Notes to the financial statements for the three months ended July 31, 2017, and 2016

1. Basis of preparation and measurement

The unaudited financial statements of the General Department include the accounts of the General Resources Account (GRA); the Investment Account (IA); and the Special Disbursement Account (SDA). The financial statements are prepared in accordance with International Accounting Standard 34 Interim Financial Reporting issued by the International Accounting Standards Board (IASB). These financial statements do not include all information and notes required by International Financial Reporting Standards (IFRS) for complete financial statements and should be read in conjunction with the April 30, 2017 financial statements and the notes included therein.

The accounting policies and computation methods followed in these financial statements have not changed from those followed in the April 30, 2017 financial statements.

1.1 Unit of account

The financial statements are presented in Special Drawing Rights (SDRs), which is the IMF's unit of account. At July 31, 2017, 1 SDR was equal to US\$1.40775 (US\$1.37102 at April 30, 2017).

1.2 SDR interest rate

The SDR interest rate provides the basis for charges levied on credit outstanding (see Note 9), interest on SDR holdings, remuneration paid on a portion of members' reserve tranche positions (Note 10), and interest on borrowings (Note 7).

The SDR interest rate is subject to a floor of 0.050 per cent and is rounded to three decimal places. The average SDR interest rate was 0.573 percent per annum and 0.050 percent per annum for the three months ended July 31, 2017, and 2016, respectively.

In addition, at July 31, and April 30, 2017, three arrangements under Flexible Credit Lines (FCLs) totaling SDR 77,069 million and one arrangement under the Precautionary and Liquidity Line (PLL) with an undrawn balance of SDR 2,504 million were active; see Schedule 3.

There were no Level 3 financial instruments at July 31, and April 30, 2017, and there have been no transfers between Level 1 and Level 2 during the period.

Investments in fixed-term deposits and short-term investments in the IA are generally of a short-term nature and are carried at amortized cost, which approximates fair value.

4.3 Financial assets and liabilities other than investments

The IMF plays a unique role in providing balance of payments support to member countries. IMF financing features policy conditions that require member countries to implement macroeconomic and structural policies and are an integral part of IMF lending. These measures aim to help countries resolve their balance of payments problems while safeguarding IMF resources. The fair value of IMF credit outstanding as defined under IFRS 13 cannot be determined due to its unique characteristics, including the debtor's membership relationship with the IMF, and the absence of a principal or most advantageous market for IMF credit. The carrying value of other financial assets and liabilities that are accounted for at amortized cost represents a reasonable estimate of their fair value.

5. Gold holdings

At July 31, and April 30, 2017, the IMF held gold of 2,814 metric tons, equal to 90.474 million fine troy ounces, at designated depositories. Gold holdings were valued at a historical cost of SDR 3,167 million at July 31, and April 30, 2017, based on a cost of SDR 35 per fine troy ounce.

At July 31, 2017, the market value of the IMF's holdings of gold was SDR 81.5 billion (SDR 83.6 billion at April 30, 2017). The market value of the gold holdings is determined based on quoted prices in active markets (Level 1 in the fair value hierarchy).

6. Employee benefits

The IMF has a defined benefit Staff Retirement Plan (SRP) that covers eligible staff and an adjunct plan, the Supplemental Retirement Benefits Plan (SRBP), for a subset of participants of the SRP. Participants contribute seven percent of their pensionable gross remuneration and the IMF contributes the remainder of the cost of funding the Plans. In addition, the IMF provides other employment and post-retirement benefits, including medical insurance, life insurance, and other non-pension long-term benefits. For this purpose, the IMF has established a separate account, the Retired Staff Benefits Investment Account (RSBIA), to hold and invest resources set aside to fund the cost of these post-retirement benefits of current and future retirees.

The defined benefit asset/liability of the SRP, the SRBP, and other post-retirement benefits are valued annually by independent actuaries using the Projected Unit Credit Method and updated quarterly to reflect significant market fluctuations.

Notes to the financial statements for the three months ended July 31, 2017, and 2016

For the three months ended July 31, 2017, and 2016, the remeasurements of the net defined benefit asset/liability comprised actuarial gains and losses (the effect of changes in the discount rate, from 3.97 percent to 3.79 percent and from 3.75 percent to 3.38 percent, respectively) and the return on plan assets excluding the amounts included in interest income related to plan assets.

The amounts recognized in the statements of financial position were determined as follows:

| | Pension | benefits | Other emplo | yee benefits |

7. Borrowings

The Executive Board has established guidelines on borrowing by the IMF to ensure that the financing of the IMF is managed in a prudent and systemic manner.

At July 31, 2017, the IMF had commitments of SDR 180.6 billion under the New Arrangements to Borrow (NAB), SDR 280 billion under the bilateral borrowing agreements, and SDR 18.5 billion under the General Arrangements to Borrow (GAB) and an associated agreement with Saudi Arabia; see Schedule 4.

The NAB is the facility of first and principal recourse, and outstanding drawings and commitments under the NAB and the GAB cannot exceed SDR 180.6 billion. The NAB was deactivated in February 2016, but SDR 3,597 million remained available at July 31, 2017 (SDR 3,606 million at April 30, 2017), to finance commitments approved during prior activation periods.

Bilateral borrowing agreements are intended to serve as a third line of defense to IMF quotas and NAB resources, and as such can only be activated under specific conditions. At July 31, 2017, lenders' commitments under effective borrowing agreements totaled US\$394 billion, equivalent to SDR 280 billion (US\$355 billion, equivalent to SDR 259 billion at April 30, 2017). Bilateral borrowing agreements have not been activated as of July 31, 2017.

During the three months ended July 31, 2017, drawings and repayments under the NAB amounted to SDR 9 million and SDR 2,195 million, respectively (SDR 232 million and SDR 229 million, respectively, under the NAB and the 2009 bilateral borrowing agreements during the three months ended July 31, 2016). Total outstanding borrowings at July 31, and April 30, 2017, were SDR 26,963 million and SDR 29,149 million, respectively (see Schedule 4).

Scheduled repayments of outstanding borrowings are summarized below:

| Financial year ending April 30 | July 31, 2017 | April 30, 2017 |
|--------------------------------|---------------|----------------|
| | (In million | s of SDRs) |
| 2018 | 1,788 | 2,203 |
| 2019 | 3,196 | 3,235 |
| 2020 | 3,893 | 5,651 |
| 2021 | 5,943 | 5,986 |
| 2022 | 5,993 | 5,992 |
| 2023 and beyond | 6,150 | 6,082 |
| Total | 26,963 | 29,149 |

Outstanding borrowings are denominated in SDRs and carry the SDR interest rate. The average interest rate on outstanding borrowings was 0.573 percent per annum and 0.050 percent per annum for the three months ended July 31, 2017, and 2016, respectively. The interest expense on outstanding borrowings during the same periods was SDR 41 million and SDR 4 million, respectively.

8. Quotas

Members' quotas and reserve tranche positions were as follows (see also Schedule 1):

| | July 31, 2017 | April 30, 2017 |
|--|----------------|----------------|
| | (In millions | s of SDRs) |
| Total quotas | 475,473 | 475,383 |
| Total currency holdings | 474,488 | 475,140 |

| Less: administrative balances | (18) | (11) |
| Other subscription payments | <u>427,650</u> | <u>426,829</u> |
| Reserve tranche positions | 47,823 | 48,554 |

9. Charges and fees

The average credit outstanding subject to charges amounted to SDR 47,969 million and SDR 48,064 million for the three months ended July 31, 2017, and 2016, respectively.

The basic rate of charge was the SDR interest rate plus a fixed margin of 100 basis points during the three months ended July 31, 2017 and 2016. The rate of charge is the basic rate of charge reduced by burden sharing adjustments to recover the loss of income due to charges not paid by Somalia and Sudan (all other members are current). Under the burden sharing mechanism, the rate of charge is increased and the rate of remuneration is reduced so as to generate an amount of net income equal to the overdue charges. Members that participate in burden sharing receive refunds to the extent that overdue charges are subsequently collected in future periods. The average rate of charge (adjusted for burden sharing) was 1.578 percent per annum and 1.050 percent per annum for the three months ended July 31, 2017, and 2016, respectively.

Notes to the financial statements for the three months ended July 31, 2017, and 2016

Credit outstanding in excess of 187.5 percent of quota resulting from purchases in the credit tranches and under the EFF, is subject to a level-based surcharge of 200 basis points per annum above the basic rate of charge. An additional time-based surcharge of 100 basis points per annum applies to such credit outstanding for more than three years, except for purchases under the EFF, for which the additional surcharge of 100 basis points applies after 51 months.

Income from charges for the three months ended July 31, 2017, and 2016, consisted of the following:

| | 2017 | 2016 |
|----------------------------|-------------|------------|
| | (In million | s of SDRs) |
| Basic charges | 189 | 126 |
| Surcharges | 128 | 156 |
| Burden sharing adjustments | <u></u> 1 | <u>_</u> 1 |
| Total charges | <u>317</u> | 282 |

¹ Less than SDR 500,000.

A service charge of 50 basis points is levied by the IMF on all purchases. A commitment fee is levied on the amount available for financing under an arrangement for each 12-month period and refunded as the member makes purchases under the arrangement. The commitment fee amounts to 15 basis points per annum for access up to 115 percent of quota, 30 basis points for access between 115 and 575 percent of quota, and 60 basis points for access in excess of 575 percent of quota.

Service charges and commitment fee income consisted of the following during the three months ended July 31, 2017 and 2016:

| | 2017 | 2016 |
|-----------------|-------------|------------|
| | (In million | s of SDRs) |
| Service charges | 8 | 7 |
| Commitment fees | = | <u>259</u> |
| Total charges | <u>_8</u> | <u>266</u> |

10. Remuneration

The IMF pays interest, referred to as remuneration, on a portion of each member's reserve tranche position. The average remunerated reserve tranche amounted to SDR 40,951 million and SDR 38,797 million during the three months ended July 31, 2017, and 2016, respectively, and remuneration during the same period consisted of the following:

| | 2017 | 2016 |
|----------------------------|--------------|------------|
| | (In millions | of SDRs) |
| Remuneration | 59 | 5 |
| Burden sharing adjustments | <u></u> 1 | <u>—</u> 1 |
| | <u>59</u> | <u>_5</u> |

¹Less than SDR 500.000.

The average rate of remuneration (adjusted for burden sharing) for the three months ended July 31, 2017, and 2016, was 0.568 percent per annum and 0.047 percent per annum, respectively.

11. Related party transactions

The expenses of conducting the business of the SDR Department, the SRP, the SRBP, the RSBIA, and trusts administered by the IMF as Trustee are paid by the GRA. At the end of each financial year, reimbursements are made by the SDR Department (through assessments levied on SDR Department participants), Poverty Reduction and Growth (PRG) Trust, and Catastrophe Containment and Relief (CCR) Trust. The SRP and the RSBIA reimburse the GRA for the cost of the investment operations.

12. Administered accounts

At the request of certain members, the IMF has established accounts to administer resources contributed by these members and to perform financial and technical services consistent with the purposes of the IMF. The assets of each account and each subaccount are separate from the assets of all other accounts of, or administered by, the IMF and are not to be used to discharge liabilities or to meet losses incurred in the administration of other accounts.

The total assets of these accounts were as follows:

² Usable resources consist of (i) holdings of currencies of members considered by the IMF as having balance of payments and reserve positions sufficiently strong for their currencies to be used in transfers, (ii) SDR holdings, and (iii) any unused amounts under credit lines that have been activated.

³ Repurchases by member countries falling due during the coming 12-month period.

⁴ Repayments of borrowings falling due during the coming 12-month period.

⁵ Prudential balance is set at 20 percent of quotas of members whose currencies are used in the financing of IMF transactions.

⁶ The FCC does not include bilateral commitments from members to boost the IMF's resources. These resources will be counted toward the FCC only once (i) individual bilateral agreements are effective and (ii) the associated resources are available for use by the IMF in accordance with the 2016 borrowing framework.

⁷ Outstanding drawings and commitments under the NAB and GAB cannot exceed SDR 180.6 billion.

Notes to the financial statements for the three month ended July 31, 2017, and 2016

1. Basis of preparation and measurement

The unaudited financial statements of the Special Drawing Rights (SDR) Department are prepared in accordance with International Accounting Standard 34 *Interim Financial reporting* issued by the International Accounting Standards Board (IASB). These financial statements do not include all information and notes required by International Financial Reporting Standards (IFRS) for complete financial statements and should be read in conjunction with the April 30, 2017 financial statements and the notes included therein.

The accounting policies and computation methods followed in these financial statements have not changed from those followed in the April 30, 2017 financial statements.

The SDR Department is self-financed and does not have any equity as net cumulative allocations are equal to SDR holdings; and as net revenue and net expenditure are always equal, it generates no income. It holds no cash or cash equivalents. Cash flows arising from operating activities are limited to the receipt of charges and assessments and payment of interest and administrative expenses. A statement of cash flows is not presented as it would not provide additional information beyond that already contained in the Statements of Comprehensive Income. Changes in SDR holdings are shown in Schedule 1.

1.1 Unit of account

The financial statements are presented in SDRs, which is the IMF's unit of account. At July 31, 2017, 1 SDR was equal to US\$1.40775 (US\$1.37102 at April 30, 2017).

1.2 SDR interest rate

Interest is paid on holdings of SDRs, and charges are levied on each participant's net cumulative SDR allocation at the SDR interest rate. Charges are also levied on any negative balance of the participant or unpaid charges (none during the three months ended July 31, 2017, and 2016). If sufficient SDRs are not received because charges are overdue, additional SDRs are temporarily created. Interest and charges are settled by crediting and debiting the appropriate individual holdings accounts.

The SDR interest rate is subject to a floor of 0.050 percent and is rounded to three decimal places. The average SDR interest rate was 0.573 percent and 0.050 percent per annum for the three months ended July 31, 2017, and 2016, respectively.

2. Allocations and holdings

At July 31, and April 30, 2017, cumulative allocations to participants totaled SDR 204.2 billion. Participants can use and receive SDRs in transactions and operations between themselves and with prescribed holders and the General Resources Account (GRA). As a result, participants' holdings may be greater or less than their cumulative allocations.

Participants with holdings below their allocations have a net obligation to the SDR Department, which is presented as an asset in the Statements of Financial Position. Participants with holdings in excess of their allocations have a net claim on the SDR Department, which is presented in the Statements of Financial Position as a liability.

Participants' net SDR positions as of July 31, and April 30, 2017, were as follows:

| | July 31, 2017 | | | April 30, 2017 | | |

| Poditions | <u> </u> | (1,002) | -0,100 | <u> </u> | 1,0017 | |

The composition of SDR holdings as of July 31, and April 30, 2017, was as follows:

| _ | July 31, 2017 | April 30, 2017 | | | |
|---------------------------|-----------------------|----------------|--|--|--|
| | (In millions of SDRs) | | | | |
| Participants | 176,023 | 174,817 | | | |

| Prescribed holders | 1,066 | <u>1,085</u> | | | |
| Total holdings | 204,158 | 204,158 | | | |

In accordance with the provision of the Fourth Amendment of the IMF's Articles of Agreement, SDRs are held in escrow on behalf of participants with overdue obligations to the General Department and the Poverty Reduction and Growth (PRG) Trust. At July 31, and April 30, 2017, SDR 20.3 million was held in escrow for Somalia (SDR 4.2 million) and Sudan (SDR 16.1 million). These remaining amounts would be released to the participants upon the settlement of overdue obligations to the IMF, and their allocations and holdings adjusted accordingly.

3. Related party transactions and administrative expenses

The GRA is a holder of SDRs and conducts operations and transactions with the SDR Department participants. The GRA's holdings of SDRs amounted to SDR 27.1 billion and SDR 28.3 billion at July 31, and April 30, 2017, respectively.

The expenses of conducting the business of the SDR Department are paid by the IMF from the GRA, which is reimbursed by the SDR Department. For this purpose, the SDR Department levies an assessment on all participants in proportion to their cumulative allocations at the end of each financial year.

Notes to the financial statements for the three months ended July 31, 2017, and 2016

1. Basis of preparation and measurement

The International Monetary Fund (IMF) is the Trustee of the following trusts:

- i. The Poverty Reduction and Growth Trust (PRG Trust);
- ii. The Trust for Special Poverty Reduction and Growth Operations for the Heavily Indebted Poor Countries and Interim ECF Subsidy Operations (the PRG-HIPC Trust) and the related Umbrella Account for HIPC Operations (the PRG-HIPC Umbrella Account); and
- The Catastrophe Containment and Relief Trust (CCR Trust) and the related Umbrella Account for CCR Operations (the CCR Umbrella Account).

Collectively, these trusts are referred to as the "Concessional Lending and Debt Relief Trusts" or the "Trusts". The Trusts provide loans on concessional terms and/or debt relief assistance to low-income member countries.

The unaudited financial statements of the Trusts have been prepared in accordance with International Accounting Standards 34 *Interim Financial Reporting*, issued by the International Accounting Standards Board (IASB). These financial statements do not include all the information and notes required by International Financial Reporting Standards (IFRS) for complete financial statements and should be read in conjunction with the April 30, 2017 financial statements and the notes included therein.

The accounting policies and computation methods followed in these financial statements have not changed from those followed in the April 30, 2017 financial statements.

1.1 Unit of account

4.3 Interest on borrowings

The weighted average interest rate on PRG Trust variable interest rate borrowings was 0.51 percent per annum and 0.18 percent for the three months ended July 31, 2017, and 2016, respectively. Most PRG-HIPC Trust borrowings carry a fixed interest rate.

5. Fair value measurement

5.1 Investments

At July 31 and April 30, 2017, the Trusts' investments in fixed-income securities (see Note 2) were categorized as Level 2 based on the fair value hierarchy (there were no Level 1 or Level 3 securities). Fixed-term deposits and short-term investments are generally of a short-term nature and are carried at amortized cost, which approximates fair value

5.2 Loans receivable and other financial assets and liabilities

The PRG Trust, and the IMF as Trustee, plays a unique role in providing balance of payments support to member countries. PRG Trust financing features policy conditions that require member countries to implement macroeconomic and structural policies, and are an integral part of Trust lending. These measures aim to help countries solve their balance of payments problems while safeguarding Trust resources. The fair value of PRG Trust loans receivable as defined under IFRS 13 "Fair Value Mearsurement", cannot be determined due to their unique characteristics, including the debtor's membership relationship with the IMF, the Trustee, and the absence of a principal or most advantageous market for PRG Trust loans. The carrying value of other assets and liabilities accounted for at amortized cost represents a reasonable estimate of their fair value.

6. Related party transactions

The expenses of conducting the business of the Trusts are paid by the IMF from the General Resources Account (GRA) and reimbursed by the PRG and CCR Trusts annually. For the financial year ended April 30, 2017, the PRG and CCR Trusts reimbursed the GRA SDR 70 million and SDR 0.1 million, respectively, for these expenses.

In addition to bilateral contributions from member countries, the IMF also made contributions to the Trusts to meet the financing needs of low-income countries. Cumulative contributions from the IMF were as follows:

| | July 31, and April 30, 2017 |
|----------------------------|-----------------------------|
