IMF Financial Statements

I. Financial Statements of the General Department

Statements of Financial Position at July 31, and April 30, 2019	5
Statements of Comprehensive Income for the Three Months Ended July 31, 2019, and 2018.....	6
Statements of Changes in Reserves, Resources, and Retained Earnings for the Three Months Ended July 31, 2019, and 2018.....	7
Statements of Cash Flows for the Three Months Ended July 31, 2019, and 2018	8
Notes to the Financial Statements for the Three Months Ended July 31, 2019, and 2018.....	9
SCHEDULE 1: Quota Subscriptions, GRA's Holdings of Currencies, Reserve Tranche Positions, and Outstanding Credit and Loans at July 31, 2019	26
SCHEDULE 2: Financial Resources and Liquidity Position in the General Resources Account at July 31, and April 30, 2019.....	31
SCHEDULE 3: Schedule of Arrangements in the General Resources Account for the Three Months Ended July 31, 2019.....	32
SCHEDULE 4: Schedule of Effective NAB Commitments in the General Resources Account at July 31, and April 30, 2019.....	33
SCHEDULE 5: Schedule of Effective Bilateral Borrowing Agreements in the General Resources Account at July 31, and April 30, 2019.....	34

II. Financial Statements of the SDR Department

Statements of Financial Position at July 31, and April 30, 2019.....	37
Statements of Comprehensive Income for the Three Months Ended July 31, 2019, and 2018.....	38
Notes to the Financial Statements for the Three Months Ended July 31, 2019, and 2018.....	39
SCHEDULE 1: Statements of Changes in SDR Holdings for the Three Months Ended July 31, 2019, and 2018.....	44
SCHEDULE 2: Allocations and Holdings of Participants at July 31, 2019.....	45

III. Financial Statements of the Concessional Lending and Debt Relief Trusts

Statements of Financial Position at July 31, and April 30, 2019.....	53
Statements of Comprehensive Income and Changes in Resources for the Three Months Ended July 31, 2019, and 2018	53
Statements of Cash Flows for the Three Months Ended July 31, 2019 and 2018	54
Notes to the Financial Statements for the Three Months Ended July 31, 2019, and 2018.....	55
SCHEDULE 1: PRG Trust—Schedule of Outstanding Loans at July 31, 2019.....	66
SCHEDULE 2: PRG Trust—Schedule of Arrangements for the Three Months Ended July 31, 2019	68
SCHEDULE 3: PRG Trust Loan Accounts—Resources Available Under Borrowing and Note Purchase Agreements at July 31, 2019	69
SCHEDULE 4: PRG, PRG-HIPC, and CCR Trusts—Cumulative Contributions at July 31, 2019	70

I. Financial Statements of the General Department

Statements of Financial Position at July 31, and April 30, 2019

(in millions of SDRs)

	Note	July 31, 2019	April 30, 2019
Assets

Net decrease in usable currencies and SDR holdings	(6,748)	(11,750)
Usable currencies and SDR holdings, beginning of period	355,740	387,571
Usable currencies and SDR holdings, end of period	348,992	375,821

The accompanying notes are an integral part of these financial statements.

Notes to the Financial Statements for the Three Months Ended July 31, 2019, and 2018

1. Nature of operations

The International Monetary Fund (IMF) is an international organization with 189 member countries. The IMF's fundamental mission is to ensure the stability of the international monetary system. It does so in three ways: keeping track of the global economy and the economies of member countries; lending to countries with balance of payments difficulties; and giving practical help to members. It is headquartered in Washington, DC, U.S.A.

The IMF conducts its operations and transactions through the General Department. The General Department comprises three accounts: (i) the General Resources Account (GRA); (ii) the Investment Account (IA); and (iii) the Special Disbursement Account (SDA).

1.1 General Resources Account

The financial operations of the IMF with its members are primarily conducted through the GRA. The assets and liabilities in the GRA reflect the payment of member quota subscriptions, use and repayment of GRA credit, borrowings and repayments, collection of charges from borrowers, payment of remuneration on creditor positions and interest to lenders, and other operations.

A core responsibility of the IMF is to provide financial assistance to member countries experiencing actual or potential balance of payments problems. Upon the request of a member country, GRA resources are made available either under a financing arrangement or in the form of outright purchases (disbursements). An arrangement is a decision by the IMF Executive Board (Executive Board) that gives a member the assurance that the GRA stands ready to provide resources during a specified period and up to a specified amount, in accordance with the terms of the financing instrument.

The Stand-By Arrangement (SBA) is designed for members with medium-term balance of payments problems. The Extended Fund Facility (EFF) is an instrument for members with longer-term balance of payments problems that reflect structural impediments requiring fundamental economic reform. Resources under the SBA and the EFF are made available in phased installments as the member implements economic policies and measures specified under the arrangement.

The Flexible Credit Line (FCL) is available for members with very strong fundamentals, policies, and track records of policy implementation and is intended for crisis prevention and resolution. The Precautionary and Liquidity Line (PLL) is available for members with sound economic fundamentals but with some remaining vulnerabilities that preclude them from using the FCL. The FCL and the PLL provide up-front access to GRA resources.

The financing instrument for outright purchases (disbursements) is the Rapid Financing Instrument (RFI), which is used by members that face an urgent balance of payments need without the need or capacity for a full-fledged program.

1.2 Investment Account

The IA holds resources transferred from the GRA, which are invested to broaden the IMF's income base. The Rules and Regulations of the IA adopted by the Executive Board provide the framework for the implementation of the expanded investment authority authorized under the Fifth Amendment of the Articles of Agreement, which became effective in February 2011. The IA comprises two principal subaccounts: the Fixed-Income Subaccount and the Endowment Subaccount.

The Fixed-Income Subaccount holds resources transferred from the GRA that are not related to profits from gold sales. With a view to generating income while protecting the IMF's balance sheet, the investment objective of the Fixed-Income Subaccount is to produce returns in Special Drawing Rights (SDRs) terms in excess of the three-month SDR interest rate (see Notes 2.1 and 2.2) over time while minimizing the frequency and extent of negative returns and underperformance over an investment horizon of three to four years.

The Endowment Subaccount was credited with SDR 4.4 billion in profits from gold sales during financial years 2010 and 2011. The Endowment Subaccount's investment objective is to achieve a real return of 3 percent in U.S. dollar terms over the long term, consistent with the Endowment Subaccount's general objective to generate investment returns to contribute to covering the IMF's administrative expenditures, while preserving the long-term real value of these assets. The bulk of the assets are managed passively. The actively managed portfolio

represented about 4.4 percent at July 31, 2019, and may grow to up to 10 percent of the Endowment assets.

1.3 Special Disbursement Account

The SDA is the vehicle used to receive profits from the sale of gold held by the IMF at the time of the Second Amendment of the IMF's Articles of Agreement (April 1978). SDA resources can be used for various purposes, as specified in the Articles of Agreement, including transfers to the GRA for immediate use in operations and transactions, transfers to the IA, or operations and transactions that are not authorized by other provisions of the Articles but are consistent with the purposes of the IMF, in particular to provide balance of payments assistance on special terms to low-income member countries.

The SDA currently holds claims related to overdue outstanding loans extended under the Structural Adjustment Facility (SAF). Repayments of principal and interest from SAF loans are transferred from the SDA to the Reserve Account of the Poverty Reduction and Growth Trust (PRG Trust), which is administered separately by the IMF as Trustee.

1.4 Other entities administered by the IMF

The IMF also administers the Special Drawing Rights Department (SDR Department), trusts (Concessional Lending and Debt Relief Trusts), and accounts (Administered Accounts) established to perform financial and technical services consistent with the IMF's purposes. As the General Department does not have control over these entities, their financial statements are presented separately.

The resources of the SDR Department are held separately from the assets of all the other accounts owned or administered by the IMF. As specified in the IMF's Articles of Agreement, these resources may not be used to meet the liabilities, obligations, or losses incurred in the operations of the General Department (or vice versa), except that expenses of conducting the business of the SDR Department are paid by the General Department and are then reimbursed by the SDR Department.

The resources of the trusts and accounts are contributed by members, by other financial institutions, or by the IMF through the SDA. The assets and liabilities of the trusts and accounts are separate from the assets and liabilities of the General Department. The assets of the trusts and accounts cannot be used to meet the liabilities, obligations, or losses incurred in the operations of the General Department. The General Department is reimbursed for the expenses incurred in conducting the business of certain trusts and accounts in accordance with the IMF's Articles of Agreement and relevant decisions of the Executive Board.

2. Basis of preparation and measurement

The financial statements of the General Department have been prepared in accordance with the accounting policies described in Note 3. The financial statements have been prepared under the historical cost convention, except for the revaluation of financial assets at fair value through profit or loss.

2.1 Unit of account

The financial statements are presented in SDRs, which is the IMF's unit of account. The value of the SDR is determined daily by the IMF by summing specific amounts of the basket currencies in U.S. dollar equivalents on the basis of market exchange rates. The specific amounts of the currencies in the basket, were as follows:

SDR basket currency	Amount
Chinese renminbi	1.0174
Euro	0.38671
Japanese yen	11.900
Pound sterling	0.085946
U.S. dollar	0.58252

At July 31, 2019, 1 SDR was equal to US\$1.37542 (US\$1.38576 at April 30, 2019).

2.2 SDR interest rate

The SDR interest rate provides the basis for basic charges levied on credit outstanding (see Note 13), interest on SDR holdings (Note 5), remuneration paid on members' reserve tranche positions (Note 14), and interest on borrowings (Note 11).

The SDR interest rate is determined weekly by reference to a weighted average of yields or rates on short-term instruments in the money markets of the members whose currencies are included in the SDR valuation basket:

SDR basket currency	Yield or rate
Chinese renminbi	Three-month benchmark yield for China Treasury bonds as published by the China Central Depository and Clearing Co., Ltd.
Euro	Three-month spot rate for euro area central government bonds with a minimum rating of AA published by the European Central Bank
Japanese yen	Three-month Treasury discount bills
Pound sterling	Three-month Treasury bills
U.S. dollar	Three-month Treasury bills

The SDR interest rate is subject to a floor of 0.050 percent and is rounded to three decimal places.

The average SDR interest rate was 1.066 percent per annum and 0.944 percent per annum during the three months ended July 31, 2019, and 2018, respectively.

3. Summary of significant accounting policies

3.1 Financial Instruments

Measurement at initial recognition

Financial instruments are recognized when the General Department becomes a party to the contractual provisions of the instrument. At initial recognition, a financial instrument is measured at its fair value, which is best evidenced by the transaction amount.

Derecognition

Financial assets, or a portion thereof, are derecognized when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the General Department transfers substantially all the risks and rewards of ownership, or (ii) the General Department neither transfers nor retains substantially all the risks and rewards of ownership and the General Department has not retained control. Financial liabilities are derecognized when they are extinguished (i.e., when the obligation specified in the contract is discharged, canceled, or expires).

Classification and subsequent measurement of financial assets

A financial asset is classified on initial recognition based on two factors: the business model for managing the financial asset and its contractual cash flow characteristics.

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost (AC). Interest income from these financial assets is included in the statements of comprehensive income using the effective interest method. Any gain or loss arising on derecognition is recognized in the statements of comprehensive income.

Financial assets that are held for collection of contractual cash flows and for selling, where the assets' cash flows represent solely payments of principal and interest, would be measured at fair value through other comprehensive income (FVOCI). The General Department did not have financial assets at FVOCI during the three months ended July 31, 2019, and 2018.

All other financial assets that do not meet the criteria to be measured at AC or FVOCI are measured at fair value, with changes in fair value recognized in profit or loss (FVPL).

Impairment

The General Department assesses financial assets at AC for impairment. If impairment needed to be recognized, it would be recognized as impairment allowance.

Classification and subsequent measurement of financial liabilities

Derivative financial liabilities are measured at fair value with changes in fair value recognized in profit or loss.

All other financial liabilities are measured at amortized cost. Interest expense from these financial liabilities is included in the statements of comprehensive income using the effective interest method.

3.2 Financial assets

3.2.1 Currencies

Currencies are financial assets that consist of members' currencies held by the GRA with the designated depositories, in the form of account balances or non-interest-bearing promissory notes that are encashable by the GRA on demand. All currencies in the GRA are classified at AC.

- Usable currencies are currencies of members considered to be in a sufficiently strong external position that they can be used to finance GRA transactions with other members.
- Currencies of members that are not considered to have a sufficiently strong balance of payments and reserves position to finance GRA transactions with other members are presented as other currencies.
- Holdings of member currencies that represent purchases of usable currencies or SDRs in exchange for their own currencies are presented as credit outstanding (see Note 3.2.1.1).

All currencies in the GRA are revalued in terms of the SDR at the end of each financial year, resulting in currency valuation adjustments, which members are required to settle promptly. Member currencies are also revalued in SDR terms whenever used by the GRA in an operation or transaction with another member or at the request of a member. The currency balances in the statements of financial position include receivables and payables arising from the currency revaluations.

3.2.1.1 Credit outstanding and charges

Credit outstanding is a financial asset that represents financing provided to members under the various GRA financing facilities. Members receive financing in the GRA by purchasing SDRs or usable currencies in exchange for their own currencies. GRA credit is repaid by members by repurchasing holdings of their currencies in exchange for SDRs or usable currencies.

Charges and fees

The GRA earns interest, referred to as basic charges, on members' use of GRA credit (see Note 13). Basic charges are recognized using the effective interest method.

In addition to basic charges, outstanding GRA credit is also subject to level- and time-based surcharges (see Note 13). Surcharges are recognized when the relevant level- and time-based thresholds set by the Executive Board are reached.

Charges not received from members within the required timeframe are recovered by the GRA under the burden sharing mechanism, through adjustments to increase the rate of charge for debtor members and decrease the rate of remuneration on members' reserve tranche positions (see Notes 13 and 14).

A service charge is levied by the GRA on all purchases except reserve tranche purchases. Service charges are paid when the purchases are made and are recognized as income upon payment.

A commitment fee is levied on the amount available for financing under an arrangement for each 12-month period. Commitment fees are refunded as the member makes purchases under the arrangement. At the arrangement's expiration or cancellation, any unrefunded amount is recognized as income. Pending refund or recognition as income, commitment fees are recognized as part of other liabilities in the statements of financial position.

Impairment of credit outstanding

An impairment loss would be recognized if there were objective evidence of impairment having occurred since initial recognition, and would be determined as the difference between the outstanding credit's carrying value and the present value of the estimated future cash flows. Such cash flows would take into account the proceeds from the burden sharing mechanism (see Note 10).

3.2.2 SDR holdings

SDR holdings represent SDRs held by the GRA (see Note 5). SDR holdings are measured at AC.

Interest on SDR holdings is recognized using the effective interest method.

3.2.3 Investments

Investments are financial assets that include equity securities, fixed-income securities, real estate investment trusts (REITs), short-term investments, fixed-term deposits, and derivative assets. Derivative liabilities are disclosed as part of other liabilities in the statements of financial position.

Investments in each of the two subaccounts are managed in accordance with the respective investment strategy (see Note 6) and their performance is evaluated on a fair value basis. The business model for the invested portfolios focuses on achieving fair value gains as opposed to collecting contractual cash flows. Accordingly, these securities are classified at FVPL. Funds pending suitable investment in accordance with the investment strategy may be kept in fixed-term deposits, which are measured at amortized cost.

Purchases and sales of investments are recognized on the trade date. The corresponding investment trades receivable or payable are recognized in other assets and other liabilities, respectively, pending settlement of a transaction.

Investment income comprises interest income on investments at AC, interest and dividend income, and realized and unrealized gains and losses from FVPL investments, including currency valuation differences arising from exchange rate movements against the SDR, net of all trading-related fees.

Interest income from investments is recognized using the effective interest method. Dividend income is recognized based on the ex-dividend date.

3.3 Cash and cash equivalents

Usable currencies and SDR holdings are considered cash and cash equivalents in the statements of cash flows.

3.4 Gold holdings

Gold holdings (acquired prior to the Second Amendment of the Articles of Agreement in April 1978) are carried at historical cost using the specific identification method. The carrying value is determined by the restrictions on the use of the IMF's gold holdings and the disposition of profits from the sale of gold. In accordance with the provisions of the Articles of Agreement, whenever the IMF sells gold that was held on the date of the effectiveness of the Second Amendment of the Articles, that portion of the proceeds equal to the historical cost must be placed in the GRA. Any proceeds in excess of the historical cost will be held in the SDA or transferred to the Endowment Subaccount of the IA (see Note 8). The IMF may also sell such gold holdings to those members that were members on August 1, 1975, in exchange for their currencies and at a price equal to the historical cost.

3.5 Property, plant and equipment and intangible assets

Property, plant and equipment and intangible assets are measured at cost less accumulated depreciation or amortization. Property, plant and equipment and intangible assets are capitalized and depreciated or amortized over the

estimated remaining useful lives using the straight-line method. Buildings are depreciated over 30 years and other property, plant and equipment over three to 20 years. Leasehold improvements are depreciated over the term of the lease agreement. Software is amortized over three to five years.

3.6 Post-employment benefits

The IMF sponsors various post-employment benefit plans for its employees, which include defined benefit and other post-employment benefits such as medical and life insurance benefits.

The net defined benefit liability or asset recognized in the statements of financial position is the present value of the defined benefit obligation less the fair value of the plan assets. Changes resulting from remeasurements are reported in other comprehensive income. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using market yields on high-quality corporate bonds using the projected unit credit method.

Net periodic pension cost includes service cost and net interest cost on the net defined benefit liability.

3.7 Financial liabilities

3.7.1 Special Contingent Account

The General Department has accumulated precautionary balances against possible credit default in the Special Contingent Account (SCA-1) under the burden sharing mechanism (see Note 10). Balances in the SCA-1 are akin to refundable non-interest-bearing deposits.

3.7.2 Borrowings

Borrowings are financial liabilities that represent financing received under the various borrowing arrangements (see Note 11).

Interest expense on borrowings is calculated by applying the effective interest method.

3.7.3 Quota subscriptions

Members' quota subscriptions are financial liabilities that represent subscription payments by members, including payments as a result of quota increases (see Note 12). An increase in quota subscription for an existing member becomes effective when the member consents to the quota increase and makes the actual payment (provided that any other requirements for the effectiveness of specific quota increase are met), and is recorded in the financial statements on the payment date. Typically, a quarter of a member's quota subscription (reserve asset portion) is paid either in SDRs or in the currencies of other members specified by the

IMF, or in any combination of SDRs and such currencies, and the remainder is paid in the member's own currency.

Quota subscriptions are classified as liabilities in the statements of financial position, as they embody an unconditional repayment obligation in the case of a member's withdrawal from the IMF.

3.7.3.1 Reserve tranche positions and remuneration

In exchange for the reserve asset portion of its quota subscription payment, and from the use of the member's currency in the GRA's transactions or operations, a member acquires a reserve tranche position in the GRA. The reserve tranche is determined as the difference between the member's quota subscription and the GRA's holdings of its currency, excluding holdings that reflect the member's use of GRA credit and administrative balances (see Note 12). A member's reserve tranche is also considered a part of its international reserves and a liquid claim against the GRA that can be encashed by the member at any time upon the representation of a balance of payments need.

The GRA pays interest, referred to as remuneration, on a remunerated portion of the member's reserve tranche position (see Note 14). Remuneration expense is recognized on an accrual basis.

3.8 Provisions

Provisions are recognized when the IMF has a current legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are measured at the present value of the amounts that are expected to be paid to settle the obligations.

3.9 Foreign currency translation

Transactions denominated in currencies and not in SDRs are recorded at the rate of exchange on the date of the transaction. Assets and liabilities denominated in other currencies are reported using the SDR exchange rate on the date of the financial statements. Exchange differences arising from the settlement of transactions at rates different from those at the originating date of the transactions are included in the determination of total comprehensive income.

3.10 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or,

in the absence of a principal market, in the most advantageous market.

A three-level fair value hierarchy is used to determine fair value under which financial instruments are categorized based on the priority of the inputs to the valuation technique. The fair value hierarchy has the following levels:

- Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3:** Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When the inputs used to measure the fair value of an asset or liability fall within multiple levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest-level input that is significant to the fair value measurement of the instrument in its entirety. Thus, a Level 3 fair value measurement may include inputs that are both observable and unobservable.

The valuation techniques used to determine fair value are described in Note 7.

4. Arrangements and credit outstanding

4.1 Commitments under arrangements

Undrawn commitments under GRA arrangements were as follows (see Schedule 3):

	July 31, 2019		April 30, 2019
	<i>(number of arrangements and undrawn commitment amounts in millions of SDRs)</i>		
Credit tranches:			
SBA	5	12,125	18,032
FCL	2	61,324	61,324
PLL	1	2,151	2,151
EFF	13	9,982	8,861
Total	21	85,582	90,368

4.2 Credit outstanding

At July 31, and April 30, 2019, members' use of GRA credit was represented by currency holdings of SDR 69,109 million and SDR 63,694 million, respectively.

Changes in the outstanding use of GRA credit under the various facilities of the GRA during the three months ended July 31, 2019, and 2018 were as follows:

	April 30, 2019	Purchases	Repurchases	July 31, 2019
<i>(in millions of SDRs)</i>				
Credit tranches:				
SBA	31,777	3,900	(527)	35,150
RFI	936	6	(113)	829
EFF	30,800	3,053	(896)	32,957
Other facilities ¹	181	—	(8)	173
Total credit outstanding	63,694	6,959	(1,544)	69,109

¹ Other facilities include legacy credit under Enlarged Access, Compensatory and Contingency Financing Facility, and Supplementary Financing Facility.

	April 30, 2018	Purchases	Repurchases	July 31, 2018
<i>(in millions of SDRs)</i>				
Credit tranches:				
SBA	5,126	10,614	(592)	15,148
RFI	1,163	—	— ¹	1,163
EFF	31,414	1,924	(545)	32,793
Other facilities	181	—	—	181
Total credit outstanding	37,884	12,538	(1,137)	49,285

¹ Less than SDR 500,000.

There were no advance repurchases during the three months ended July 31, 2019 and 2018.

Depending on the type of financing instrument, repurchase periods for GRA credit vary from 3¼ to 10 years. Scheduled and overdue repurchases of outstanding GRA credit are summarized below:

Financial year	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
2020	3,333	4,869
2021	4,578	4,578
2022	10,797	10,797
2023	20,874	19,410
2024	15,522	13,315
2025 and beyond	13,764	10,476
Overdue	241	249
Total	69,109	63,694

The concentration of GRA outstanding credit by region was as follows:

	July 31, 2019		April 30, 2019	
	<i>(in millions of SDRs and as a percentage of total GRA credit outstanding)</i>			
Africa	1,577	2.3%	1,329	2.1%
Asia and Pacific	995	1.4%	878	1.4%
Europe	15,355	22.2%	16,496	25.9%
Middle East and Central Asia	17,748	25.7%	15,651	24.5%
Western Hemisphere	33,434	48.4%	29,340	46.1%
Total	69,109	100.0%	63,694	100.0%

The use of credit in the GRA by the largest users was as follows:

	July 31, 2019		April 30, 2019	
	<i>(in millions of SDRs and as a percentage of total GRA credit outstanding)</i>			
Largest user of credit	31,914	46.2%	28,014	44.0%
Three largest users of credit	47,803	69.2%	43,266	67.9%
Five largest users of credit	59,404	86.0%	54,582	85.7%

The five largest users of GRA credit at July 31, 2019, in descending order, were Argentina, Egypt, Ukraine, Greece, and Pakistan (Argentina, Ukraine, Greece, Egypt, and Pakistan at April 30, 2019).

4.3 Overdue obligations

At July 31, and April 30, 2019, two members were six months or more overdue in settling their financial obligations to the General Department as follows:

	GRA repurchases and SAF loans		GRA charges and SAF interest	
	July 31, 2019	April 30, 2019	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>			
Total overdue	250	257	863	861
Overdue for six months or more	250	257	860	859
Overdue for three years or more	250	257	850	850

The type and duration of the overdue amounts in the General Department were as follows at July 31, 2019:

	GRA repurchases and SAF loans	GRA charges and SAF interest	Total obligation	Longest overdue obligation
	<i>(in millions of SDRs)</i>			
Somalia	105	129	234	July 1987
Sudan	145	734	879	July 1985
Total	250	863	1,113	

No impairment losses have been recognized in the three months ended July 31, 2019, and 2018.

5. SDR holdings

The General Department receives and uses SDRs in transactions and operations with members. Receipts of SDRs include quota subscription payments and settlement of members' financial obligations to the GRA. Uses of SDRs by the GRA include provision of financial assistance to members, acquisition of SDRs by members under certain circumstances, and payment of remuneration on reserve tranche positions or interest on borrowings to member countries and lenders.

At July 31, and April 30, 2019, the SDR holdings of the General Department comprised SDR 21,546 million and SDR 22,772 million, respectively.

The GRA earns interest on its SDR holdings at the same rate as other holders of SDRs. Interest on SDR holdings comprised SDR 60 million during the three months ended July 31, 2019 (SDR 61 million for the three months ended July 31, 2018).

6. Investments

Investments comprised the following:

	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
Fixed-Income Subaccount	16,700	16,528
Endowment Subaccount	5,711	5,522
Total	22,411	22,050

6.1 Fixed-Income Subaccount

The Fixed-Income Subaccount comprises two tranches, a shorter-duration Tranche 1 and a longer-duration Tranche 2. Tranche 1 is managed actively within tight risk controls against a zero- to three-year government bond benchmark index. Tranche 2 is managed according to a buy-and-hold approach against a zero- to five-year government bond

benchmark index and is being phased in over a five-year period, which commenced in 2017.

Both tranches can be invested in fixed-income securities issued by national governments of members, their central banks and official agencies, international financial institutions, and obligations of the BIS. Eligible investments in Tranche 1 also include fixed-income securities issued by subnational governments, corporate bonds, mortgage-backed and other asset-backed securities, and cash instruments with maturities of one year or less. Assets are being invested by external managers, except for short-term investments, fixed-term deposits, and medium-term instruments (BIS). Investments consisted of the following asset classes:

	July 31, 2019		
	Tranche 1	Tranche 2	Total
	<i>(in millions of SDRs)</i>		
At fair value through profit or loss:			
International financial institutions obligations:			
Medium-term instruments (BIS)	—	4,987	4,987
Others	680	552	1,232
Sovereign bonds	4,935	1,140	6,075
Corporate bonds	2,257	—	2,257
Securitized assets	403	—	403
Short-term investments	228	93	321
Derivative assets	17	—	17
Total at fair value through profit or loss	8,520	6,772	15,292
At amortized cost:			
Fixed-term deposits	—	1,408	1,408
Total	8,520	8,180	16,700

	April 30, 2019		
	Tranche 1	Tranche 2	Total
	<i>(in millions of SDRs)</i>		
At fair value through profit or loss:			
International financial institutions obligations:			
Medium-term instruments (BIS)	—	5,255	5,255
Others	215	621	836
Sovereign bonds	4,855	1,163	6,018
Corporate bonds	2,596	—	2,596
Securitized assets	414	—	414
Short-term investments	182	77	259
Derivative assets	14	—	14
Total at fair value through profit or loss	8,276	7,116	15,392
At amortized cost:			
Fixed-term deposits	—	1,136	1,136
Total	8,276	8,252	16,528

Fair values of derivative assets and liabilities in the Fixed-Income Subaccount at July 31, 2019 were SDR 17 million and SDR 47 million, respectively (SDR 14 million and SDR 30 million for derivative assets and liabilities, respectively, at April 30, 2019). Notional values of derivative instruments were as follows:

	July 31, 2019	April 30, 2019
		<i>(in millions of SDRs)</i>
Futures		
Long positions	1,130	292
Short positions	2,123	1,514
Currency forwards	969	1,237
Interest rate swaps	243	242
Currency swaps	746	840
Options on futures	—	1
Swaptions	81	100

The maturities of the fixed-income securities and derivatives in the Fixed-Income Subaccount were as follows:

Financial year	July 31, 2019	April 30, 2019
		<i>(in millions of SDRs)</i>
2020	7,407	8,665
2021	3,711	3,392
2022	2,307	2,007
2023	1,452	1,134
2024	946	754
2025 and beyond	877	576
Total	16,700	16,528

6.2 Endowment Subaccount

The assets of the Endowment Subaccount are invested in a globally diversified portfolio consisting of fixed-income and equity instruments (including REITs). Assets are invested by external managers, except for short-term investments and fixed-term deposits. The passively managed portfolio is invested in accordance with the strategic asset allocation in select investment categories approved by the Executive Board. Each investment category is invested to achieve exposure to broad characteristics of the specified asset class. The actively managed portfolio is invested in the same asset categories and has target shares for fixed-income instruments and equities without specific allocation requirements within those shares.

Investments all of which were classified at FVPL consisted of the following investment categories:

	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
Passively managed portfolio:		
Developed market sovereign bonds	804	789
Developed market corporate bonds	1,061	1,036
Emerging market bonds	269	252
Inflation-linked bonds	1,074	1,043
Developed market equities	1,338	1,291
Emerging market equities	525	503
Real estate investment trusts	265	275
Short-term investments	104	80
Total passively managed portfolio	5,440	5,269
Actively managed portfolio:		
Fixed-income securities	148	144
Equity securities	95	93
Short-term investments	7	8
Total actively managed portfolio	250	245
Derivative assets	21	8
Total	5,711	5,522

Investment categories comprise funds managed to achieve exposure to broad characteristics of the specified asset class. Funds may include holdings in other asset classes. Market exposure may be achieved through derivative instruments, where necessary and as determined under the Investment Account's Rules and Regulations.

Fair values of derivative assets and liabilities in the Endowment Subaccount at July 31, 2019 were SDR 21 million and SDR 2 million, respectively (SDR 8 million and SDR 3 million for derivative assets and liabilities, respectively, at April 30, 2019). Notional values of derivative instruments were as follows:

	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
Futures		
Long positions	40	37
Short positions	46	38
Currency forwards	2,330	2,183

The maturities of the fixed-income securities and derivatives in the Endowment Subaccount were as follows:

	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
Financial year		
2020	226	236
2021	328	380
2022	410	406
2023	399	395
2024	395	371
2025 and beyond	1,730	1,572
Total	3,488	3,360

6.3 Investment income

Net income from investments consisted of the following:

	July 31, 2019		
	Fixed-Income Subaccount	Endowment Subaccount	Total
	<i>(in millions of SDRs)</i>		
Investment income on FVPL investments	102	148	250
Interest income on investments at AC	6	—	6
Investment fees	(2)	(1)	(3)
Total	106	147	253

	July 31, 2018		
	Fixed-Income Subaccount	Endowment Subaccount	Total
	<i>(in millions of SDRs)</i>		
Investment income on FVPL investments	61	198	259
Interest income on investments at AC	6	1	7
Investment fees	(2)	(1)	(3)
Total	65	198	263

7. Fair value measurement

Valuation techniques used to value financial instruments include the following:

Level 1

The fair value of publicly traded investments and derivative instruments (futures and options) is based on quoted market prices in an active market for identical assets without any adjustments (closing price for equities and derivative instruments and bid price for fixed-income securities). These investments are included within Level 1 of the fair value hierarchy.

Level 2

The fair value of fixed-income securities not actively traded is determined on the basis of a compilation of significant observable market information, such as recently executed trades in securities of the issuer or comparable issuers and yield curves. The assessment also takes into account the inherent risk and terms and conditions of each security. Given that the significant inputs are observable, these securities are included within Level 2 of the fair value hierarchy.

The fair value of over-the-counter derivative instruments (foreign exchange forwards, currency/interest rate swaps) not actively traded is determined using a pricing model that incorporates foreign exchange spot and forward rates and interest rate curves. Given that the significant inputs into the pricing models are market observable, these instruments are included within Level 2 of the fair value hierarchy.

7.1 Investments

The following tables present the fair value hierarchy used to determine the fair value of investments in the IA:

	July 31, 2019		
	Level 1: Quoted prices in active markets	Level 2: Based on observable market data	Total
<i>(in millions of SDRs)</i>			
Recurring fair value measurements			
Fixed-Income Subaccount	270	15,022	15,292
Endowment Subaccount	2,238	3,473	5,711
Total	2,508	18,495	21,003

	April 30, 2019		
	Level 1: Quoted prices in active markets	Level 2: Based on observable market data	Total
<i>(in millions of SDRs)</i>			
Recurring fair value measurements			
Fixed-Income Subaccount	230	15,162	15,392
Endowment Subaccount	2,181	3,341	5,522
Total	2,411	18,503	20,914

There were no Level 3 financial instruments at July 31, and April 30, 2019, and there have been no transfers between Level 1 and Level 2 during the period.

Investments in fixed-term deposits in the IA are generally of a short-term nature and are carried at amortized cost, which approximates fair value.

Derivative liabilities at July 31, 2019 comprised SDR 14 million valued based on quoted market prices (Level 1 in the fair value hierarchy) and SDR 35 million valued based on observable market data (Level 2 in the fair value hierarchy) (SDR 9 million and SDR 24 million for Level 1 and Level 2, respectively, at April 30, 2019).

7.2 Credit outstanding

The IMF plays a unique role in providing balance of payments support to member countries. IMF financing features policy conditions that require member countries to implement macroeconomic and structural policies and are an integral part of IMF lending. These measures aim to help countries resolve their balance of payments problems while safeguarding IMF resources. The fair value of IMF credit outstanding cannot be determined due to its unique characteristics, including the debtor's membership relationship with the IMF, and the absence of a principal or most advantageous market for IMF credit.

7.3 Other financial assets and liabilities

The carrying value of other financial assets and liabilities that are classified at AC represents a reasonable estimate of their fair value at July 31, and April 30, 2019.

8. Gold holdings

The IMF acquired its gold holdings from quota subscriptions and financial transactions prior to the entry into force of the Second Amendment of the Articles of Agreement (April 1, 1978). At July 31, and April 30, 2019, the IMF held gold of 2,814 metric tons, equal to 90.474 million fine troy ounces, at designated depositories. Gold holdings were valued at a historical cost of SDR 3,167 million at July 31, and April 30, 2019, based on a cost of SDR 35 per fine troy ounce.

At July 31, 2019, the market value of the IMF's holdings of gold was SDR 93.9 billion (SDR 83.7 billion at April 30, 2019).

9. Employee benefits

9.1 Overview of the Plans

The IMF has a defined benefit Staff Retirement Plan (SRP) that covers all eligible staff and an adjunct plan, the Supplemental Retirement Benefits Plan (SRBP), for a subset of participants of the SRP. Participants contribute seven percent of their pensionable gross remuneration and the IMF contributes the remainder of the cost of funding the Plans. In addition, the IMF provides other non-pension long-term benefits, including medical insurance, life insurance, separation and resettlement benefits, accrued annual leave up to 60 days, and applicable associated tax allowances. For this purpose, the IMF has established a separate account, the Retired Staff Benefits Investment Account (RSBIA), to hold and invest resources set aside to fund the cost of certain of these post-retirement benefits.

The defined benefit asset/liability of the SRP, the SRBP, and other post-retirement benefits are valued annually by independent actuaries using the Projected Unit Credit Method and updated quarterly to reflect significant market fluctuations.

9.2 Net defined benefit asset/liability and benefit costs

The amounts recognized in the statements of financial position were as follows:

	July 31, 2019		April 30, 2019	
	Pension benefits	Other employee benefits	Total	Total
	<i>(in millions of SDRs)</i>			
Defined benefit obligation	(8,620)	(1,981)	(10,601)	(9,596)
Plan assets	7,896	1,834	9,730	9,559
Net defined benefit asset	—	—	—	113
Net defined benefit liability	(724)	(147)	(871)	(150)

The amounts recognized in the statements of comprehensive income for the three months ended July 31, 2019, and 2018, were as follows:

	2019		2018	
	Pension benefits	Other employee benefits	Total	Total
	<i>(in millions of SDRs)</i>			
Service cost	57	21	78	68
Interest expense related to defined benefit obligation	77	18	95	89
Interest income related to plan assets	(74)	(17)	(91)	(92)
Net periodic pension cost	60	22	82	65
Remeasurement of net defined benefit liability	656	156	812	(36)
Return on plan assets excluding amounts included in interest income	(25)	(2)	(27)	48
Exchange differences	5	1	6	(9)
Amounts recognized in other comprehensive income	636	155	791	3
Total expense recognized in statements of comprehensive income	696	177	873	68

The reconciliation of the defined benefit obligation for the three months ended July 31, 2019, and 2018, was as follows:

	2019		2018	
	Pension benefits	Other employee benefits	Total	Total
	<i>(in millions of SDRs)</i>			
Defined benefit obligation at the beginning of the period	7,812	1,784	9,596	8,625
Current service cost	57	21	78	68
Interest expense	77	18	95	89
Employee contributions	11	—	11	11
Actuarial expense/(gain) due to financial assumptions changes	656	156	812	(36)
Benefits paid	(57)	(13)	(70)	(62)
Exchange differences	64	15	79	206
Defined benefit obligation at the end of the period	8,620	1,981	10,601	8,901

The reconciliation of changes in the fair value of plan assets for the three months ended July 31, 2019, and 2018, was as follows:

	2019		2018	
	Pension benefits	Other employee benefits	Total	Total
	<i>(in millions of SDRs)</i>			
Fair value of plan assets at the beginning of the period	7,761	1,798	9,559	9,077
Return on plan assets excluding interest income	25	2	27	(48)
Interest income	74	17	91	92
Employer contributions	23	16	39	35
Employee contributions	11	—	11	11
Benefits paid	(57)	(13)	(70)	(62)
Exchange differences	59	14	73	215
Fair value of plan assets at the end of the period	7,896	1,834	9,730	9,320

The fair value of major categories of plan assets was as follows:

	July 31, 2019		April 30, 2019	
	Quoted market price in an active	No quoted market price in an active market	Total	Total
	<i>(in millions of SDRs)</i>			
Cash	33	—	33	38
Global equities	1,758	1,410	3,168	3,094
Emerging market equities	162	1,045	1,207	1,243
Global fixed income	—	1,000	1,000	973
High-yield fixed income	31	1,094	1,125	1,070
Real assets	393	624	1,017	976
Private equity and absolute return	—	2,180	2,180	2,165
Total	2,377	7,353	9,730	9,559

Participants in the pension plans contribute a fixed 7 percent of pensionable gross compensation. The actuarially determined employer contributions to the pension plans during the three months ended July 31, 2019 amounted to 10.99 percent of pensionable gross compensation (8.73 percent of pensionable gross compensation during the three months ended July 31, 2018). Under the IMF's funding framework, the budgetary allocations for payments to the pension plans have been set at 14 percent of pensionable gross compensation.

9.3 Principal actuarial assumptions

The IMF conducts a comprehensive analysis of the principal actuarial assumptions used in calculating the net defined benefit asset/liability every five years and reviews their applicability on an annual basis. The discount rate assumption is updated on a quarterly basis. The most recent five-year analysis was completed in January 2016, and the principal actuarial assumptions were revised.

The principal actuarial assumptions used in the actuarial valuation were as follows:

	July 31, 2019	April 30, 2019	July 31, 2018
	<i>(in percent)</i>		
Discount rate/expected return on plan assets	3.39	3.86	4.07
Rate of salary increases (average)	4.50	4.50	4.50
Health care cost trend rate	4.00–6.00	4.00–6.00	4.00–6.25
Inflation	2.00	2.00	2.00
Life expectancy:	<i>(in years)</i>		
Male	89	89	89
Female	93	93	93

10. Burden sharing and the Special Contingent Account

The IMF has adopted the burden sharing mechanism to cope with the financial consequences of member countries' failure to settle financial obligations to the GRA on time. Under the burden sharing mechanism, resources are generated by increasing the rate of charge and reducing the rate of remuneration to cover shortfalls in the GRA's income due to the nonpayment of charges. The burden sharing mechanism has also financed additions to the SCA-1, which offers protection against the risk of loss resulting from the ultimate failure of a member to repay its overdue obligations to the GRA.

Members that participated in burden sharing for overdue charges receive refunds to the extent that these charges are subsequently settled. Contributions to the SCA-1 are returned when there are no outstanding overdue repurchases and charges, or at such earlier time as the IMF may decide.

Overdue charges, net of settlements, that have resulted in adjustments to charges and remuneration for the three months ended July 31, 2019 amounted to SDR 1 million (SDR 1 million for the three months ended July 31, 2018). Cumulative overdue charges, net of settlements, that have resulted in adjustments to charges and remuneration since May 1, 1986 (the date the burden sharing mechanism was

adopted) amounted to SDR 728 million at July 31, 2019 (SDR 727 million at April 30, 2019). The cumulative refunds for the same period, resulting from the settlements of overdue charges for which burden sharing adjustments have been made, amounted to SDR 1,320 million at July 31, and April 30, 2019.

The SCA-1 balance amounted to SDR 1,188 million at July 31, and April 30, 2019. Effective November 1, 2006, the Executive Board decided to suspend, for the time being, further additions to the SCA-1. Accordingly, no additions have been made to the SCA-1 during the three months ended July 31, 2019, and 2018.

11. Borrowings

The GRA can borrow to temporarily supplement its quota resources. The Executive Board has established guidelines on borrowing by the GRA to ensure that the financing of the GRA is managed in a prudent and systemic manner.

The GRA's main standing borrowing arrangement is the New Arrangements to Borrow (NAB). The GRA may also borrow under bilateral agreements, in particular loan and note purchase agreements (bilateral borrowing agreements).

11.1 New Arrangements to Borrow

The NAB is a standing set of credit arrangements with 40 participants, of which 38 agreements were effective at July 31, and April 30, 2019. The NAB provides supplementary resources to the GRA as a second line of defense, when quota resources representing the first line of defense need to be supplemented in order to forestall or cope with an impairment of the international monetary system. At July 31, 2019, the NAB credit arrangements amounted to SDR 181 billion.

The NAB is renewed periodically; in November 2016, the NAB was renewed through November 2022. NAB resources become available upon activation, which requires the consent of participants representing 85 percent of total NAB credit arrangements of participants eligible to vote and the approval of the Executive Board. Drawings under the NAB can be made to finance purchases by borrowing members for outright purchases and under arrangements that were approved during the period when the NAB was activated. The NAB was deactivated in February 2016, and there were no commitments under prior activation periods that could be financed with NAB resources as at July 31, and April 30, 2019.

11.2 Bilateral Borrowing Agreements

Bilateral borrowing agreements are intended to serve as a third line of defense to IMF quotas and NAB resources.

At July 31, 2019, lenders' commitments under effective borrowing agreements totaled US\$438 billion, equivalent to SDR 318 billion (US\$439 billion equivalent to SDR 317 billion at April 30, 2019); see Schedule 5.

Resources under bilateral borrowing agreements can be activated only if the amount of IMF resources otherwise available for financing has fallen below a threshold of SDR 100 billion and either the NAB is activated or there are no available uncommitted NAB resources. Activation requires approval by creditors representing 85 percent of the total credit amount committed.

11.3 Outstanding borrowings

Outstanding borrowings represent drawings under the NAB, are denominated in SDRs and carry the SDR interest rate.

During the three months ended July 31, 2019, and 2018 no drawings under the NAB occurred and repayments amounted to SDR 1,438 million and SDR 828 million, respectively. Total outstanding NAB borrowings at July 31, 2019, and April 30, 2019, were SDR 12,213 million and SDR 13,651 million, respectively (see Schedule 4).

Scheduled repayments of outstanding borrowings are summarized below:

Financial year	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
2020	1,953	3,391
2021	2,800	2,800
2022	2,768	2,768
2023	2,553	2,553
2024	1,969	1,969
2025 and beyond	170	170
Total	12,213	13,651

The average interest rate on outstanding borrowings was 1.066 percent per annum and 0.944 percent per annum for the three months ended July 31, 2019, and 2018, respectively. The interest expense on outstanding borrowings during the same periods was SDR 34 million and SDR 46 million, respectively.

12. Quota subscriptions

Members' quota subscriptions and reserve tranche positions were as follows:

	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
Quota subscriptions	475,473	475,473
Total currency holdings	463,915	464,022
Less: members' outstanding use of GRA credit	(69,109)	(63,694)
Less: administrative balances	(26)	(20)
	394,780	400,308
Reserve tranche positions	80,693	75,165

13. Charges and fees

The average credit outstanding subject to charges amounted to SDR 64,245 million and SDR 42,674 million for the three months ended July 31, 2019, and 2018, respectively.

The rate of charge levied on outstanding credit is equal to the basic rate of charge adjusted for burden sharing (see Note 10). The basic rate of charge is the SDR interest rate plus a fixed margin as determined by the Executive Board, which for the three months ended July 31, 2019, and 2018, amounted to 100 basis points. The average rate of charge (adjusted for burden sharing) was 2.070 percent per annum and 1.950 percent per annum for the three months ended July 31, 2019, and 2018, respectively.

Credit outstanding in excess of 187.5 percent of quota resulting from purchases in the credit tranches and under the EFF, is subject to a level-based surcharge of 200 basis points per annum above the basic rate of charge. An additional time-based surcharge of 100 basis points per annum applies to such credit outstanding for more than three years, except for purchases under the EFF, for which the additional surcharge of 100 basis points applies after 51 months.

Charges income for the three months ended July 31, 2019, and 2018, consisted of the following:

	2019	2018
	<i>(in millions of SDRs)</i>	
Basic charges before burden sharing adjustment	332	209
Deferred basic charges recovered through:		
Burden sharing adjustment to charges	1	1
Burden sharing adjustment to remuneration	1	1
Surcharges	180	73
Total charges	514	284

During the three months ended July 31, 2019, the IMF deferred charges due from overdue members in the amount of SDR 1 million (SDR 1 million during the three months ended July 31, 2018) (see Note 10). These deferred charges were fully recovered through burden sharing adjustments to charges and remuneration of SDR 0.5 million each during the three months ended July 31, 2019, and 2018 (see also Note 14).

A service charge of 50 basis points is levied by the GRA on all purchases, except for reserve tranche purchases. A commitment fee is levied on the amount available for financing under an arrangement for each 12-month period and refunded as the member makes purchases under the arrangement. The commitment fee amounts to 15 basis points per annum for access up to 115 percent of quota, 30 basis points for access between 115 and 575 percent of quota, and 60 basis points for access in excess of 575 percent of quota. At the arrangement's expiration or cancellation, any unrefunded amount is recognized as income.

Service charges and commitment fee income for the three months ended July 31, 2019, and 2018, consisted of the following:

	2019	2018
	<i>(in millions of SDRs)</i>	
Service charges	35	63
Commitment fees	6	49
Total charges	41	112

14. Remuneration of members' reserve tranche positions

Remuneration of members' reserve tranche positions amounted to SDR 184 million and SDR 104 million for the three months ended July 31, 2019, and 2018, respectively.

The average remunerated reserve tranche amounted to SDR 68,417 million and SDR 43,318 million during the three months ended July 31, 2019, and 2018, respectively.

The rate of remuneration is currently equal to the SDR interest rate. The average rate of remuneration (adjusted for burden sharing) for the three months ended July 31, 2019, and 2018, was 1.063 percent per annum and 0.938 percent per annum, respectively. The amounts of burden sharing adjustments for the same periods are disclosed in Note 13.

15. Administrative expenses

Administrative expenses, most of which were incurred in U.S. dollars, for the three months ended July 31, 2019, and 2018 were as follows:

	2019	2018
	<i>(in millions of SDRs)</i>	
Personnel	146	138
Pension and other long-term employee benefits	82	65
Travel	25	27
Other	61	63
	314	293
Reimbursements	(38)	(35)
Total administrative expenses	276	258

16. Related party transactions

The expenses of conducting the business of the SDR Department, the SRP, the SRBP, the RSBI, and trusts administered by the IMF as Trustee are paid by the GRA. At the end of each financial year, reimbursements are made by the SDR Department (through assessments levied on SDR Department participants) and the PRG Trust in accordance with the IMF's Articles of Agreement and decisions of the Executive Board. The SRP and the RSBI reimburse the GRA for the cost of the investment operations.

17. Administered Accounts

At the request of certain members, the IMF has established accounts to administer resources contributed by these members and to perform financial and technical services consistent with the purposes of the IMF. The assets of each account and each subaccount are separate from the assets of all other accounts of, or administered by, the IMF and are not to be used to discharge liabilities or to meet losses incurred in the administration of other accounts.

	July 31, 2019	April 30, 2019

Components may not sum exactly to totals because of rounding.

¹ Includes nonnegotiable, non-interest-bearing notes that members are entitled to issue in substitution for currencies, and outstanding currency valuation adjustments.

² Represents the percentage of total use of GRA resources (column A).

³ Loans under the Structural Adjustment Facility previously financed by the SDA.

⁴ Includes outstanding Trust Fund loans to Somalia (SDR 6.5 million) and Sudan (SDR 59.2 million).

** Less than SDR 50,000 or 0.005 percent.

SCHEDULE 2: Financial Resources and Liquidity Position in the General Resources Account at July 31, and April 30, 2019

(in millions of SDRs)

	July 31, 2019	April 30, 2019
Usable resources:		
Usable currencies	327,446	332,968
SDR holdings	21,546	22,772
Total usable resources¹	348,992	355,740
Undrawn balances under GRA arrangements:		
Precautionary	(65,000)	(64,670)
Non-precautionary	(20,582)	(25,698)
Total undrawn balances under GRA arrangements	(85,582)	(90,368)
Uncommitted usable resources	263,410	265,372
Repurchases one-year forward ²	4,531	4,869
Repayments of borrowing one-year forward ³	(3,037)	(3,391)
Prudential balance ⁴	(80,013)	(80,013)
One-year forward commitment capacity (FCC)⁵	184,891	186,837
Memorandum items:		
Resources committed under borrowing arrangements		
NAB ⁶	180,573	180,573
Bilateral borrowing agreements	318,229	316,742
Liquid liabilities		
Reserve tranche positions	80,693	75,165
Outstanding borrowings	12,213	13,651

¹ Usable resources consist of (i) holdings of currencies of members considered by the IMF as having balance of payments and reserve positions sufficiently strong for their currencies to be used in transfers; (ii) SDR holdings; and (iii) any unused amounts under credit lines that have been activated.

² Repurchases by member countries falling due during the coming 12-month period.

³ Repayments of borrowings falling due during the coming 12-month period.

⁴ Prudential balance is set at 20 percent of quota subscriptions of members whose currencies are used in the financing of IMF transactions.

⁵ The FCC does not include bilateral commitments from members to boost the IMF's resources. These resources will be counted toward the FCC only once (i) individual bilateral agreements are effective and (ii) the associated resources are available for use by the IMF in accordance with the 2016 borrowing framework.

⁶ Outstanding drawings and commitments under the NAB cannot exceed SDR 180.6 billion.

SCHEDULE 3: Schedule of Arrangements in the General Resources Account for the Three Months Ended July 31, 2019

(in millions of SDRs)

The accompanying notes are an integral part of these financial statements.

Notes to the Financial Statements for the Three Months Ended July 31, 2019, and 2018

1. Nature of operations

The Special Drawing Right (SDR) is an international interest-bearing reserve asset created by the International Monetary Fund (IMF) following the First Amendment of the Articles of Agreement in 1969. SDRs can be held and used only by participants in the SDR Department, by the IMF through the General Resources Account (GRA), and by certain official entities designated by the IMF and referred to as “prescribed holders”. At July 31 and April 30, 2019, all members of the IMF were participants in the SDR Department and 15 institutions were designated as prescribed holders.

Since the creation of the SDR in 1969, three general allocations and one special allocation of SDRs have been made, for a total of SDR 204.2 billion as at July 31, and April 30, 2019.

Prescribed holders do not receive SDR allocations. Holders of SDRs earn interest on their SDR holdings. Participants pay charges on their cumulative SDR allocations. Both interest and charges are at the SDR interest rate. Participants that use their SDRs, and therefore hold fewer SDRs than their cumulative allocations, will be debited with the excess of charges over interest. Conversely, participants that hold more SDRs than their cumulative allocations will be credited with the excess of interest over charges.

The resources of the SDR Department are held separately from the assets and liabilities of all the other accounts of, or administered by, the IMF. They may not be used to meet the liabilities, obligations, or losses of the IMF incurred in the operations of the General Department or other accounts, except that the SDR Department reimburses the General Department for expenses incurred in conducting the business of the SDR Department. Upon participants’ termination of participation in, or liquidation of, the SDR Department, the IMF will provide to holders freely usable currencies or currencies received from participants in settlement of their obligations. A freely usable currency is a member’s currency that the IMF has determined is widely used to make payments for international transactions and widely traded in the principal exchange markets. At present, the Chinese renminbi, euro, Japanese yen, pound sterling, and U.S. dollar are classified as freely usable currencies.

The SDR is also used by several international and regional organizations as a unit of account or as the basis for their units

of account. Several international conventions and treaties also use the SDR as a unit of account.

1.1 Uses of SDRs

Participants and prescribed holders can use and receive SDRs in transactions and operations by agreement among themselves in accordance with the IMF’s Articles of Agreement and decisions adopted by the IMF Executive Board. Participants may also conduct such transactions bilaterally with any participant or prescribed holder through voluntary trading arrangements to buy and sell SDRs. The role of the IMF in such transactions by agreement is to act as intermediary, matching participants in this managed market in a manner that meets, to the greatest extent possible, the requirements and preferences of the buyers and sellers of SDRs.

Participants can use SDRs in operations and transactions involving the GRA of the General Department, such as the payment of quota, payment of charges, and repurchases. The GRA can use SDRs in operations and transactions involving participants, such as purchases, payment of remuneration, and repayment of borrowings. If necessary, the IMF may also designate participants to provide freely usable currency in exchange for SDRs; in doing so, the IMF ensures that a participant can use its SDRs to obtain an equivalent amount of freely usable currency if it has a need because of its balance of payments, its reserve position, or developments in its reserves.

1.2 Allocations and cancellations of SDRs

The IMF has the authority to provide unconditional liquidity through general allocations of SDRs to participants in the SDR Department in proportion to their quotas in the IMF. The IMF cannot allocate SDRs to itself or to other holders it prescribes. In its decisions on general allocations of SDRs, the IMF, as prescribed under its Articles, has sought to meet the long-term global need to supplement existing reserve assets and avoid economic stagnation and deflation as well as excess demand and inflation.

A new IMF member that elects to participate in the SDR Department receives an initial allocation, consisting of an amount determined on the basis of its IMF quota under Article XVIII of the IMF’s Articles of Agreement, and an amount in accordance with the special allocation of SDRs under the Fourth Amendment of the Articles of Agreement. The latter, which came to effect in 2009, was intended to enable all

members at the time and new members to participate in the SDR system on an equitable basis.

SDRs allocated under the special allocation to participants with overdue obligations to the IMF at the time of the allocation are held in an escrow account with the SDR Department and will be released to the participants upon their settlement of all overdue obligations (see Note 4).

The Articles of Agreement also provide for cancellations of SDRs, although to date there have been no cancellations.

2. Basis of preparation and measurement

The financial statements of the SDR Department are prepared in accordance with the accounting policies described in Note 3. The financial statements have been prepared under the historical cost convention.

The SDR Department is self-financed and does not have any equity as net cumulative allocations are equal to SDR holdings. It holds no cash or cash equivalents and as net operational income and net expenditure are always equal, it generates no income. Cash flows arising from operating activities are limited to the receipt of charges and assessments and payment of interest and administrative expenses. A statement of cash flows is not presented as it would not provide additional information beyond that already contained in the Statements of Comprehensive Income. Changes in SDR holdings are shown in Schedule 1.

2.1 Unit of account

The financial statements are presented in SDRs, which is the IMF's unit of account. The value of the SDR is determined daily by the IMF by summing specific amounts of the basket currencies in U.S. dollar equivalents on the basis of market exchange rates. The specific amounts of the currencies in the basket, were as follows:

SDR basket currency	Amount
Chinese renminbi	1.0174
Euro	0.38671
Japanese yen	11.900
Pound sterling	0.085946
U.S. dollar	0.58252

At July 31, 2019, 1 SDR was equal to US\$1.37542 (US\$1.38576 at April 30, 2019).

2.2 SDR interest rate

The SDR interest rate is used to calculate the interest paid on holdings and charges received on allocations.

The SDR interest rate is determined weekly by reference to a weighted average of yields or rates on short-term instruments in the money markets of the SDR basket currencies as follows:

SDR basket currency	Yield or rate
Chinese renminbi	Three-month benchmark yield for China Treasury bonds as published by the China Central Depository and Clearing Co., Ltd.
Euro	Three-month spot rate for euro area central government bonds with a minimum rating of AA published by the European Central Bank
Japanese yen	Three-month Treasury discount bills
Pound sterling	Three-month Treasury bills
U.S. dollar	Three-month Treasury bills

The SDR interest rate is subject to a floor of 0.050 percent and is rounded to three decimal places. The average interest rate was 1.066 percent and 0.944 percent per annum for the three months ended July 31, 2019, and 2018, respectively.

3. Summary of significant accounting policies

3.1 Financial instruments

Classification and measurement

Financial instruments are recognized when the SDR Department becomes a party to the contractual provisions of the instrument. At initial recognition, a financial instrument is measured at its fair value, which is best evidenced by the transaction amount. Subsequently, financial instruments are measured at amortized cost.

Impairment

At each reporting date, the SDR Department assesses its financial assets for impairment. An impairment loss would be recognized if there were objective evidence of impairment having occurred since initial recognition.

3.2 SDR allocations and holdings

Participants with holdings below their allocations have a net obligation to the SDR Department, which is presented as an asset in the statements of financial position. Participants with holdings in excess of their allocations have established a net claim on the SDR Department, which is presented in the statements of financial position as a liability.

3.3 Interest and charges

Interest is accrued on holdings of SDRs, and charges are levied on each participant's cumulative SDR allocation at the SDR interest rate on a quarterly basis, with the net result to be paid or received at the beginning of the following quarter. Charges are also levied on any negative balance of the

participant or unpaid charges. If sufficient SDRs are not received because charges are overdue, additional SDRs are temporarily created. This is in substance a receivable asset that is reversed when the participants pay the overdue charges. Interest and charges are settled by crediting and debiting the individual holdings accounts.

3.4 Assessment

The expenses of conducting the business of the SDR Department are paid by the IMF from the GRA, which is reimbursed by the SDR Department. For this purpose, the SDR Department levies an assessment on all participants in proportion to their cumulative allocations at the end of each financial year.

4. Allocations and holdings

At July 31, and April 30, 2019, cumulative allocations to participants totaled SDR 204.2 billion.

Participants' net SDR positions were as follows:

	July 31, 2019			April 30, 2019		
	Below allocations	Above allocations	Total	Below allocations	Above allocations	Total
	<i>(in millions of SDRs)</i>					
Cumulative allocations	97,060	107,098	204,158	116,973	87,185	204,158
Holdings of SDRs	68,080	113,427	181,507	87,377	92,923	180,300
Net SDR positions	28,980	(6,329)	22,651	29,596	(5,738)	23,858

The composition of SDR holdings was as follows:

	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
Participants	181,507	180,300
General Resources Account	21,546	22,772
Prescribed holders	1,105	1,086
Total holdings	204,158	204,158

In accordance with the provision of the Fourth Amendment of the IMF's Articles of Agreement, SDRs allocated under the special allocation are held in escrow on behalf of participants that had overdue obligations to the General Department or the Poverty Reduction and Growth (PRG) Trust at the time of the allocation. At July 31, and April 30, 2019, SDR 20.3 million was held in escrow for Somalia (SDR 4.2 million) and Sudan (SDR 16.1 million). The SDRs held in escrow will be released to the participants upon the settlement of overdue obligations, and their allocations and holdings adjusted accordingly.

5. Related party transactions and administrative expenses

The GRA is a holder of SDRs and conducts operations and transactions with the SDR Department participants. The GRA's holdings of SDRs amounted to SDR 21.5 billion and SDR 22.8 billion at July 31, 2019, and April 30, 2019, respectively.

The expenses of conducting the business of the SDR Department are paid by the IMF from the GRA and reimbursed by the SDR Department. For this purpose, the SDR Department levies an assessment on all participants in proportion to their cumulative allocations at the end of each financial year.

Supplemental Schedules

SCHEDULE 1: Statements of Changes in SDR Holdings for the Three Months Ended July 31, 2019, and 2018

(in millions of SDRs)

The accompanying notes are an integral part of these financial statements.

Notes to the Financial Statements for the Three Months Ended July 31, 2019, and 2018

1. Nature of operations

The International Monetary Fund (IMF) is the Trustee of the following trusts:

- i. The Poverty Reduction and Growth Trust (PRG Trust)
- ii. The Trust for Special Poverty Reduction and Growth Operations for the Heavily Indebted Poor Countries and Interim ECF Subsidy Operations (the PRG-HIPC Trust) and the related Umbrella Account for HIPC Operations (the PRG-HIPC Umbrella Account)
- iii. The Catastrophe Containment and Relief Trust (CCR Trust) and the related Umbrella Account for CCR Operations (the CCR Umbrella Account)

Collectively, these trusts are referred to as the “Concessional Lending and Debt Relief Trusts” or the “Trusts”. The Trusts provide loans on concessional terms and/or debt relief assistance to low-income member countries.

The assets and liabilities of each Trust are held separately from the assets and liabilities of all other accounts of, or administered by, the IMF. The Trusts’ assets may not be used to discharge liabilities or to cover losses incurred in the administration of other accounts. Administrative expenses incurred by the Trusts are paid by the IMF and reimbursed by these Trusts in accordance with the IMF’s Articles of Agreement and decisions of the IMF Executive Board. Resources not immediately needed in operations are invested as allowed by the instruments establishing the Trusts (Trust Instruments).

1.1 PRG Trust

Established originally as the Enhanced Structural Adjustment Facility Trust in December 1987, the PRG Trust provides loans on concessional terms to qualifying low-income member countries. The PRG Trust provides financial assistance tailored to the diverse needs of low-income countries with higher concessionality of financial support.

Financing is available under the following facilities:

- i. The Extended Credit Facility (ECF) for members with protracted balance of payments problems under three- to four-year arrangements, which may be extended up to a total of five years

- ii. The Standby Credit Facility (SCF) for actual or potential short-term balance of payments needs under one- to two-year arrangements
- iii. The Rapid Credit Facility (RCF) for urgent balance of payments needs, which provides financial support in outright loan disbursements

Until April 10, 2010, the PRG Trust provided loans under the Exogenous Shocks Facility (ESF) to facilitate member countries’ adjustment to sudden and exogenous shocks.

The repayment terms of PRG Trust loans are 5½ to 10 years for the ECF, ESF, and RCF and four to eight years for the SCF, in equal semiannual installments. The structure of interest rates on PRG Trust lending is reviewed every two years by the IMF Executive Board.

The operations of the PRG Trust are conducted through four Loan Accounts, the Reserve Account, and four Subsidy Accounts.

The resources of the Loan Accounts consist of proceeds from borrowings, repayments of principal, and interest payments on loans extended by the Trust.

The resources held in the Reserve Account consist of transfers by the IMF from the Special Disbursement Account (SDA) and net earnings from investments. Reserve Account resources are to be used by the Trustee in the event that PRG Trust loan principal repayments and interest payments, together with the authorized interest subsidy, are insufficient to repay loan principal and interest on borrowings of the Loan Accounts.

The resources held in the Subsidy Accounts consist of grant contributions, borrowings, transfers from the SDA, transfers of earnings from other accounts administered by the IMF on behalf of donors (Administered Accounts), and net earnings from investments. The available resources in the Subsidy Accounts are drawn by the Trustee to pay the difference between the interest due on PRG Trust loans and the interest due on Loan Accounts borrowings.

1.2 PRG-HIPC Trust and the PRG-HIPC Umbrella Account

The PRG-HIPC Trust was established in February 1997 to provide assistance to low-income countries by providing grants or loans for purposes of reducing their external debt burden to sustainable levels.

The operations of the PRG-HIPC Trust are conducted through the PRG-HIPC Trust Account and the related Umbrella Account. Resources of the PRG-HIPC Trust Account consist of grant contributions, borrowings, transfers from the SDA, transfers of earnings from Administered Accounts, and net earnings from investments. Grants made by the PRG-HIPC Trust are administered in the PRG-HIPC Umbrella Account on behalf of the recipients.

1.3 CCR Trust and the CCR Umbrella Account

Established originally as the Post-Catastrophe Debt Relief (PCDR) Trust in June 2010, the CCR Trust provides balance of payments assistance in the form of grants to eligible low-income members following catastrophic natural or public health disasters.

The operations of the CCR Trust are conducted through three accounts: two earmarked accounts for Post-Catastrophe and Catastrophe Containment assistance and the General Account, containing non-earmarked funds available for both types of assistance. Resources of the CCR Trust consist of grant contributions, borrowings, transfers from the SDA, and net earnings from investments. Grants made by the CCR Trust are administered in the CCR Umbrella Account on behalf of the recipients.

2. Basis of preparation and measurement

The financial statements of the Trusts have been prepared in accordance with the accounting policies described in Note 3. The financial statements have been prepared under the historical cost convention, except for the revaluation of financial instruments at fair value through profit or loss.

2.1 Unit of account

The financial statements are presented in SDRs, which the Trusts use as the unit of account. The value of the SDR is determined daily by the IMF by summing specific amounts of the basket currencies in U.S. dollar equivalents on the basis of market exchange rates. The specific amounts of the currencies in the basket were as follows:

SDR basket currency	Amount
Chinese renminbi	1.0174
Euro	0.38671
Japanese yen	11.900
Pound sterling	0.085946
U.S. dollar	0.58252

At July 31, 2019, 1 SDR was equal to US\$1.37542 (US\$1.38576 at April 30, 2019).

2.2 SDR interest rate

The SDR interest rate is used to calculate interest on certain cash balances and borrowings. The SDR interest rate also provides the basis for setting the interest levied on outstanding loans (see Note 5.3) and interest calculated on certain borrowings.

The SDR interest rate is determined weekly by reference to a weighted average of yields or rates on short-term instruments in the money markets of the members whose currencies are included in the SDR valuation basket:

SDR basket currency	Yield or rate
Chinese renminbi	Three-month benchmark yield for China Treasury bonds as published by the China Central Depository and Clearing Co., Ltd.
Euro	Three-month spot rate for euro area central government bonds with a minimum rating of AA published by the European Central Bank
Japanese yen	Three-month Treasury discount bills
Pound sterling	Three-month Treasury bills
U.S. dollar	Three-month Treasury bills

The SDR interest rate is subject to a floor of 0.050 percent and is rounded to three decimal places.

The average SDR interest rate was 1.066 percent per annum and 0.944 percent per annum during the three months ended July 31, 2019, and 2018, respectively.

3. Summary of significant accounting policies

3.1 Financial instruments

Measurement at initial recognition

Financial instruments are recognized when the Trusts become a party to the contractual provisions of the instrument. At initial recognition, a financial instrument is measured at its fair value, which is best evidenced by the transaction amount.

Derecognition

Financial assets, or a portion thereof, are derecognized when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the Trusts transfer substantially all the risks and rewards of ownership, or (ii) the Trusts neither transfer nor retain substantially all the risks and rewards of ownership and the Trusts have not retained control. Financial liabilities are derecognized when they are extinguished (i.e., when the obligation specified in the contract is discharged, canceled or expires).

Classification and subsequent measurement of financial assets

A financial asset is classified on initial recognition based on two factors: the business model for managing the financial assets; and its contractual cash flow characteristics.

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost (AC). Interest income from these financial assets is included in the statements of comprehensive income using the effective interest method. Any gain or loss arising on derecognition is recognized in the statements of comprehensive income.

Financial assets that are held for collection of contractual cash flows and for selling, where the assets' cash flows represent solely payments of principal and interest, would be measured at fair value through other comprehensive income (FVOCI). The Trusts did not have financial assets at FVOCI during the three months ended July 31, 2019, and 2018.

All other financial assets that do not meet the criteria to be measured at AC or FVOCI are measured at fair value, with changes in fair value recognized in profit or loss (FVPL).

Impairment

The Trusts assess financial assets at AC for impairment. If impairment needed to be recognized, it would be recognized as impairment allowance.

Classification and subsequent measurement of financial liabilities

Derivative financial liabilities are measured at fair value with changes in fair value recognized in profit or loss.

All other financial liabilities are measured at AC. Interest expense from these financial liabilities is included in the statements of comprehensive income using the effective interest method.

3.2 Financial assets and liabilities**3.2.1 Cash and cash equivalents**

Cash and cash equivalents are financial assets measured at AC. They comprise cash on hand and demand deposits and other highly liquid short-term investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. Cash and cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

3.2.2 Investments

Investments are financial assets that include short-term investments, fixed-term deposits, a range of fixed-income securities, equities, and derivative assets. Derivative liabilities are disclosed as part of other liabilities in the statements of financial position.

The Trusts' investment portfolios are managed under defined investment strategies (See Note 4), and their performance is evaluated on a fair value basis. The business model for the invested portfolios focuses on achieving fair value gains as opposed to collecting contractual cash flows. Accordingly, securities in these portfolios are classified at FVPL. The portfolios may hold fixed-term deposits, pending investment in assets consistent with each Trust's investment strategy or as an investment decision to achieve specific objectives. These fixed-term deposits are measured at AC.

Purchases and sales of investments are recognized on the trade date. The corresponding investment trades receivable or payable are recognized in other assets and other liabilities, respectively, pending settlement of a transaction.

Investment income comprises interest income on investments at AC, interest and dividend income, and realized and unrealized gains and losses from FVPL investments, including currency valuation differences arising from exchange rate movements against the SDR, net of all trading-related investment fees.

Interest income from investments is recognized using the effective interest method. Dividend income is recognized based on the ex-dividend date.

3.2.3 Loans receivable

Loans receivable are financial assets that are measured at AC. They represent financing provided to low-income countries under the various PRG Trust financing facilities (see Note 1.1). Countries assessed by the IMF's Executive Board as being eligible for PRG Trust financing may receive financing in the PRG Trust as loan disbursements under arrangements or as outright disbursements (i.e., loans disbursed without an arrangement).

The PRG Trust levies interest on eligible low-income members' use of PRG Trust credit facilities (see Note 5.3). Interest income is recognized using the effective interest method.

Impairment of PRG Trust loans

An impairment loss would be recognized if there were objective evidence of impairment having occurred since initial recognition and would be determined as the difference between the carrying value of loans receivable and the present value of the estimated future cash flows.

3.2.4 Borrowings

Borrowings are financial liabilities measured at AC and represent financing received from lenders (see Note 6).

Interest expense on borrowings is calculated by applying the effective interest method.

3.3 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market.

A three-level fair value hierarchy is used to determine fair value under which financial instruments are categorized based on the priority of the inputs to the valuation technique. The fair value hierarchy has the following levels:

- Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3:** Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When the inputs used to measure the fair value of an asset or liability fall within multiple levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest-level input that is significant to the fair value measurement of the instrument in its entirety. Thus, a Level 3 fair value measurement may include inputs that are both observable and unobservable.

The valuation techniques used to determine fair value are described in Note 7.

3.4 Foreign currency translation

Transactions denominated in currencies and not in SDRs are recorded at the rate of exchange on the date of the transaction. Assets and liabilities denominated in other currencies are reported using the SDR exchange rate on the date of the financial statements. Exchange differences arising from the settlement of transactions at rates different from those at the originating date of the transaction are included in the determination of total comprehensive income.

3.5 Contributions

The Trusts accept contributions on such terms and conditions as agreed between the Trusts and the contributor. Contributions are recognized as income after the achievement of specified conditions and are subject to the bilateral agreements stipulating how the resources are to be used.

4. Investments

The investment strategy for the PRG Trust is geared to generate a nominal return of 90 basis points over the six-month SDR interest rate over time. The PRG Trust assets are being phased in over a three-year period, starting in March 2017, and invested in a diversified portfolio of high-quality fixed-income instruments and equity securities.

The investment strategy for the PRG-HIPC and CCR Trusts seeks to enhance returns subject to liquidity requirements and limits the risk of impairment over an investment horizon of no more than three years. Liquid investments are held in short-term investments up to one year and the remainder in short-duration fixed-income securities.

Investments comprised the following:

	PRG Trust		PRG-HIPC Trust	
	July 31, 2019	April 30, 2019	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>			
Short-term investments	150	62	5	6
Equity securities	802	533	—	—
Fixed-term deposits	520	896	118	139
Fixed-income securities	6,200	6,130	211	187
Derivative assets	2	2	—	—
Total	7,674	7,623	334	332

The CCR Trust held fixed-term deposits of SDR 18 million at July 31, and April 30, 2019 respectively.

Derivative assets and derivative liabilities were SDR 2 million and SDR 9 million, respectively, at July 31, 2019 (SDR 2 million and SDR 7 million, respectively, at April 30, 2019).

The notional value of derivative financial instruments held in the PRG Trust was as follows:

	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
Currency swaps	140	142
Forwards	555	351
Futures		
Long positions	494	353
Short positions	146	252

Net investment income for the PRG and PRG-HIPC Trusts for the three months ended July 31, 2019, and 2018, comprised the following:

	PRG Trust		PRG-HIPC Trust	
	2019	2018	2019	2018
	<i>(in millions of SDRs)</i>			
Investment income on investments at FVPL	85	28	2	1
Interest income on investments at AC	2	4	—	—
Investment fees	(1)	—	—	—
Net investment income	86	32	2	1

The CCR Trust's net investment income comprised only interest income on investments at AC and was SDR 1 million for the three months ended July 31, 2019. There was no investment income in the CCR Trust for the three months ended July 31, 2018.

The maturities of short-term investments, fixed-term deposits, fixed-income securities, and derivative assets were as follows:

	July 31, 2019		
	PRG Trust	PRG-HIPC Trust	CCR Trust
	<i>(in millions of SDRs)</i>		
Financial year ending April 30			
2020	2,885	140	18
2021	1,519	103	—
2022	1,208	74	—
2023	408	17	—
2024	195	—	—
2025 and beyond	657	—	—
Total	6,872	334	18

	April 30, 2019		
	PRG Trust	PRG-HIPC Trust	CCR Trust
	<i>(in millions of SDRs)</i>		
Financial year ending April 30			
2020	3,780	162	18
2021	1,415	97	—
2022	1,182	73	—
2023	202	—	—
2024	112	—	—
2025 and beyond	399	—	—
Total	7,090	332	18

5. Commitments and loans receivable

5.1 Commitments under PRG Trust arrangements

At July 31, 2019, undrawn balances under 15 ECF arrangements and one SCF arrangement were SDR 1,082 million (SDR 989 million under 16 ECF arrangements at April

30, 2019). Commitments and undrawn balances under current arrangements are presented in Schedule 2.

5.2 Loans receivable

Changes in PRG Trust outstanding loans were as follows:

	Loan facilities				
	ECF	ESF	RCF	SCF	Total
	<i>(in millions of SDRs)</i>				
April 30, 2019	5,532	128	454	263	6,377
Disbursements	300	—	—	—	300
Repayments	(252)	(78)	(13)	—	(343)
July 31, 2019	5,580	50	441	263	6,334
April 30, 2018	5,247	346	413	283	6,289
Disbursements	454	—	—	—	454
Repayments	(227)	(85)	(11)	(2)	(325)
July 31, 2018	5,474	261	402	281	6,418

No impairment losses have been recognized for the three months ended July 31, 2019, and 2018.

Scheduled repayments of PRG Trust outstanding loans are summarized below:

	July 31, 2019	April 30, 2019
	<i>(in millions of SDRs)</i>	
Financial year ending April 30		
2020	548	891
2021	866	866
2022	817	817
2023	731	731
2024	758	758
2025 and beyond	2,614	2,314
Total	6,334	6,377

The concentration of PRG Trust outstanding loans by region was as follows:

	July 31, 2019		April 30, 2019	
	<i>(in millions of SDRs and as a percentage of total outstanding loans)</i>			
Africa	5,072	80.1%	5,061	79.4%
Asia and Pacific	614	9.7%	637	10.0%
Europe	91	1.4%	93	1.4%
Middle East and Central Asia	458	7.2%	479	7.5%
Western Hemisphere	99	1.6%	107	1.7%
Total	6,334	100.0%	6,377	100.0%

The use of credit in the PRG Trust by the largest users was as follows:

	July 31, 2019		April 30, 2019	
	<i>(in millions of SDRs and as a percentage of total outstanding loans)</i>			
Largest user of credit	806	12.7%	844	13.2%
Three largest users of credit	2,011	31.7%	2,082	32.6%
Five largest users of credit	2,689	42.4%	2,748	43.1%

The five largest users of credit at July 31, 2019, in descending order, were Ghana, Côte d'Ivoire, Bangladesh, Cameroon, and Kenya (Ghana, Côte d'Ivoire, Bangladesh, Kenya, and Cameroon at April 30, 2019). Outstanding loans by member are presented in Schedule 1.

5.3 Interest on outstanding loans

On May 24, 2019, the Executive Board set the interest rate on outstanding ECF and SCF loans at zero percent per annum, effective July 1, 2019, through the next review in June 2021, and extended the interest waiver on outstanding ESF loans until they are fully repaid by November 2020 or until the time of the next review in June 2021. In addition, the Executive Board modified the PRG Trust interest mechanism for ECF and SCF loans based on the SDR interest as follows:

Average SDR interest rate for the latest 12-month period	ECF and SCF (in percent)
Less than 2%	—
Between 2% and 5%	0.25
Greater than 5%	0.50

The interest rate on financial assistance provided under the RCF is permanently set at zero.

The interest rate applicable to PRG Trust loans was zero for the three months ended July 31, 2019, and 2018.

6. Borrowings

The Trusts borrow on such terms and conditions as agreed between the Trustee and individual lenders. The repayment periods for the PRG Trust Loan Accounts borrowings typically match the maturity of the loans extended by the PRG Trust.

Certain creditors of the PRG Trust participate in a voluntary "encashment" regime, under which they can seek early repayment of outstanding claims in case of balance of payments needs, provided they allow drawings under their own agreements for encashment by other participating creditors. Early repayment is subject to availability of resources under borrowing agreements with other lenders. The borrowings of the PRG Trust Subsidy Accounts and the PRG-HIPC and CCR Trusts are repayable in one installment at their maturity dates.

Drawings under some PRG Trust borrowing agreements in the Loan Accounts may have shorter initial maturities (e.g., six months) that can be extended, at the sole discretion of the Trustee, up to the maturity dates of the corresponding Trust loans for which they were drawn.

6.1 Resources available under borrowing agreements

PRG Trust resources available under borrowing and note purchase agreements in the Loan Accounts were SDR 14,621 million and SDR 14,921 million at July 31, and April 30, 2019, respectively (See Schedule 3). PRG Trust Subsidy Accounts, PRG-HIPC, and CCR Trust borrowing agreements have been fully drawn.

6.2 Outstanding borrowings

Changes in the outstanding borrowings in the PRG Trust Loan and Subsidy Accounts were as follows:

	Loan	Subsidy	Total
	(in millions of SDRs)		
April 30, 2019	6,389	277	6,666
Borrowings	300	—	300
Repayments	(344)	—	(344)
July 31, 2019	6,345	277	6,622
April 30, 2018	6,254	258	6,512
Borrowings	454	116	570
Repayments	(322)	(116)	(438)
July 31, 2018	6,386	258	6,644

Scheduled repayments of outstanding borrowings in the PRG Trust Loan and Subsidy Accounts are summarized below:

	July 31, 2019	April 30, 2019	July 31, 2019	April 30, 2019
	Loan		Subsidy	
Financial year ending April 30	(in millions of SDRs)			
2020	2,371	2,999	2	2
2021	911	472	—	—
2022	413	413	116	116
2023	428	428	9	9
2024	512	512	42	42
2025 and beyond	1,710	1,565	108	108
Total	6,345	6,389	277	277

Scheduled repayments of outstanding borrowings in the PRG-HIPC and CCR Trusts are summarized below:

	PRG-HIPC Trust		CCR Trust	
	July 31, 2019	April 30, 2019	July 31, 2019	April 30, 2019
Financial year ending April 30	(in millions of SDRs)			
2020	26	28	—	—
2021	39	39	—	—
2022	—	—	—	—
2023	—	—	—	—
2024	22	22	12	12
2025 and beyond	2	—	6	6
Total	89	89	18	18

6.3 Interest on outstanding borrowings

The weighted average interest rate on PRG Trust variable interest rate borrowings was 0.83 percent per annum and 0.73 percent per annum for the three months ended July 31, 2019, and 2018, respectively. PRG-HIPC Trust carry a fixed interest rate, ranging from zero to 0.5 percent per annum, and all CCR Trust borrowings are interest free.

7. Fair value measurement

Valuation techniques used to value financial instruments include the following:

Level 1

The fair value of publicly traded investments and derivative instruments (futures and options) is based on quoted market prices in an active market for identical assets without any adjustments (closing price for equities and derivative instruments and bid price for short-term investments). These investments are included within Level 1 of the fair value hierarchy.

Level 2

The fair value of fixed-income securities not actively traded is determined on the basis of a compilation of significant observable market information, such as recently executed trades in securities of the issuer or comparable issuers and yield curves. The assessment also takes into account the inherent risk and terms and conditions of each security. Given that the significant inputs are observable, these securities are included within Level 2 of the fair value hierarchy.

The fair value of over-the-counter derivative instruments (foreign exchange forwards and currency swaps) not actively traded is determined by using a pricing model that incorporates foreign exchange spot and forward rates and interest rate curves. Given that the significant inputs into the pricing models are market observable, these instruments are included within Level 2 of the fair value hierarchy.

7.1 Investments

The following tables present the fair value hierarchy used to determine the fair value of investments in the PRG and PRG-HIPC Trusts:

	July 31, 2019		
	Level 1	Level 2	Total
Recurring fair value measurements	<i>(in millions of SDRs)</i>		
PRG Trust	941	6,213	7,154
PRG-HIPC Trust	5	211	216

	April 30, 2019		
	Level 1	Level 2	Total
Recurring fair value measurements	<i>(in millions of SDRs)</i>		
PRG Trust	587	6,140	6,727
PRG-HIPC Trust	6	187	193

There were no Level 3 investments at July 31, and April 30, 2019, and there were no transfers of investments between Level 1 and Level 2 during the three months ended July 31, 2019, and 2018.

Fixed-term deposits are generally of a short-term nature and are carried at AC, which approximated fair value at July 31, and April 30, 2019.

Derivative liabilities in the PRG Trust at July 31, 2019 comprised SDR 1 million, valued based on quoted market prices (Level 1 in the fair value hierarchy), and SDR 8 million, valued based on observable market data (Level 2 in the fair value hierarchy) (SDR 1 million and SDR 6 million for Level 1 and Level 2, respectively, at April 30, 2019).

7.2 Loans receivable

The PRG Trust, and the IMF as Trustee, plays a unique role in providing balance of payments support to member countries. PRG Trust financing features policy conditions that require member countries to implement macroeconomic and structural policies, and are an integral part of PRG Trust lending. These measures aim to help countries solve their balance of payments problems while safeguarding Trust resources. The fair value of PRG Trust loans receivable cannot be determined due to their unique characteristics, including the debtor's membership relationship with the IMF, the Trustee, and the absence of a principal or most advantageous market for PRG Trust loans.

7.3 Other financial assets and liabilities

The carrying value of borrowings (see Note 6) and other assets and liabilities accounted for at AC, except derivative liabilities, represents a reasonable estimate of their fair value at July 31, and April 30, 2019.

8. Related party transactions

Administrative expenses incurred by the Trusts are paid by the IMF from the General Resources Account (GRA) and reimbursed by these Trusts. During the three months ended July 31, 2019, and 2018, SDR 16 million and SDR 15 million, respectively, was accrued in the PRG Trust with respect to reimbursements to the GRA.

In addition to bilateral contributions from member countries, the IMF also made contributions to the Trusts to meet the financing needs of low-income countries. Cumulative contributions from the IMF were as follows:

	July 31, and April 30, 2019
	<i>(in millions of SDRs)</i>
PRG Trust Reserve Account	2,697
PRG Trust Subsidy Accounts	1,018
PRG-HIPC Trust	1,239
CCR Trust	293
Total	5,247

9. Combining statements of financial position and statements of comprehensive income and changes in resources

The combining statements of financial position and statements of comprehensive income and changes in resources of the PRG Trust are presented below. The same statements are not presented for the PRG-HIPC and CCR Trusts as the financial positions of the respective umbrella accounts remained unchanged for the three months ended July 31, 2019, and 2018.
