

# CONTENTS

<b>Preface</b>	<b>ix</b>
<b>Executive Summary</b>	<b>xi</b>
<b>Chapter 1. The Road to Recovery</b>	<b>1</b>
A. Global Financial Stability Map	1
B. Challenges on the Road to Recovery for the Global Financial System	4
C. Emerging Markets Navigate the Global Crisis but Vulnerabilities Remain	18
D. Will Credit Constraints Hurt the Recovery?	24
E. Managing the Transfer of Private Risks to Sovereign Balance Sheets	31
F. Policy Implications	36
Annex 1.1. Global Financial Stability Map: Construction and Methodology	44
Annex 1.2. Loan Loss and Bank Writedown Estimation Methodology	54
Annex 1.3. Estimating Core Bank Earnings	65
Annex 1.4. Credit Demand and Capacity Estimates in the United States, Euro Area, and the United Kingdom	67
Annex 1.5. The Impact of the Financial Crisis on the Savings Complex— Insurance and Pensions Funds	71
References	77
<b>Chapter 2. Restarting Securitization Markets: Policy Proposals and Pitfalls</b> [Available online at <a href="http://www.imf.org/external/pubs/ft/gfsr/2009/02/pdf/chap2.pdf">http://www.imf.org/external/pubs/ft/gfsr/2009/02/pdf/chap2.pdf</a> ]	
The Rise, Decline, and Fall of Securitization	
Policy Initiatives Aimed at Restarting Sustainable Securitization	
Conclusions and Policy Recommendations	
Annex 2.1. Optimal Retention Policy and Capital Requirements	
References	
<b>Chapter 3. Market Interventions during the Financial Crisis: How Effective and How to Disengage?</b> [Available online at <a href="http://www.imf.org/external/pubs/ft/gfsr/2009/02/pdf/chap3.pdf">http://www.imf.org/external/pubs/ft/gfsr/2009/02/pdf/chap3.pdf</a> ]	
Intervention during the Crisis—Market Reaction to Announcements	
Follow-Up to Initial Market Reaction—Longer-Term Effects of Intervention	
Japan’s Experience during the Latter Part of Its “Lost Decade”	
Disengagement: A Conventional Primer for Unwinding Unconventional Policies	
Conclusions and Policy Takeaways	
Annex 3.1. Financial and Economic Stress Indices	
Annex 3.2. Event Study Methodology and Data	
References	

## CONTENTS

### Statistical Appendix

[Available online at <http://www.imf.org/external/pubs/ft/gfsr/2009/02/pdf/statappx.pdf>]

#### Boxes

1.1. Uncertainty Surrounding Loan Loss Estimations	7
1.2. Repairing Securitization Is Critical to Supporting the Supply of Credit	30
1.3. Rising Public Deficits, Debts, and Bond Yields	34
1.4. Restoring the Level and Quality of Bank Capital	42
2.1. The Case for Restarting Securitization	
2.2. Credit Rating Agency Regulatory Developments	
2.3. Re-Remics and the Revival of Resecuritization	
2.4. Covered Bond Primer	
2.5. Accounting for Securitization Exposures	
2.6. Basel II Securitization- and Resecuritization-Related Enhancements	
2.7. Optimal Retention Policies for Loan Securitization	
3.1. Usage of Unconventional Central Bank Facilities	
3.2. Interventions during Japan's 1990s Financial Crisis	
3.3. Excess Reserves as an Indicator of Funding Liquidity Concerns	
3.4. Implications of the Changes on Central Bank Balance Sheets	

#### Tables

1.1. Credit Market Spreads	5
1.2. Estimates of Global Writedowns by Bank Domicile (2007–10) as of September 2009	10
1.3. Bank Capital, Earnings, and Writedowns	13
1.4. Heat Map of Macro and Financial Indicators in Selected Emerging Market Countries	21
1.5. Growth of Credit Demand from Nonfinancial Private Sector	26
1.6. Total Net Borrowing Needs of Nonfinancial Sectors	28
1.7. Projections of Credit Capacity for and Demand from Nonfinancial Sector	29
1.8. Selected Spreads: Current and Pre-Lehman Brothers	32
1.9. Sensitivity to Common Risk Factor for Euro Area Countries	33
1.10. Changes in Risks and Conditions since the April 2009 <i>Global Financial Stability Report</i>	44
1.11. OECD Database: Coverage and Degree of Consolidation	55
1.12. Statistical Output for the Euro Area Provision Rate Model	56
1.13. Forecasts of Euro Area Provision Rates by Loan Type	57
1.14. Statistical Output for the U.K Provision Rate Model	60
1.15. Cumulative Loss Rates, 2007–10	60
1.16. List of Security Indexes	61
1.17. Euro Area Residential Securities Market	62
1.18. U.S. Residential Securities Market	62
1.19. Regression Output on Demand for Nonfinancial Private and Public Sector Credit	68
1.20. Underfunding Is More Serious in Mature U.S. Industries	74
1.21. Mandatory Defined-Contribution Pension Assets, Selected Countries	74
1.22. Equity Share in Total Portfolios, Selected Countries	75
1.23. Real Performance of Mandatory Defined-Contribution Systems, Selected Countries	75
1.24. Performance of Default Investment Options, Selected Countries	76
2.1. Securitization Policy Progress Report	

- 2.2. United States: Issuance of Asset-Backed and Mortgage-Backed Securities—  
Average Degree of Tranche Retention
- 2.3. Credit Ratings versus Idealized Expected Losses and Basel II Risk Weights
- 2.4. Calculation of Tranche Sizes (Steps 1 and 2) with Assumed 20 Percent  
Effort Level
- 2.5. Calculation of Ratings and Risk Weights (Step 3) with 31.2 Percent Effort  
Level: Mezzanine Tranche Retention
- 3.1. Classification of Events
- 3.2. Number of Interventions
- 3.3. Effectiveness of Crisis Interventions
- 3.4. Effectiveness of Crisis Interventions on the Financial Stress Index
- 3.5. Efficiency of Financial Sector Policy Measures
- 3.6. Three-Month LIBOR-Overnight Index Swap (OIS) Spread: Declines  
from Peak
- 3.7. Supplementary Operations for Managing the Central Bank Balance Sheet
- 3.8. Reversibility and Impact of Financial Sector Measures

## Figures

1.1. Global Financial Stability Map	2
1.2. Heat Map: Developments in Systemic Asset Classes	2
1.3. Contributions to Changes in Corporate Spreads	3
1.4. Systemic Bank Default Risk	3
1.5. Asset Price Volatility and Funding and Market Liquidity	4
1.6. Composite Real Private Borrowing Rate and Short-Term Interest Rates	4
1.7. U.S. Loan Charge-Off Rates	6
1.8. Euro Area: Provision Rates	8
1.9. Realized and Expected Writedowns or Loss Provisions for Banks by Region	9
1.10. Bank Problem Loans and Income	11
1.11. Bank Earnings	11
1.12. Bank Capital Needs	14
1.13. Mature Market Banks: Bond Debt Maturity Structure	16
1.14. Mature Markets: Gross and Guaranteed Bond Issuance by Month	16
1.15. European Central Bank Refinancing Facilities	17
1.16. Global Bank and Insurance Equity Indices	17
1.17. Funding Levels of Defined-Benefit Pension Plans of Companies in Major Equity Indices	18
1.18. Heat Map: Developments in Emerging Market Systemic Asset Classes	19
1.19. Contributions to Changes in Emerging Market Sovereign External Spreads	19
1.20. Emerging Europe Credit Default Swap Spreads, June 30, 2008 to August 31, 2009	19
1.21. Net Capital Inflows	20
1.22. Emerging Markets: Bank Credit to the Private Sector	22
1.23. Refinancing Needs of Emerging Market Forex-Denominated Corporate Debt	22
1.24. Emerging Market External Bond Issuance by Sector and Rating	23
1.25. Rollover Rate of Emerging Market Forex-Denominated Corporate Debt	23
1.26. Emerging Market Corporate Spreads and Speculative-Grade Default Rate	23
1.27. Emerging Europe: Nonperforming Loan Ratios	24
1.28. Private Sector Credit Growth	25
1.29. Growth of Nonfinancial Sector Debt: History and Projected Borrowing Needs	27
1.30. Bank Lending Capacity Growth	27
1.31. Emerging Market Reserve Accumulation	28

## CONTENTS

1.32. Net Sovereign Debt Issuance in Mature Markets	32
1.33. Emerging Market Sovereign Issuance in International Capital Markets	33
1.34. Global Financial Stability Map: Monetary and Financial Conditions	48
1.35. Global Financial Stability Map: Risk Appetite	49
1.36. Global Financial Stability Map: Macroeconomic Risks	50
1.37. Global Financial Stability Map: Emerging Market Risks	51
1.38. Global Financial Stability Map: Credit Risks	52
1.39. Global Financial Stability Map: Market and Liquidity Risks	53
1.40. Provisions for Loan Losses	56
1.41. Estimated Share of Euro Area Bank Loans, 2007–10	57
1.42. Estimated Breakdown of Securities Exposure of Euro Area Banks	64
1.43. Growth of Nonbank Fixed-Income Assets Under Management	70
1.44. Financial Sector Credit Default Swap Spreads	71
1.45. Worsening Funding Ratio of U.S. Defined-Benefit Plans in 2008	72
2.1. The Securitization Landscape	
2.2. Global Private-Label Securitization Issuance by Type	
2.3. U.S. Private-Label Securitization Issuance by Type	
2.4. European Private-Label Securitization Issuance by Type	
2.5. U.S. Asset-Backed Security (ABS) and Private-Label Mortgage-Backed Security (MBS) Issuance	
2.6. Credit Spreads on U.S. AAA Securitization Instruments	
2.7. U.S. Government-Sponsored Enterprise versus Private-Label Mortgage-Backed Security Issuance	
2.8. Non-U.S. and Non-European Private-Label Securitization Issuance	
2.9. Global Covered Bond Issuance	
2.10. Selected Covered Bond Spreads	
2.11. Illustrative Intermediation Chain	
2.12. Where Did All the AAAs Go?	
2.13. U.S. Issuance of Asset-Backed and Mortgage-Backed Securities	
3.1. Time Pattern of Crisis Measures in Sample Countries	
3.2. Spillovers from Global and U.S. Crisis Interventions Reflected on the Financial Stress Index	
3.3. United States: Impact of Counterproductive Interventions on the Financial Stress Index	
3.4. Government-Guaranteed Bonds (GGB) and Nonguaranteed Investment-Grade Bank Bonds	
3.5. Impact of Liability Guarantees on Bond Issuance	
3.6. United States: Outstanding Amount of Commercial Paper	
3.7. Securitization in the United States and Europe	
3.8. Credit Growth and Bank Lending Standards	
3.9. United States: Outstanding Amount of Unconventional Measures by the Federal Reserve	
3.10. Impact of Financial Sector Stabilization Measures on Credit Default Swap (CDS) Spreads	
3.11. Mortgage Rates	
3.12. Banking Sector Current Account Balance with the Bank of Japan	
3.13. Failed Banks Assisted by Deposit Insurance Corporation of Japan	
3.14. Three-Month Spread between TIBOR and LIBOR	
3.15. Japan: Bank Loans and the Consumer Price Index	
3.16. Changes in the Major Components of Central Banks' Balance Sheet	

The following symbols have been used throughout this volume:

. . . to indicate that data are not available;

— to indicate that the figure is zero or less than half the final digit shown, or that the item does not exist;

– between years or months (for example, 1997–99 or January–June) to indicate the years or months covered, including the beginning and ending years or months;

/ between years (for example, 1998/99) to indicate a fiscal or financial year.

“Billion” means a thousand million; “trillion” means a thousand billion.

“Basis points” refer to hundredths of 1 percentage point (for example, 25 basis points are equivalent to 1/4 of 1 percentage point).

“n.a.” means not applicable.

Minor discrepancies between constituent figures and totals are due to rounding.

As used in this volume the term “country” does not in all cases refer to a territorial entity that is a state as understood by international law and practice. As used here, the term also covers some territorial entities that are not states but for which statistical data are maintained on a separate and independent basis.
