

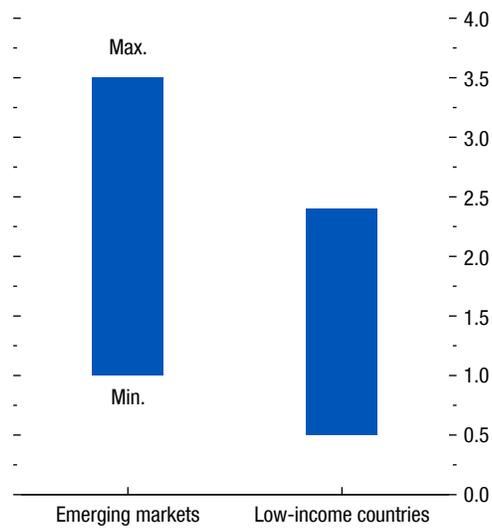

Figure 3.2.2. Public Investment Management Index Scores in Emerging Markets and Low-Income Countries

Sources: Albino-War and others, forthcoming; Dabla-Norris and others 2012; and IMF staff calculations.

Note: The Public Investment Management Index is an index of public investment efficiency composed of 17 indicators grouped into four stages of the public investment management cycle: project appraisal, selection, implementation, and evaluation. See Dabla- Norris and others 2012 for details.
