do not include all information and notes required by International Financial Reporting Standards (IFRS) for complete financial statements and should be read in conjunction with the April 30, 2015 consolidated financial statements and the notes included therein.

On February 4, 2015, the IMF Executive Board approved the establishment of the Catastrophe Containment and Relief (CCR) Trust to replace the Post-Catastrophe Debt Relief Trust. To provide additional resources to the CCR Trust, the IMF Executive Board also authorized the liquidation of the MDRI-I Trust and the contribution of the SDA resources held in the MDRI-I Trust to the CCR Trust. The MDRI-I Trust was liquidated, and the contribution to the CCR Trust of SDR 13 million was made in February 2015.

1.1 Basis of consolidation

The consolidated financial statements of the General Department include the GRA, the IA, the SDA, and for the three and nine months ended January 31, 2015, the MDRI-I Trust. Control is achieved where the IMF has the power over an entity and is exposed to variable returns from involvement with the entity and has the ability to affect these returns. All transactions and balances between these entities have been eliminated during consolidation.

1.2 Unit of account

The consolidated financial statements are presented in Special Drawing Rights (SDRs), which is the IMF's unit of account. At January 31, 2016, one SDR was equal to US\$1.3805 (US\$1.40642 at April 30, 2015).

On November 30, 2015, the IMF Executive Board concluded the five-yearly review of the basket of currencies that make up the SDR and decided that the Chinese renminbi met the criteria for inclusion in the valuation basket. Effective October 1, 2016, the SDR basket will consist of the U.S. dollar, the euro, the Chinese renminbi, the Japanese yen, and the pound sterling. The value of the SDR will continue to be calculated by summing specific amounts of the basket currencies expressed in U.S. dollar equivalents. These specific amounts will be determined on September 30, 2016 using the average exchange rates for the preceding three-month period to ensure that the shares of the basket currencies correspond to the following weights:

Currency	Weight (in percent)
U.S. dollar	41.73
Euro	30.93
Chinese renminbi	10.92
Japanese yen	8.33
Pound sterling	8.09

The SDR interest rate will continue to be determined as the weighted average of the interest rates on short-term financial instruments in the money markets of the SDR basket currencies. The representative interest rate for the Chinese renminbi will be the three-month benchmark yield for China Treasury bonds as published by the China Central Depository and Clearing Co., Ltd.

The next review of the method of valuation of the SDR will take place by September 30, 2021 unless developments in the interim justify an earlier review.

2. Arrangements and credit outstanding in the General Resources Account

The IMF approved the following arrangements during the nine months ended January 31, 2016 and 2015:

	2016	2015
	Amount agreed	
	(In millions	s of SDRs)
Stand-By Arrangements (SBA)		
Georgia		100
Honduras		78
Kosovo	148	
Extended Arrangement (EFF)		
Seychelles		11
Flexible Credit Line (FCL)		
Colombia	3,870	
Mexico		47,292
Poland		15,500
Precautionary and Liquidity Line (PLL)		
Могоссо		3,235

During the nine months ended January 31, 2016, the SBA for Kenya was extended, the access for Poland's FCL was decreased by SDR 2,500 million, and the EFF for Greece was cancelled. During the same period, the SBAs of Bosnia and Herzegovina, Jordan, Romania, and Tunisia and the FCL of Colombia (approved on June 24, 2013) expired.

At January 31, 2016, the undrawn balances under 12 SBA and EFF arrangements that were in effect in the GRA amounted to SDR 10,355 million (SDR 29,165 million under 16 SBA and EFF arrangements at April 30, 2015). In addition, three arrangements under the FCL totaling SDR 64,162 million and one arrangement under the PLL with an undrawn balance of SDR 3,235 million were active at January 31, 2016 (three arrangements under the FCL totaling SDR 66,662 million and one arrangement under the PLL

with an undrawn balance of SDR 3,235 million at April 30, 2015); see Schedule 3.

Changes in the outstanding use of IMF credit under the various facilities of the GRA were as follows:

_	April 30, 2015	Purchases	Repurchases	January 31, 2016
		(In million	s of SDRs)	
Credit tranches	15,899	1,455	(7,725)	9,629

Enlarged access	149	_	(2)	147
CCFF ¹	29	_	_	29
SFF ¹	17			17
Total credit outstanding	81,238	<u>7,868</u>	<u>(20,973)</u>	<u>68,133</u>

¹ Extended Fund Facility (EFF), Compensatory and Contingency Financing Facility (CCFF), and Supplementary Financing Facility (SFF).

Repurchases during the nine months ended January 31, 2016, and 2015 included advance repurchases of SDR 1,738 million and SDR 7,938 million, respectively.

Scheduled repurchases in the GRA, including overdue repurchases, are summarized below:

Financial year ending April 30	General Resources Account
	(In millions of SDRs)
2016	1,307
2017	2,236
2018	3,186
2019	8,240
2020	8,467
2021 and beyond	26,580
Overdue	259
Total	<u>50,275</u>

The concentration of GRA outstanding credit by region was as follows:

	January	31, 2016	April 3	0, 2015
	(In millions of total	of SDRs an GRA credit		
Africa	127	0.3%	304	0.5%
Asia and Pacific	422	0.9%	758	1.4%
Europe	41,792	83.1%	48,120	87.1%
Middle East and Central Asia	7,363	14.6%	5,332	9.7%
Western Hemisphere	571	<u>1.1%</u>	714	1.3%
Total	<u>50,275</u>	<u>100%</u>	<u>55,228</u>	<u>100%</u>

The use of credit in the GRA by the largest users was as follows:

_	January	31, 2016	April 30	, 2015
			nd as a perce it outstanding	
Largest user of credit	16,363	32.5%	17,834	32.3%
Three largest users of credit	36,421	72.4%	42,348	76.7%
Five largest users of credit	43,794	87.1%	48,811	88.4%

The five largest users of GRA credit and their scheduled repurchases for the remainder of FY 2016 were as follows:

	Credit outstanding at January 31, 2016	Scheduled repurchases in FY 2016
	(In millions of SDRs)	
Portugal	16,363	—
Greece	12,357	1,051
Ukraine	7,701	_
Ireland	3,773	_
Pakistan	3,600	
Total	<u>43,794</u>	<u>1,051</u>

2.1 Overdue obligations

At January 31, 2016, and April 30, 2015, two members were six months or more overdue in settling their financial obligations to the General Department as follows:

	GRA repu and SAF		GRA char SAF int	0
	January 31, 2016	April 30, 2015	January 31, 2016	April 30, 2015
		(In millio	ons of SDRs)	
Total overdue Overdue for six	268	274	849	847
months or more Overdue for three	268	274	848	845
years or more	268	274	840	838

The type and duration of the overdue amounts in the General Department were as follows at January 31, 2016:

	GRA repurchases and SAF loans	GRA charges and SAF interest	Total obligation	Longest overdue obligation
		(In millions of	SDRs)	
Somalia	105	123	228	July 1987
Sudan	163	726	889	July 1985
Total	_268	849	<u>1,117</u>	

3. Interest, charges, and fees

At January 31, 2016, the credit outstanding on which the IMF levies charges amounted to SDR 50,275 million (SDR 55,228 million at April 30, 2015). For the nine months ended January 31, 2016, and

2015, the basic rate of charge was set at the SDR interest rate plus a fixed margin of 100 basis points. The average rate of charge (adjusted for burden sharing) before applicable surcharges for the nine months ended January 31, 2016, was 1.050 percent per annum (1.064 percent per annum for the nine months ended January 31, 2015).

Interest and charges receivable were as follows:

	January 31, 2016	April 30, 2015
	(In millions o	of SDRs)
Charges receivable	1,048	1,134
Amount paid through burden sharing	(714)	(712)
	334	422
Accrued interest on SDR holdings	2	2
Total interest and charges receivable	e <u>336</u>	424

The IMF recovers the loss of income due to charges not paid by Somalia and Sudan under the burden sharing mechanism (all other members are current). Under this mechanism, the rate of charge is increased and the rate of remuneration is reduced so as to generate an amount of net income equal to the overdue charges. Members that participate in burden sharing receive refunds to the extent that overdue charges are subsequently collected.

Commitment fees on canceled, reduced, or expired arrangements and service charges amounted to SDR 117 million and SDR 536 million for the nine months ended January 31, 2016, and 2015, respectively.

4. Investments

Investments consisted of the following:

	J	lanuary 31, 201	6
	Fixed-Income		Tetal
	Subaccount	Subaccount	Total
At fair value through profit or loss	(Ir	n millions of SDI	Rs)

Fixed-term deposits		2,689	2,689
Total	<u>10,431</u>	4,633	15,064

At January 31, 2016, the notional value of foreign currency forward contracts held in the Endowment Subaccount amounted to SDR 2,555 million (SDR 1,722 million at April 30, 2015).

The maturities of the fixed-income securities in the Investment Account at January 31, 2016, were as follows:

Financial year ending April 30

	(In millions of SDRs)
2016	2,151
2017	3,844
2018	4,544
2019	1,841
2020	200
2021 and beyond	<u>1,312</u>
Total	<u>13,892</u>

Investment (loss)/income comprised the following for the nine months ended January 31, 2016, and 2015:

	2016	2015
	(In milli	ons of SDRs)
Interest and dividends	111	74
Net realized losses	(143)	(27)
Net unrealized gains	3	167
Total	(29)	214

5. Gold holdings

At January 31, 2016, and April 30, 2015, the IMF held gold of 2,814 metric tons, equal to 90.474 million fine troy ounces, at designated depositories. Gold holdings were valued at a historical cost of SDR 3,167 million at January 31, 2016 and April 30, 2015, based on a cost of SDR 35 per fine troy ounce.

At January 31, 2016, the market value of the IMF's holdings of gold was SDR 72.9 billion (SDR 75.9 billion at April 30, 2015). The

market value of the gold holdings is determined based on quoted prices in active markets (Level 1 in the fair value hierarchy).

6. Borrowings

The IMF can borrow to temporarily supplement its quota resources. The Executive Board has established guidelines on borrowing by the IMF to ensure that the financing of the IMF is managed in a prudent and systemic manner. The IMF's main standing borrowing arrangement is the enlarged and expanded New Arrangements to Borrow (NAB). The IMF may also borrow under bilateral agreements, in particular loan and note purchase agreements (bilateral borrowing agreements), the General Arrangements to Borrow (GAB), and an associated agreement with Saudi Arabia.

The IMF may potentially borrow up to SDR 366.5 billion under the enlarged and amended NAB, SDR 271 billion under the 2012 bilateral borrowing agreements, and SDR 18.5 billion under the GAB and an associated agreement with Saudi Arabia. The NAB is the facility of first and principal recourse, and outstanding drawings and commitments under the NAB and GAB combined cannot exceed SDR 366.5 billion. As of January 31, 2016, only the NAB had been activated with SDR 241 billion available for drawing (SDR 252 billion at April 30, 2015), including amounts carried over and available for commitments made during prior activations.

The IMF has signed a number of borrowing agreements (2012 agreements) with member countries and their central banks that would provide resources intended to serve as a second line of defense to IMF quotas and NAB resources and as a bridge to the Fifteenth General Review of Quotas, and as such can be activated only under specific conditions. As of January 31, 2016, bilateral borrowing agreements with commitments of US\$375 billion (SDR 271 billion) were effective, but not activated.

During the nine months ended January 31, 2016, drawings and repayments of borrowings amounted to SDR 3,105 million and SDR 5,926 million, respectively (SDR 5,836 million and SDR 10,157 million, respectively, during the nine months ended January 31, 2015). Total outstanding borrowings at January 31, 2016 and April 30, 2015, were SDR 33,958 million and SDR 36,779 million, respectively (see Schedule 4).

The average interest rate on outstanding borrowings was 0.050 and 0.064 percent per annum for the nine months ended January 31, 2016 and 2015, respectively, and the interest expense on outstanding borrowings during the same periods was SDR 14 million and SDR 23 million, respectively.

Scheduled repayments of outstanding borrowings are summarized below:

Financial year ending April 30

	(In millions of SDRs)
2016	1,523
2017	3,633
2018	3,110
2019	6,105
2020	6,327
2021 and beyond	<u>13,260</u>
Total	<u>33,958</u>

7. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset, or transfer the liability, takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market.

The following tables present the fair value hierarchy used to determine the fair value of investments at January 31, 2016 and April 30, 2015:

	January 31, 2016		
	Level 1:	Level 2:

There were no Level 3 financial instruments at January 31, 2016 and April 30, 2015, and there have been no transfers between Level 1 and Level 2 during the nine months ended January 31, 2016.

Investments in fixed-term deposits and short-term investments in the IA are generally of a short-term nature and are carried at amortized cost, which approximates fair value.

The IMF plays a unique role in providing balance of payments support to member countries. IMF financing features policy conditions that require member countries to implement macroeconomic and structural policies and are an integral part of IMF lending. These measures aim to help countries solve their balance of payments problems while safeguarding IMF resources. The fair value of IMF credit outstanding as defined under IFRS 13 cannot be determined due to its unique characteristics, including the debtor's membership relationship with the IMF, and the absence of a principal or most advantageous market for IMF credit. The carrying value of other financial assets and liabilities that are accounted for at amortized cost represents a reasonable estimate of their fair value.

8. Remuneration

The IMF pays interest, referred to as remuneration, on each member's reserve tranche position. At January 31, 2016, the portion of the reserve tranche on which the IMF pays remuneration amounted to SDR 21,135 million (SDR 30,886 million at January 31, 2015). The average rate of remuneration (adjusted for burden sharing) for the nine months ended January 31, 2016, and 2015 was 0.044 percent and 0.062 percent per annum, respectively.

Remuneration consisted of the following for the nine months ended January 31:

	2016	2015				
	(In millions of SDRs)					
Remuneration	8	18				
Burden sharing adjustments	<u>(1</u>)	<u>(1</u>)				
		_17				

9. Employee benefits

The IMF has a defined benefit Staff Retirement Plan (SRP) that covers eligible staff and an adjunct plan, the Supplemental Retirement Benefits Plan (SRBP), for a subset of participants of the SRP. Participants contribute seven percent of their pensionable gross remuneration and the IMF contributes the remainder of the cost of funding the Plans. In addition, the IMF provides other employment and post-retirement benefits, including medical insurance, life insurance, and other non-pension long-term benefits. For this purpose, the IMF established a separate account, the Retired Staff Benefits Investment Account (RSBIA), to hold and invest resources set aside to fund the cost of these post-retirement benefits of current and future retirees.

The defined benefit obligations of the SRP, the SRBP, and other post-retirement benefits are valued annually by independent actuaries using the Projected Unit Credit Method. The latest actuarial valuations were carried out at April 30, 2015 and the net liability of the plans amounted to SDR 829 million.

For the nine months ended January 31, 2016 and 2015, the remeasurements of the net defined benefit obligation comprise actuarial gains and losses (the effect of changes in the discount rate, from 3.92 percent to 4.20 percent and from 4.40 percent to 3.58 percent for the respective periods), and the return on plan assets excluding the amounts included in net interest on the net defined benefit obligation.

The fair value of the plan assets was as follows:

	January 31, 2016	April 30, 2015			
	(In millions of SDRs)				
Pension Plans	6,072	6,622			
Other employee benefits	<u>1,328</u>	<u>1,431</u>			
Total assets	<u>7,400</u>	<u>8,053</u>			

10. Related party transactions

The GRA holds SDRs and accepts and uses them in operations and transactions with participants in the SDR Department. The expenses of conducting the SDR Department, the SRP, the SRBP, the RSBIA, and other accounts administered by the IMF as Trustee are paid by the GRA. Reimbursements are made by the SDR Department (through assessments levied on SDR Department participants), PRG Trust, CCR Trust, MDRI-I Trust, the SRP, and the RSBIA, and some, but not all, of the administered accounts.

11. Other administered accounts

At the request of certain members, the IMF has established accounts to administer resources contributed by these members and to perform financial and technical services consistent with the purposes of the IMF. The assets of each account and each subaccount are separate from the assets of all other accounts of, or administered by, the IMF and are not to be used to discharge

liabilities or to meet losses incurred in the administration of other accounts.

The total assets of these accounts were as follows:

	January 31, 2016	April 30, 2015
	(In millions of	U.S. dollars)
Administered Account Japan	131.6	131.4

In the context of the effectiveness of the Fourteenth General Review of Quotas, the Executive Board reviewed the access limits, surcharges, and commitment fee policies that are quota-based. On February 17, 2016, the Executive Board decided to modify the access limits, surcharges, and commitment fee policies, which became effective immediately except for the surcharges policy, which applied to members on a rolling basis as they paid their quota increases until February 26, 2016, after which the decisions apply to all members. The decisions also provide for limited grandfathering to eligible members.

** Less than US\$50,000.

13. Subsequent events – Quotas, Borrowings, and Review of Access Limits and Surcharges Policies

Under the Fourteenth General Review of Quotas, members' quotas will double to SDR 477 billion. On January 26, 2016, the conditions for implementing the 2010 Quota and Governance reforms and the quota increase under the Fourteenth General Review of Quotas were met.

The period for payment of quota increases under the Fourteenth General Review of Quotas ended on February 25, 2016, but was extended to April 27, 2016. As of February 25, 2016, 149 members had completed their quota increases totaling SDR 228.9 billion and 24 members had consented but not yet paid their quota increases (SDR 5.0 billion).

As of February 25, 2016, the quota increases for all NAB participants had been paid and the total NAB credit commitments had decreased by SDR 185.9 billion to SDR 180.6 billion. On February 25, the Executive Board decided to deactivate the NAB and lower the ratio of NAB to quota resources for financing commitments under arrangements approved during prior NAB activation periods. Drawings under existing arrangements will be financed in equal shares by NAB and quota resources. All future commitments will be financed solely by quota resources.

¹ The available resources take into account a prudential balance set at 20 percent of amounts made available under the NAB (the activated amount of the NAB and a portion of NAB financing from prior activation periods not yet drawn). ² Usable resources consist of: (i) holdings of currencies of members considered by the IMF as having balance of payments and reserve positions sufficiently strong for

² Usable resources consist of: (i) holdings of currencies of members considered by the IMF as having balance of payments and reserve positions sufficiently strong for their currencies to be used in transfers; (ii) SDR holdings; and (iii) any unused amounts under credit lines that have been activated.

³ Repurchases by member countries during the coming 12-month period.

⁴ Repayments of borrowings during the coming 12-month period.

⁵ Prudential balance is set at 20 percent of quotas of members whose currencies are used in the financing of IMF transactions.

⁶ The FCC does not include bilateral commitments from members to boost the IMF's resources. These resources will only be counted toward the FCC once: (i) individual bilateral agreements are effective; and (ii) the associated resources are available for use by the IMF, as determined by the Executive Board.

⁷ Outstanding drawings and commitments under the NAB and GAB cannot exceed SDR 366.5 billion.

The IMF may borrow under the NAB, the GAB and the associated agreement with Saudi Arabia. At January 31, 2016, only the NAB had been activated. Members have also entered into bilateral borrowing agreements with the IMF to boost its resources that serve as a second line of defense to the IMF's quota and NAB resources. At January 31, 2016, bilateral agreements totaling US\$375 billion (SDR 271 billion) were signed and effective. The latter includes agreements with Bank of Algeria, Australia, National Bank of Belgium, Brunei Darussalem, People's Bank of China, Czech National Bank, Danmarks Nationalbank, Bank of Finland, France, Deutsche Bundesbank, Reserve Bank of India, Banca d'Italia, Japan, Korea, Luxembourg, Bank Negara Malaysia, Central Bank of Malta, Banco de Mexico, De Nederlandsche Bank NV, New Zealand, Norges Bank, Oesterreichische Nationalbank, Bangko Sentral og Pilipinas, Narodowy Bank Polski, Central Bank of the Russian Federation, Saudi Arabia, Monetary Authority of Singapore, Slovak Republic, Bank of Slovenia, Spain, Sveriges Riksbank, Bank of Thailand, and Central Bank of the Republic of Turkey. ² The 2009 agreements have expired.

SDR Department Notes to the financial statements for the three and nine months ended January 31, 2016, and 2015

1. Basis of preparation and measurement

The unaudited financial statements of the SDR Department are prepared in accordance with International Accounting Standard 34 (*Interim Financial Reporting*) issued by the International Accounting Standards Board (IASB). These financial statements do not include all information and notes required by International Financial Reporting Standards (IFRS) for complete financial statements and should be read in conjunction with the April 30, 2015 financial statements and the notes included therein.

The SDR Department holds no cash or cash equivalents. Cash flows arising from operating activities are limited to the receipt of charges and assessments and payment of interest and administrative expenses. A Statement of Cash Flows is not presented as it would not provide additional information beyond that already contained in the Statement of Comprehensive Income. Receipts and uses of SDRs are shown in Schedule 1.

1.1 Unit of account

The financial statements are presented in SDRs, which is the IMF's unit of account. At January 31, 2016, one SDR was equal to US\$1.38050 (US\$1.40642 at April 30, 2015).

On November 30, 2015, the IMF Executive Board concluded the fiveyearly review of the basket of currencies that make up the SDR and decided that the Chinese renminbi met the criteria for inclusion in the valuation basket. Effective October 1, 2016, the SDR basket will consist of the U.S. dollar, the euro, the Chinese renminbi, the Japanese yen, and the pound sterling. The value of the SDR will continue to be calculated by summing specific amounts of the basket currencies expressed in U.S. dollar equivalents. These specific amounts will be determined on September 30, 2016 using the average exchange rates for the preceding three-month period to ensure that the shares of the basket currencies correspond to the following weights:

Currency	Weight (in percent)
U.S. dollar	41.73
Euro	30.93
Chinese renminbi	10.92
Japanese yen	8.33
Pound sterling	8.09

The SDR interest rate will continue to be determined as the weighted average of the interest rates on short-term financial instruments in the money markets of the SDR basket currencies. The representative interest rate for the Chinese renminbi will be the three-month benchmark yield for China Treasury bonds as published by the China Central Depository and Clearing Co., Ltd.

The next review of the method of valuation of the SDR will take place by September 30, 2021 unless developments in the interim justify an earlier review.

1.2 Interest and charges

Interest is paid on holdings of SDRs and charges are levied on each participant's net cumulative SDR allocation at the SDR interest rate. Charges are also levied on any negative balance of the participant or unpaid charges (none during the nine months ended January 31, 2016, and 2015). If sufficient SDRs are not received because charges are overdue, additional SDRs are temporarily created. Interest and charges are settled by crediting and debiting the appropriate individual holdings accounts. The average SDR interest rate was 0.051 and 0.050 percent for the three and nine months ended January 31, 2016, respectively (0.050 and 0.064 percent for the three and nine months ended January 31, 2015).

2. Allocations and holdings

At January 31, 2016 and April 30, 2015, cumulative allocations to participants totaled SDR 204.1 billion. Participants can use and receive SDRs in transactions and operations between themselves and with prescribed holders and the General Resources Account (GRA). As a result, participants with holdings below their allocations have a net obligation to the SDR Department, which is presented as an asset in the Statements of Financial Position. Participants with holdings in excess of their allocations have established a net claim on the SDR Department, which is presented in the Statements of Financial Position as a liability.

Participants' net SDR positions at January 31, 2016 and April 30, 2015 were as follows:

	Jan	uary 31, 2016	6	A	pril 30, 2015	
	Below allocations	Above allocations	Total	Below allocations	Above allocations	Total
			(In millions	of SDRs)		
Cumulative allocations Holdings of	124,797	79,294	204,091	128,935	75,156	204,091
SDRs	<u>105,196</u>	83,731	188,927	<u>110,797</u>	<u>78,541</u>	<u>189,338</u>
Net SDR positions	19,601	<u>(4,437)</u>	15,164	18,138	<u>(3,385)</u>	14,753

A summary of SDR holdings as of January 31, 2016 and April 30, 2015 is provided below:

	January 31, 2016	April 30, 2015
	(In million	s of SDRs)
Participants	188,927	189,338
General Resources Account	13,768	13,617
Prescribed holders	1,396	1,136
Total holdings	204,091	204,091

In accordance with the provision of the Fourth Amendment of the IMF's Articles of Agreement, SDRs are held in escrow on behalf of participants with overdue obligations to the General Department and the Poverty Reduction and Growth Trust (PRG Trust). At January 31, 2016 and April 30, 2015, SDR 86.7 million was held in escrow for Somalia (SDR 4.2 million), Sudan (SDR 16.1 million), and Zimbabwe (SDR 66.4 million). These amounts would be released to the participants upon the settlement of overdue obligations to the IMF, and their allocations and holdings adjusted accordingly.

Notes to the financial statements for the three and nine months ended January 31, 2016, and 2015

3. Related party transactions and administrative expenses

The GRA is a holder of SDRs and conducts operations and transactions with the SDR Department participants. The GRA's holdings of SDRs amounted to SDR 13.8 billion and SDR 13.6 billion at January 31, 2016 and April 30, 2015, respectively.

The expenses of conducting the business of the SDR Department are paid by the IMF from the GRA, which is reimbursed by the SDR Department. For this purpose, the SDR Department levies an assessment on all participants in proportion to their cumulative allocations at the end of each financial year.

The accompanying notes are an integral part of these financial statements. ¹ Formerly the Post-Catastrophe Debt Relief (PCDR) Trust and Related Umbrella Account. ² For the period May 1, 2015 until August 1, 2015.

1. Basis of preparation and measurement

The unaudited financial statements of the Concessional Lending and Debt Relief Trusts (the Trusts) have been prepared in accordance with International Accounting Standard 34, (*Interim Financial Reporting*) issued by the International Accounting Standards Board (IASB). These financial statements do not include all information and notes required by International Financial Reporting Standards (IFRS) for complete financial statements and should be read in conjunction with the April 30, 2015 financial statements and the notes included therein.

1.1 Liquidation of the MDRI-II Trust

The MDRI-II Trust was liquidated on August 1, 2015. At the request of the contributors, the remaining resources of the MDRI-II Trust were returned to them, transferred to the General Account of the CCR Trust to augment resources for debt relief assistance or the Post-MDRI-II Interim Account. The latter temporarily holds and administers resources on behalf of the contributors, pending their decision as to the final disposition of these resources.

1.2 Unit of account

The financial statements are presented in Special Drawing Rights (SDRs), which is the unit of account of the Trusts. At January 31, 2016, one SDR was equal to US\$1.3805 (US\$1.40642 at April 30, 2015).

1.3 Review of SDR valuation

On November 30, 2015, the IMF Executive Board concluded the fiveyearly review of the basket of currencies that make up the SDR and decided that the Chinese renminbi met the criteria for inclusion in the valuation basket. Effective October 1, 2016, the SDR basket will consist of the U.S. dollar, the euro, the Chinese renminbi, the Japanese yen, and the pound sterling. The value of the SDR will continue to be calculated by summing specific amounts of the basket currencies expressed in equivalents of the U.S. dollar. These specific amounts will be determined on September 30, 2016 using the average exchange rates for the preceding three-month period to ensure that the shares of the basket currencies correspond to the following weights:

Currency	Amount
	(In percent)
U.S. dollar	41.73
Euro	30.93
Chinese renminbi	10.92
Japanese yen	8.33
Pound sterling	8.09

The SDR interest rate will continue to be determined as the weighted average of the interest rates on short-term financial instruments in the money markets of the SDR basket currencies. The representative interest rate for the Chinese renminbi will be the three-month benchmark yield for China Treasury bonds as published by the China Central Depository and Clearing Co., Ltd.

The next review of the method of valuation of the SDR will take place by September 30, 2021 unless developments in the interim justify an earlier review.

2. Investments

The PRG and PRG-HIPC Trusts' investments comprise short-term investments, fixed-term deposits, and fixed-income securities. Fixedincome securities include domestic government bonds of the euro area, Japan, the United Kingdom, and the United States, and medium-term instruments issued by the Bank for International Settlements. Investments consisted of the followinc:

e cha								
	PF	RG	PRG	HIPC				
	Tru	ust	Trust					
	January 31, 2016	April 30, 2015	January 31, 2016	April 30, 2015				
		(In millions of SDRs)						
Short-term investments	39	50	_	_				
Fixed-term deposits	120	279	_	19				
Fixed-income securities	<u>7,196</u>	7,018	411	383				
Total	<u>7,355</u>	7,347	411	402				

The maturities of the investments at January 31, 2016, were as follows:

Financial year ending April 30	PRG Trust	PRG-HIPC Trust
	(In millions	s of SDRs)
2016	160	_
2017	1,317	59

Net unrealized gains	57	61	—	1
Investment fees	(1)			
Total	40	44	1	3

3. Commitments under PRG Trust arrangements and loans receivable

An arrangement under the PRG Trust is a decision that gives a member the assurance that the IMF as Trustee stands ready to provide freely usable currencies or SDRs during a specified period and up to a specified amount in accordance with the terms of the decision. At January 31, 2016, undrawn balances under 20 arrangements amounted to SDR 1,410 million (SDR 1,732 million under 19 arrangements at April 30, 2015). Commitments and undrawn balances under current arrangements by member are provided in Schedule 2.

Concessional Lending and Debt Relief Trusts Notes to the financial statements for the three and nine months ended January 31, 2016, and 2015

During the nine months ended January 31, 2016, four new arrangements were approved (Guinea-Bissau, Haiti, Mozambique, and São Tomé and Príncipe), arrangements with Bangladesh, Guinea, Kenya, Liberia, Niger, and Solomon Islands were extended, arrangements with Burkina Faso, Niger, and Sierra Leone were augmented, and the arrangements with Bangladesh, Cote d'Ivoire, and São Tomé and Príncipe expired.

At January 31, 2016, the resources of the Loan Accounts included net cumulative transfers from the Reserve Account of SDR 62 million (SDR 63 million at April 30, 2015), related to the nonpayment of principal by Zimbabwe.

Scheduled repayments of loans by borrowers, including Zimbabwe's overdue obligations, are summarized below:

Financial year ending April 30

	(In millions of SDRs)
2016	108
2017	729
2018	867
2019	958
2020	899
2021 and beyond	2,893
Overdue	62
Total	<u>6,516</u>

The concentration of PRG Trust outstanding credit by region was as follows:

	January 3	31, 2016	April 30	0, 2015
	755 11.6% 563 9.0% 196 3.0% 217 3.5% 682 10.5% 719 11.5% 164 2.5% 172 2.8%			
Africa	4,719	72.4%	4,573	73.2%
Asia and Pacific	755	11.6%	563	9.0%
Europe	196	3.0%	217	3.5%
Middle East and Central Asia	682	10.5%	719	11.5%
Western Hemisphere	164	2.5%	172	2.8%
Total	<u>6,516</u>	100%	6,244	100%

The use of credit in the PRG Trust by the largest users was as follows:

	January 3	1, 2016	April 30	, 2015
		ns of SDRs RG Trust cr		
Largest user of credit	774	11.9%	703	11.3%
Three largest users of credit	2,046	31.4%	1,842	29.5%
Five largest users of credit	2,932	45.0%	2,639	42.3%

The five largest users of credit at January 31, 2016, in descending order, were Côte d'Ivoire, Bangladesh, Ghana, Kenya, and the Democratic Republic of the Congo (Côte d'Ivoire, Kenya, Bangladesh, Ghana, and the Democratic Republic of the Congo at April 30, 2015).

Outstanding loans by member at January 31, 2016 are shown in Schedule 1.

4. Borrowings

The weighted average interest rate on PRG Trust borrowings was 0.11 percent and 0.14 percent for nine months ended January 31, 2016, and 2015, respectively. The weighted average interest rate on outstanding PRG-HIPC Trust borrowings was 0.01 percent for the nine months ended January 31, 2016, and 2015.

Scheduled repayments of outstanding borrowings are summarized below:

Financial year ending April 30	PRG Trust	PRG-HIPC Trust
	(In millions	s of SDRs)
2016	535	—
2017	2,252	—
2018	848	—
2019	716	121
2020	586	16
2021 and beyond	1,738	39
Total	6,675	176

The undrawn balances of the PRG Trust borrowing agreements amounted to SDR 6,114 million for the Loan Accounts as of January 31, 2016 (SDR 6,910 million as of April 30, 2015). Undrawn balances for the Subsidy Accounts amounted to SDR 17 million as of January 31, 2016, and April 30, 2015. All available PRG-HIPC Trust borrowing arrangements have been fully drawn.

5. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset, or transfer the liability, takes place either in a principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market.

At January 31, 2016, and April 30, 2015, the Trusts' investments in fixed-income securities, as disclosed in Note 2, were categorized as Level 2 based on the fair value hierarchy (there were no Level 1 or Level 3 securities).

Short-term investments and fixed-term deposits are generally of a short-term nature and are carried at amortized cost, which approximates fair value.

The PRG Trust, and the IMF as Trustee, plays a unique role in providing balance of payments support to member countries. PRG Trust financing features policy conditions that require member countries to implement macroeconomic and structural policies and are an integral part of Trust lending. These measures aim to help countries solve their balance of payments problems while safeguarding Trust resources. The fair value of PRG Trust loans receivable as defined under IFRS 13 cannot be determined due to their unique characteristics, including the debtor's membership relationship with the IMF, the Trustee, and the absence of a principal or most advantageous market for PRG Trust loans. The carrying value

Concessional Lending and Debt Relief Trusts Notes to the financial statements for the three and nine months ended January 31, 2016, and 2015

of other assets and liabilities accounted for at amortized cost represents a reasonable estimate of their fair value.

6. Contributions

Contributions to the PRG Trust Subsidy Accounts amounted to SDR 107 million and SDR 104 million for the nine months ended January 31, 2016, and 2015, respectively. These contributions include voluntary contributions made by IMF members following the distributions from the IMF's General Reserve of SDR 0.7 billion and SDR 1.75 billion in October 2012 and 2013, respectively, attributable to windfall gold sales profits. Cumulative contributions related to the first and second distributions of the IMF's General Reserve amounted to SDR 2.1 billion at January 31, 2016 (see Schedule 3).

Contributions to the General Account of the CCR Trust for the nine months ended January 31, 2016 amounted to SDR 92 million, of which SDR 39 million was transferred from the MDRI-II Trust (see Schedule 3).

7. Related party transactions

The expenses of conducting the business of the Trusts were paid by the General Resources Account (GRA) of the IMF. For the financial year ended April 30, 2015, the PRG and CCR Trusts made reimbursements of SDR 53 million and SDR 0.07 million, respectively, to the GRA. To meet the financing needs of low-income countries, the IMF has mobilized resources from various sources. In addition to bilateral contributions from member countries, the IMF also made contributions to the PRG, PRG-HIPC, and CCR Trusts. Cumulative contributions from the IMF as of January 31, 2016, and April 30, 2015, were as follows:

	(In millions of SDRs)
PRG Trust Reserve Account	2,697
PRG Trust Subsidy Accounts	1,018
PRG-HIPC Trust	1,239
CCR Trust	293
Total	<u>5,247</u>

8. Combining statements of financial position and statements of comprehensive income and changes in resources

The combining statements of financial position and statements of comprehensive income and changes in resources of the PRG Trust are presented on the following page. The same statements are not presented for the PRG-HIPC and CCR Trusts as the financial positions of the respective umbrella accounts remained unchanged since April 30, 2015.
