## Management of Natural Resources in Sub-Saharan Africa

## **BEYOND THE CURSE** **Policies to Harness the Power of Natural Resources**

**Rabah Arezki, Thorvaldur Gylfason, and Amadou N.R. Sy**

2011 · 306 pp · Paperback · ISBN 978-1-61635-145-8 · Stock# NRFDEA · Price: \$35

“Surprisingly...natural resource discoveries, especially in poor countries, have been found to be, more often than not, a problem, rather than a blessing. *Beyond the Curse* is a manual on the nature of the problems they spawn, and the policies that will avoid them. It thus gives guidelines for how natural resources, and their revenues, should be handled. It is immensely useful, and is the right book on the right problem at the right time.”

*George Akerlof, Koshland Professor of Economics, University of California Berkeley and Winner of the 2001 Nobel Prize in Economic Sciences*

“With a group of talented and insightful authors, *Beyond the Curse* brings clarity and structure to the complex task of managing natural resource wealth effectively...and creating the foundations of sustained inclusive growth. This book is admirable for its sound economic foundations, its pragmatic approach to complexity, and its freedom from orthodoxies. It is a major contribution to a centrally important challenge for much of Africa.”

*Michael Spence, Professor of Economics, New York University and Winner of the 2001 Nobel Prize in Economic Sciences*

## FORTHCOMING

### **OIL WEALTH IN CENTRAL AFRICA**

#### ***Policy for Inclusive Growth***

**Bernardin Akitoby and Sharmini Coorey**

Paperback · ISBN 978-1-61635-376-6 · Stock# OWCAEA

Drawing on new research on managing oil wealth and central Africa’s oil exporters’ experiences, this book addresses the challenge of strengthening the management of oil wealth and promoting policies for inclusive growth.

### **COMMODITY PRICE VOLATILITY AND INCLUSIVE GROWTH**

**Rabah Arezki, Catherine Pattillo, and Marc Quintyn**

Paperback · ISBN 978-61635-379-7 · Stock# CPVIEA

This title discusses the challenges posed by commodity price volatility and discusses policies to promote growth that is inclusive of all the citizens in low-income countries. It also explores macroeconomic policy options and the building of fiscal institutions to prevent boom and bust cycles.

## Also of Interest

### **REGIONAL ECONOMIC OUTLOOK: SUB-SAHARAN AFRICA**

Published twice yearly · \$35 · ISSN 2071-3207

Each volume of the *Regional Economic Outlook* covers recent economic developments and prospects for the region. The report also includes key data for specific countries in the region and focuses on policy developments that have affected their economic performance. Furthermore, this report analyzes the near-term outlook, key risks, and related policy challenges.

### **MANAGING THE OIL REVENUE BOOM**

#### ***THE ROLE OF FISCAL INSTITUTIONS***

Rolando Ossowski, Mauricio Villafuerte, Paulo Medas, and Theo Thomas

2008 · ISBN 978-158906-718-9 · Stock# S260EA · \$30

Increases in oil exports and revenues have revealed how governments manage fiscal policies in light of changing market conditions and the role of special fiscal institutions (SFIs). In this Occasional Paper, IMF experts examine the role of SFIs in fiscal management, review the experiences of selected countries, and draw general lessons.

### **TAXATION OF PETROLEUM AND MINERALS**

#### ***PRINCIPLES, PROBLEMS, AND PRACTICE***

Philip Daniel, Michael Keen, and Charles McPherson

2011 · Paperback · ISBN 978-0-415-78138-1 · \$38.95

2010 · Hardback · ISBN 978-0-415-5692-7 · \$150

Copublished with Routledge. For more information, please visit [www.routledge.com](http://www.routledge.com).

“A timely and welcome guide to policymakers and advisors in the area of resource taxation, combining theoretical underpinnings and sound practical advice over a range of relevant topics, from tax design, through fiscal and financial modeling to tax administration.”

***Joseph Amoake-Tuffour***

*Ministry of Finance and Economic Planning, Republic of Ghana*
