#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 1. Purpose and Organization

The IMF is an international organization of 183 member countries. It was established, among other purposes, to promote international monetary cooperation and exchange stability and to maintain orderly exchange arrangements among members; to foster economic growth and high levels of employment; and to provide temporary financial assistance to countries under adequate safeguards to help ease balance of payments adjustment. The IMF conducts its operations and transactions through the General Department and the Special Drawing Rights Department (the SDR Department). The General Department consists of the General Resources Account (GRA), the Special Disbursement Account (SDA), and the Investment Account. The latter has never been activated. The IMF also administers trusts and accounts established to perform financial and technical services and financial operations consistent with the purposes of the IMF. The resources of these trusts and accounts are contributed by members and the IMF. The financial statements of the SDR Department and these trusts and accounts are presented separately.

#### General Resources Account

The GRA holds the general resources of the IMF. Its resources reflect the receipt of quota subscriptions, use and repayment of IMF credit, collection of charges on the use of credit, payment of remuneration on creditor positions, borrowings, and payment of interest and repayment of borrowings.

#### Special Disbursement Account

The assets and resources of the SDA are held separately from other accounts of the General Department. Resources of the SDA include transfers received from the Trust Fund, an account administered by the IMF, and part of the proceeds from the sales of the IMF's gold. Income from the investment of gold profits in the SDA is to be transferred, as needed, to the Poverty Reduction and Growth Facility–Heavily Indebted Poor Countries Trust (PRGF-HIPC Trust), in accordance with decisions of the IMF. The SDA also holds outstanding loans extended under the Structural Adjustment Facility (SAF), which was established in March 1986 to provide balance of payments assistance on concessional terms to qualifying low-income developing country members.

Assets that exceed the financing needs of the SDA, excluding investments arising from the sales of gold, are transferred to the Reserve Account of the Poverty Reduction and Growth Facility Trust (PRGF Trust), which is administered separately by the IMF as trustee.

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The financial statements of the IMF are prepared in accordance with International Accounting Standards (IAS). Specific accounting principles and disclosure practices are explained further below. The preparation of financial statements in conformity with IAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

In financial year 2001, the IMF elected early adoption of IAS 39, *Financial Instruments: Recognition and Measurement*. The adoption of IAS 39 had no material effect on the IMF's financial statements.

#### Revenue and Expense Recognition

The financial statements are prepared on the accrual basis; accordingly, income is recognized as it is earned, and expenses are recorded as they are incurred.

#### Unit of Account

The financial statements are expressed in terms of SDRs. The value of the SDR is determined by the IMF each day by summing the values in U.S. dollars, based on market exchange rates, of the currencies in the SDR valuation basket. The IMF reviews the SDR valuation basket every five years. The latest review was completed in October 2000, and the new composition of the SDR valuation basket became effective on January 1, 2001. The value of the SDR in terms of U.S. dollars on the last business day prior to the change (December 29, 2000) was identical under both valuation baskets. The currencies in the basket as of January 31, 2002 were as follows:

| Currency       | Amount  |
|----------------|---------|
| Euro           | 0.4260  |
| Japanese yen   | 21.0000 |
| Pound sterling | 0.0984  |
| U.S. dollar    | 0.5770  |

As of January 31, 2002, one SDR was equal to 1.24204 U.S. dollars (one SDR was equal to 1.29779 U.S. dollars as of January 31, 2001).

#### - 10 -

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### Credit Outstanding

The IMF provides balance of payments assistance in accordance with established policies by selling to members, in exchange for their own currencies, SDRs or currencies of other members. When members make purchases, they incur obligations to repurchase the IMF's holdings of their currencies within specified periods by payments in SDRs or other currencies, as determined by the IMF. The IMF's policies on the use of its general resources are intended to ensure that their use is temporary and will be reversed within agreed-upon repurchase periods.

A member is entitled to repurchase, at any time, the IMF's holdings of its currency on which charges are levied and is expected to make repurchases as and when its balance of payments and reserve position improve.

#### **Overdue Obligations and Special Contingent Account**

It is the policy of the IMF to exclude from current income charges due by members that are six months or more overdue in meeting payments to the IMF, unless these members are current in the payment of charges.

Debtor and creditor members share equally the financial consequences of overdue obligations under a mechanism referred to as burden sharing. The IMF generates compensating income equal to unpaid and deferred charges, excluding special charges, by adjustments to the rates of charge and remuneration. Members that have borne the financial consequences of overdue charges will receive refunds only to the extent that overdue charges that had given rise to burden sharing adjustments are settled, and these amounts are therefore not presented as liabilities. In view of protracted overdue repurchase obligations, the IMF also accumulates precautionary balances in the first Special Contingent Account (SCA-1). Allocations to the SCA-1 are financed by further adjustments to the rates of charge and remuneration (see Note 10).

#### Currencies

Currencies consist of members' currencies and securities held by the IMF. Each member has the option to substitute nonnegotiable and non-interest-bearing securities for the IMF's holdings of its currency that exceeds ¼ of 1 percent of the member's quota. These securities are encashable by the IMF on demand.

Each member is required to pay to the IMF its initial quota and subsequent quota increases partly in its own currency, with the remainder to be paid in usable currencies and SDRs. One exception was the quota increase of 1978, which was paid entirely in members' own currencies.

#### - 11 -

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### Usable Currencies

Usable currencies consist of currencies of members considered by the IMF to have strong balance of payment and reserve positions. These currencies are included in the IMF's financial transactions plan to finance purchases and other transfers of the IMF. Participation in the financial transactions plan is reviewed on a quarterly basis.

#### Valuation of Currencies

Currencies and securities are valued in terms of the SDR on the basis of the currency/SDR exchange rate determined for each currency. Securities are not marketable, but can be converted into cash on demand. Each member is obligated to maintain, in terms of the SDR, the SDR value of the balances of its currency, including securities, held by the IMF in the GRA. This requirement is referred to as the maintenance-of-value obligation. Whenever the IMF revalues its holdings of a member's currency, a receivable or a payable is established for the amount required to maintain the SDR value of the IMF's holdings of that currency. The currency balances in the balance sheet include these receivables and payables. All currencies are revalued in terms of the SDR at the end of the IMF's financial year.

#### SDR Holdings

Although SDRs are not allocated to the IMF, the IMF may acquire, hold, and dispose of SDRs through the GRA. The IMF receives SDRs from members in the settlement of their financial obligations to the IMF and uses SDRs in transactions and operations with members. The IMF earns interest on its SDR holdings at the same rate as all other holders of SDRs.

#### SDR Interest Rate

The SDR interest rate is determined weekly by reference to a combined market interest rate, which is a weighted average of yields on short-term instruments in the capital markets of France, Germany, Japan, the United Kingdom, and the United States.

#### Gold Holdings

The Articles of Agreement limit the use of gold in the IMF's operations and transactions. Any use provided for in the Articles requires a decision supported by an 85 percent majority of the total voting power. In accordance with the provisions of the Articles, whenever the IMF sells gold held on the date of the Second Amendment of the IMF's Articles of Agreement, the portion of the proceeds equivalent at the time of sale to one SDR per 0.888671 gram of fine gold, which is equal to SDR 35 per fine troy ounce, must be placed in the GRA. Any excess over this value will be held in the SDA or transferred to the Investment Account. The IMF may also sell gold held on the date of the Second Amendment to those members that were members

#### Notes to the Financial Statements as at January 31, 2002 and 2001

on August 31, 1975, in proportion to their quotas on that date, in exchange for their own currencies, at a price equivalent at the time of sale to one SDR per 0.888671 gram of fine gold.

The IMF values its gold holdings at historical cost on the specific identification method (see Note 5).

#### SAF Loans in the Special Disbursement Account

SAF loans in the SDA are valued at historical cost. Allowances for loan losses would be established if and when the IMF expected to incur a loss; no losses have been incurred in the past, and it is the current expectation that no losses will be incurred in the future.

#### Investments in the Special Disbursement Account

The resources of the SDA are invested pending their use. Investments are made in debt securities, medium-term instruments, which are fixed-income securities, and fixed-term deposits, either directly or by participation in an investment pool. Investments are marked to fair value on the last business day of the accounting period. Purchases are valued and reflected on the trade date basis and sales are based on the actual settlement date valuations. Investment income comprises interest earned on investments, realized and unrealized gains and losses on investments, and currency valuation differences arising from exchange rate movements against the SDR.

Interest rate risk is managed by limiting the investment portfolio to a weighted average effective duration that does not exceed three years. Currency risk is minimized by investing in securities denominated in SDRs or in the constituent currencies of the SDR valuation basket. Risk is further minimized by ensuring that the currency composition of the investment portfolio matches, as closely as possible, the currency composition of the SDR valuation basket.

#### Fixed Assets

Fixed assets with a cost in excess of a threshold amount are capitalized at cost. Buildings and equipment are depreciated using the straight-line method over the estimated useful lives of the assets, which range from 3 years for equipment to 30 years for buildings.

#### Quotas

Each member is assigned a quota that forms the basis of its financial and organizational relationship with the IMF. A member's quota is related to, but not strictly determined by, economic factors such as national income, the value of external trade and payments, and the level of official reserves. Quotas determine members' subscriptions to the IMF, their relative voting power, access to financing, and their share in SDR allocations.

#### - 13 -

#### - 14 -

#### **General Department**

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### Reserve Tranche Position

A member has a reserve tranche in the IMF when the IMF's holdings of its currency, excluding holdings that reflect the member's use of IMF credit, are less than the member's quota. A member's reserve tranche is considered a part of the member's external reserves and it may draw on the reserve tranche at any time when it represents that it has a need. Reserve tranche purchases are not considered a use of IMF credit and are not subject to repurchase obligations or charges.

#### Reserves

The IMF determines annually what part of its net income will be retained and placed in the General Reserve or the Special Reserve, and what part, if any, will be distributed. The Articles of Agreement permit the IMF to use the Special Reserve for any purpose for which it may use the General Reserve, except distribution. The IMF has decided that for financial year 2002, net operational income generated by the surcharges on purchases under the Supplemental Reserve Facility (SRF) and the Contingent Credit Lines (CCL) and the surcharges on purchases in the credit tranches and under the Extended Fund Facility, after meeting the expenses of conducting the PRGF Trust, would be transferred to the General Reserve.

#### Charges

The IMF levies periodic charges on members' use of IMF credit. The rate of charge is set as a proportion of the SDR interest rate. For financial year 2002, the basic rate of charge was 117.6 percent of the SDR interest rate. The basic rate of charge is increased to offset the effect on the IMF's income of the deferral of unpaid charges and to finance the additions to the SCA-1. The average adjusted rate of charge before applicable surcharges for the nine months ended January 31, 2002 was 3.48 percent (for the nine months ended January 31, 2001 the average rate was 5.32 percent). A surcharge progressing from 150 to 500 basis points above the rate of charge applies to use of credit under the SRF and the Contingent Credit Lines (CCL). In addition, credit outstanding in excess of 200 percent of quota, resulting from purchases after November 28, 2000 (other than the use under the SRF and CCL), is subject to a surcharge of 100-200 basis points. Special charges are levied on members' currency holdings that are not repurchased when due and on overdue charges. Special charges do not apply to obligations that are six months or more overdue to the IMF. A service charge is levied by the IMF on all purchases, except reserve tranche purchases. A refundable commitment fee is charged on Stand-By and Extended Arrangements. At the expiration or cancellation of an arrangement, the unrefunded portion of the commitment fee is taken into income.

#### Remuneration

The IMF pays interest, referred to as remuneration, on a member's reserve tranche position. The rate of remuneration is equal to the SDR interest rate, adjusted downward to finance a

#### Notes to the Financial Statements as at January 31, 2002 and 2001

share of the nonpayment of charges and additions to the SCA-1. The average adjusted rate of remuneration for the nine months ended January 31, 2002 was 2.96 percent (4.60 percent for the nine months ended January 31, 2001). A portion of the reserve tranche is unremunerated. This portion is equal to 25 percent of the member's quota on April 1, 1978—that part of the quota that was paid in gold prior to the Second Amendment of the Fund's Articles. For a member that joined the Fund after that date, the unremunerated reserve tranche is the same percentage of its initial quota as the average unremunerated reserve tranche was as a percentage of the quotas of all other members when the new member joined the Fund. The unremunerated reserve tranche remains fixed for each member in nominal terms, but because of subsequent quota increases, it is now significantly lower when expressed as a percentage of quota. The average is equal to 3.8 percent of quota at January 31, 2002 and 2001, but the actual percentage is different for each member.

#### Pension and Other Post-Retirement Obligations

The IMF operates two defined-benefit pension plans and provides post-retirement benefits to retired staff. In financial year 2000, the IMF adopted International Accounting Standard 19 on employee benefits.

The pension plans are funded by payments from the staff and the IMF, taking into account the recommendations of independent actuaries. Assets of the plans are held in separate trustee-managed funds and are measured at fair value as of the balance sheet date. Pension obligations are measured using the Projected Unit Credit Method, which measures the present value of the estimated future cash outflows, using interest rates of government securities that have maturities approximating the terms of the pension liabilities.

The assets set aside for the provision of post-retirement benefits are held in an investment account administered by the IMF. This account is funded by contributions from the IMF. The expected costs of the post-retirement medical and life insurance benefits are accrued over the period of employment using the Projected Unit Credit Method. Valuations of these obligations are carried out by independent actuaries.

#### *Comparatives*

When necessary, comparative figures have been reclassified to conform with changes in the presentation of the current year.

#### 3. Credit Outstanding

Changes in the outstanding use of IMF credit under the various facilities of the GRA during the nine months ended January 31, 2002 were as follows:

#### - 15 -

|                         | 350         | 445     |

#### Notes to the Financial Statements as at January 31, 2002 and 2001

Scheduled repurchase obligations in the GRA and repayments of SAF loans in the SDA as of January 31, 2002 are summarized below:

| Financial<br>Year Ending<br>April 30 | General<br>Resources<br>Account | Special<br>Disbursement<br>Account |
|--------------------------------------|---------------------------------|------------------------------------|
|                                      | In milli                        | ions of SDRs                       |
| 2002                                 | 2,149                           | 8                                  |
| 2003                                 | 20,412                          | 62                                 |
| 2004                                 | 9,938                           | 51                                 |
| 2005                                 | 9,527                           | 40                                 |
| 2006                                 | 4,633                           | 37                                 |
| 2007 and beyond                      | 5,963                           |                                    |
| Overdue                              | 871                             | _152                               |
| Total                                | <u>53,493</u>                   | <u>152</u>                         |

As of January 31, 2002 and 2001, use of credit in the GRA by the largest users was as follows:

|                               | 2002   | 2     | 200                             | 1     |
|-------------------------------|--------|-------|---------------------------------|-------|
|                               |        | v     | DRs and as a<br>credit outstand | ding  |
| Largest user of credit        | 11,233 | 21.0% | 8,823                           | 20.0% |
| Three largest users of credit | 29,719 | 55.6% | 23,157                          | 52.5% |
| Five largest users of credit  | 42,177 | 78.9% | 30,060                          | 68.1% |

#### **Overdue** Obligations

At January 31, 2002, seven members (as of January 31, 2001, six members and the Federal Republic of Yugoslavia (Serbia/Montenegro)) were six months or more overdue in settling their financial obligations to the IMF. Six of these members were overdue to the General Department.

GRA repurchases, GRA charges, SAF loan repayments, and SAF interest that are six or more months overdue to the General Department were as follows:

#### - 17 -

#### - 18 -

#### Notes to the Financial Statements as at January 31, 2002 and 2001

Receivables and payables arising from valuation adjustments at January 31, 2002, amounted to SDR 7,273 million and SDR 835 million, respectively (SDR 4,418 million and SDR 2,349 million, respectively, at January 31, 2001). Settlements of these receivables or payables are required to be made promptly.

Other currency holdings, other than those resulting from the use of credit or usable currencies, amounted to SDR 54,625 million (SDR 56,018 million as of January 31, 2001); of this amount SDR 28,996 million (SDR 32,949 million as of January 31, 2001) represents currencies of members that use IMF credit.

#### 5. Gold Holdings

During the financial year ended April 30, 2000, the IMF sold 12,944,253 fine ounces of gold at market prices to members with repurchase obligations falling due to the IMF. The same amount of gold, also valued at market price, was accepted in repurchase obligations. Proceeds in excess of the carrying value of gold, amounting to SDR 2,226 million, were placed in the SDA and subsequently invested. Income from investments will be transferred on an "as needed" basis to a separate subaccount of the PRGF-HIPC Trust to finance the HIPC initiative.

At January 31, 2002 and January 31, 2001, the IMF held 3,217,341 kilograms of gold, equal to 103,439,916 fine ounces of gold, at designated depositories. As of January 31, 2002, the value of the IMF's holdings of gold calculated at the market price was SDR 23.4 billion (SDR 21.1 billion at January 31, 2001).

#### 6. Interest and Charges

As of January 31, 2002, the total holdings on which the IMF levies charges amounted to SDR 53,493 million (SDR 44,121 million as of January 31, 2001). Charges and other receivables due to the IMF as of January 31, 2002 and January 31, 2001 were as follows:

|                       | 2002           | 2001           |
|-----------------------|----------------|----------------|
|                       | In millions    | of SDRs        |
| Periodic charges due  | 1,539          | 1,578          |
| Less: deferred income | <u>(1,047)</u> | <u>(1,010)</u> |
|                       | 492            | 568            |
| Other receivables     | 8              | 32             |
| Receivables           | 500            | 600            |

#### - 19 -

#### Notes to the Financial Statements as at January 31, 2002 and 2001

Periodic charges for the months ended January 31, 2002 and 2001 consisted of the following:

|   | 2002         | 2001         |
|---|--------------|--------------|
|   | In millions  | of SDRs      |
| Periodic charges                              | 1,535        | 1,683        |
| Add: adjustments for deferred charges, net of |              |              |
| refunds, and for contributions to the SCA-1   | 49           | 43           |
| Less: income deferred, net of settlements     | (27)         | (16)         |
| Total periodic charges                        | <u>1,557</u> | <u>1,710</u> |

#### 7. Fixed Assets

Other assets include capital assets, which at January 31, 2002 and 2001 amounted to SDR 225 million and SDR 222 million, respectively, and consisted of:

|                                | 2002             | 2001         |
|--------------------------------|------------------|--------------|
|                                | In millions of S | SDRs         |
| Land and buildings             | 315              | 306          |
| Equipment                      | 50               | 42           |
| Total fixed assets             | 365              | 348          |
| Less: accumulated depreciation | <u>(140)</u>     | <u>(126)</u> |
| Net fixed assets               | 225              | 222          |

#### 8. Investments of the Special Disbursement Account

As of January 31, the investments consisted of the following:

|                         | 2002           | 2001         |
|-------------------------|----------------|--------------|

| Medium-term instruments |                | 1,589        |
| Debt securities         |                | 782          |
| Fixed-term deposits     | 2,524          | 4            |
| Total                   | <u>2,524</u>   | <u>2,375</u> |

#### - 20 -

## Notes to the Financial Statements as at January 31, 2002 and 2001

As of January 31, 2002, the maturity profile of the investments, which were all in fixed income instruments, is summarized below:

|                  | 2002          | 2001         |
|------------------|---------------|--------------|
|                  | In millions o | f SDRs       |
| Less than 1 year | 2,524         | 97           |
| 1–3 years        |               | 2,103        |
| 3–5 years        |               | 175          |
| Total            | <u>2,524</u>  | <u>2,375</u> |

Investment income for the nine months ended January 31, 2002 and 2001 included the following:

|                               | 2002           | 2001       |
|-------------------------------|----------------|------------|
| —                             | In millions of | SDRs       |
| Interest income               | 83             | 109        |
| Realized and unrealized gains | 35             | 10         |
| Net investment income         | <u>118</u>     | <u>119</u> |

#### 9. Remuneration and Financing Costs

At January 31, 2002, total creditor positions on which the IMF paid remuneration amounted to SDR 50,301 million (SDR 42,210 million at January 31, 2001). Remuneration and financing costs for the nine months ended January 31, 2002 and 2001 consisted of the following:

|  | 2002                      | 2001                        |  |
|--|---------------------------|-----------------------------|--|

| of refunds, and for contributions to the SCA-1             | <u>(49)</u><br><u>974</u> | <u>(43)</u><br><u>1,340</u> |  |

#### - 21 -

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 10. Deferred Income and the First Special Contingent Account

The SCA-1 is financed by quarterly adjustments to the rate of charge and the rate of remuneration. Balances in the SCA-1 are to be distributed to the members that shared the cost of its financing when there are no outstanding overdue charges and repurchases, or at such earlier time as the IMF may decide. At January 31, 2002, the balances held in the SCA-1 amounted to SDR 1,284 million (SDR 1,190 million at January 31, 2001).

The cumulative charges, net of settlements, that have been deferred since May 1, 1986 and have resulted in adjustments to charges and remuneration, amounted to SDR 859 million at January 31, 2002 (SDR 822 million at January 31, 2001). The cumulative refunds for the same period, resulting from the settlements of deferred charges for which burden-sharing adjustments have been made, amounted to SDR 994 million (SDR 971 million at January 31, 2001).

#### 11. Borrowings

Under the General Arrangements to Borrow (GAB), the IMF may borrow up to SDR 18.5 billion when supplementary resources are needed, in particular, to forestall or to cope with an impairment of the international monetary system. The GAB became effective on October 24, 1962, and has been extended through December 25, 2003. Interest on borrowings under the GAB is calculated at the SDR interest rate.

Under the New Arrangements to Borrow (NAB), the IMF may borrow up to SDR 34 billion of supplementary resources. The NAB is the facility of first and principal recourse, but it does not replace the GAB, which will remain in force. Outstanding drawings and commitments under these two borrowing arrangements are limited to a combined total of SDR 34 billion. The NAB became effective for a five-year period on November 17, 1998 and was activated on December 2, 1998.

#### 12. Arrangements and Commitments in the General Department

An arrangement is a decision of the IMF that gives a member the assurance that the IMF stands ready to provide SDRs or usable currencies during a specified period and up to a specified amount, in accordance with the terms of the arrangement. At January 31, 2002, the undrawn balances under the 17 arrangements that were in effect in the GRA amounted to SDR 25,232 million (SDR 26,463 million under 24 arrangements at January 31, 2001).

The IMF has committed to lease commercial office space through 2005. Expenditures totaling SDR 45 million will be incurred over this five-year period.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 13. Administrative Expenses

The administrative expenses for the nine months ended January 31, 2002 and 2001 were as follows:

|   | 2002                | 2001       |  |
|---|---------------------|------------|--|
|   | In millions of SDRs |            |  |
| Personnel   | 257                 | 157        |  |
| Travel  | 52                  | 51         |  |
| Other   | 88                  | 74         |  |
| Less: reimbursements for the administration of the SDR Department | (2)                 | (3)        |  |
| Total administrative expenses,<br>net of reimbursements           | <u>395</u>          | <u>279</u> |  |

The majority of these expenses are incurred in U.S. dollars; exchange gains and losses incurred in the normal course of business are reflected in administrative expenses and are not significant.

The GRA is reimbursed for the cost of administering the SDR Department.

The GRA is to be reimbursed annually for expenses incurred in administering the SDA and the PRGF Trust. Following the establishment of the SRF and CCL and the consequent increase in net operational income, the Executive Board decided to forgo reimbursement of the expenses incurred in administering the PRGF Trust and to transfer the amounts that would otherwise have been reimbursed to the GRA from the PRGF Trust Reserve Account, through the SDA, to the PRGF-HIPC Trust.

#### 14. Pension and Other Post-Retirement Benefits

The IMF has established a defined-benefit Staff Retirement Plan (SRP) that covers substantially all eligible staff and a Supplemental Retirement Benefits Plan (SRBP) for selected participants of the SRP. Participants contribute a fixed percentage of their pensionable remuneration. The IMF contributes the remainder of the cost of funding the plans and pays certain administrative costs of the plans. In addition, the IMF provides other employment and post-retirement benefits, including medical and life insurance benefits. The IMF established a separate account, the Retired Staff Benefits Investment Account (RSBIA), where resources are held and invested to fund part of the cost of these other post-retirement benefits.

On March 23, 2001, the RSBIA was amended to include the funding and administration of all existing long-term benefits, other than pension benefits for regular staff, including separation and repatriation benefits, accrued annual leave up to 60 days, payments in lieu of pension for contractual employees, and associated tax allowances.

#### - 23 -

#### Notes to the Financial Statements as at January 31, 2002 and 2001

The obligations of the SRP, SRBP, and RSBIA are valued by independent actuaries every year using the Projected Unit Credit Method. The latest actuarial valuations were carried out as at April 30, 2001. The key assumptions used are as disclosed below. The present value of the defined benefit obligation and current service cost was calculated using the Projected Unit Credit Method.

Amounts recognized in the income statements are as follows:

|   | 2002         | 2001        |
|---|--------------|-------------|
|   | (in millions | of SDRs)    |
| Current service cost                                | 87           | 68          |
| Interest cost                                       | 140          | 138         |
| Expected return on assets                           | (222)        | (240)       |
| Net actuarial (gain)/loss                           | (1)          | (32)        |
| Total expense/(gain) recognized in income statement | 4            | <u>(66)</u> |

1/ Includes nonnegotiable, non-interest-bearing notes that members are entitled to issue in substitution for currencies, and outstanding currency valuation adjustments.

27 The Special Disbursement Account (SDA) of the General Department provides financing under Structural Adjustment Facility (SAF) and Poverty

Reduction Growth Facility (PRGF) arrangements.

3/ For information purposes only. The PRGF Trust provides financing under PRGF arrangements and is not a part of the General Department.

4/ Includes outstanding Trust Fund loans to Liberia (SDR 22.9 million), Somalia (SDR 6.5 million), and Sudan (SDR 59.2 million).

5/ Less than SDR 500.

| Reserve tranche positions 6/                     | 56,810,687  | 48,722,971  |
| Liquidity Ratio 7/                               | 114.5%      | 151.9%      |
| Memorandum Item                                  |             |             |
| Resources available under borrowing arrangements | 34,000,000  | 34,000,000  |

1/ Sundry assets, net of sundry liabilities, reflect current assets (charges, interest, and other receivables) and other assets (which include capital assets such as land, buildings, and equipment), net of sundry liabilities (remuneration payable and other liabilities).

2/ Resources regarded as non-usable in the financing of the IMF's ongoing operations and transactions are (1) gold holdings, (2) currencies of members that are using IMF credit, (3) currencies of other members with relatively weak external positions, and (4) sundry assets, net of sundry liabilities. 3/ Usable resources consist of (1) holdings of currencies of members considered by the IMF as having balance of payments and reserve positions sufficiently strong for their currencies to be used in transfers, (2) SDR holdings, and (3) any unused amounts under credit lines that have been activated. 4/ Amounts committed under arrangements, which reflect undrawn balances committed under operative Stand-By and Extended Arrangements, other than precautionary arrangements, are deducted from the total of usable resources, as are one-half of the amounts committed under precautionary arrangements. The Executive Board has decided that the minimum working balances be set at 10 percent of the quotas of members deemed sufficiently strong for their currencies to be used in operations.

5/ Net uncommitted usable resources are defined as usable resources less resources committed under arrangements and minimum working balances, as described above. The amount represents the resources available to meet requests for use of IMF credit under new credit arrangements and for members' use of their reserve positions in the IMF.

6/ Liquid liabilities consist of (1) members' reserve tranche positions, and (2) the amount of any outstanding borrowing by the IMF under the GAB or NAB. Both reserve tranche positions and outstanding lending under the GAB and NAB (together called members' reserve positions in the IMF) are part of members' international reserves. The IMF cannot challenge a request by a member to draw on its reserve position, and the IMF must therefore at all times be in a position to meet such requests.

7/ The liquidity ratio is a measure of the IMF's liquidity position, represented by the ratio of its net uncommitted usable resources to its liquid liabilities.

(In thousands of SDRs)

The accompanying notes are an integral part of these financial statements.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 1. Nature of Operations

The SDR is an international interest-bearing reserve asset created by the IMF following the First Amendment of the Articles of Agreement in 1969. All transactions and operations involving SDRs are conducted through the SDR Department. The SDR was created as a supplement to existing reserve assets and is allocated by the IMF to members participating in the SDR Department. Its value as a reserve asset derives, essentially, from the commitments of participants to hold and accept SDRs and to honor various obligations connected with its proper functioning as a reserve asset.

At January 31, 2002, all members of the IMF were participants in the SDR Department. SDRs have been allocated by the IMF to members that are participants in the SDR Department at the time of the allocation in proportion to their quotas in the IMF. Six allocations have been made (in 1970, 1971, 1972, 1979, 1980, and 1981) for a total of SDR 21.4 billion. A proposed amendment of the IMF's Articles of Agreement was approved by the Executive Board in January 1998 to allow for a special one-time allocation of SDRs equal to 21.4 billion. The amendment will enter into force after three-fifths of the members, having 85 percent of the total voting power, have accepted it. Upon termination of participation or liquidation of the SDR Department, the IMF will provide to holders the currencies received from the participants in settlement of their obligations. The IMF is empowered to prescribe certain official entities as holders of SDRs; at January 31, 2002 and 2001, 16 institutions were prescribed as holders. Prescribed holders do not receive allocations.

The SDR is also used by a number of international and regional organizations as a unit of account or as the basis for their units of account. Several international conventions also use the SDR as a unit of account, notably those expressing liability limits for the international transport of goods and services.

#### Uses of SDRs

Participants and prescribed holders can use and receive SDRs in transactions and operations by agreement among themselves. Participants can also use SDRs in operations and transactions involving the General Resources Account, such as the payment of charges and repurchases. The IMF ensures, by designating participants to provide freely usable currency in exchange for SDRs, that a participant can use its SDRs to obtain an equivalent amount of currency if it has a need because of its balance of payments, its reserve position, or developments in its reserves.

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### General Allocations and Cancellations of SDRs

The IMF has the authority to create unconditional liquidity through general allocations of SDRs to participants in the SDR Department in proportion to their quotas in the IMF. The IMF cannot allocate SDRs to itself or to other holders it prescribes. The Articles also provide for the cancellation of SDRs, although to date there have been no cancellations. In its decisions on general allocations of SDRs, the IMF, as prescribed under its Articles, has sought to meet the long-term global need to supplement existing reserve assets in such a manner as will promote the attainment of the IMF's purposes and will avoid economic stagnation and deflation, as well as excess demand and inflation.

#### 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The financial statements of the IMF are prepared in accordance with International Accounting Standards (IAS). Specific accounting principles and disclosure practices are explained further below. The preparation of financial statements in conformity with IAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

In financial year 2001, the IMF elected early adoption of IAS 39, *Financial Instruments: Recognition and Measurement*. The adoption of IAS 39 had no material effect on the SDR Department's financial statements.

#### Unit of Account

The financial statements are expressed in terms of SDRs. The value of the SDR is determined by the IMF each day by summing the values in U.S. dollars, based on market exchange rates, of the currencies in the SDR valuation basket. The IMF reviews the SDR valuation basket every five years. The latest review was completed in October 2000 and the new composition of the SDR valuation basket became effective on January 1, 2001. The value of the SDR in terms of U.S. dollars on the last business day prior to the change (December 29, 2000) was identical under both valuation baskets. The currencies in the basket as of January 31, 2002 and 2001 and their amounts were as follows:

## Notes to the Financial Statements as at January 31, 2002 and 2001

| Currency       | Amount |
|----------------|--------|
| Euro           | 0.426  |
| Japanese yen   | 21.0   |
| Pound sterling | 0.0984 |
| U.S. dollar    | 0.577  |

As of January 31, 2002, one SDR was equal to 1.24204 U.S. dollars (one SDR was equal to 1.29779 U.S. dollars as of January 31, 2001).

#### Allocations and Holdings

At January 31, 2002 and 2001, IMF net cumulative allocations to participants totaled SDR 21.4 billion. Participants with holdings in excess of their allocations have established a net claim on the SDR Department, which is represented on the balance sheet as a liability. Participants with holdings below their allocations have used part of their allocations, which results in a net obligation to the SDR Department and is presented as an asset of the SDR Department. Participants' net SDR positions as of January 31, 2002 and 2001 were as follows:

|   |                 | 2002           |                           |                            | 2001           |                    |

| Total holdings                   |   | <u>21,433.3</u>    | <u>21,433.3</u> |

#### Administrative Expenses

The expenses of conducting the business of the SDR Department are paid by the IMF from the General Resources Account, which is reimbursed in SDRs by the SDR Department at the end of each financial year. For this purpose, the SDR Department levies an assessment on all participants in proportion to their net cumulative allocations.

#### Interest and Charges

Interest is paid on holdings of SDRs. Charges are levied on each participant's cumulative allocations plus any negative balance or unpaid charges. Interest on SDR holdings is paid quarterly. Charges on net cumulative allocations are also collected quarterly. Interest and charges are levied at the same rate and are settled by crediting and debiting individual holdings accounts on the first day of the subsequent quarter. The SDR Department is required to pay interest to each holder, whether or not sufficient SDRs are received to meet the payment of interest. If sufficient SDRs are not received because charges are overdue, additional SDRs are temporarily created.

The rate of interest on the SDR is determined by reference to a combined market interest rate, which is a weighted average of yields or rates on short-term instruments in the capital markets of France, Germany, Japan, the United Kingdom, and the United States. The combined market interest rate used to determine the SDR interest rate is calculated each Friday, using the yields or rates of that day. The SDR interest rate, which is set equal to the combined market interest rate, enters into effect on the following Monday and applies through the following Sunday.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### **Overdue** Obligations

An allowance for losses resulting from overdue SDR obligations would be created if and when the IMF were to expect a loss to be incurred; no losses have been incurred in the past, and it is the current expectation that no losses will be incurred in the future, and consequently no allowance account has been established.

#### 3. Overdue Assessments and Charges

At January 31, 2002, assessments and charges amounting to SDR 106.7 million were overdue to the SDR Department (SDR 94.6 million at January 31, 2001). At January 31, 2002 and 2001, six members were six months or more overdue in meeting their financial obligations to the SDR Department. The Federal Republic of Yugoslavia (Serbia/Montenegro) notified the IMF in January 1993 that it agreed to its share in the assets and liabilities of the former Socialist Federal Republic of Yugoslavia (SFRY) in the IMF. On December 20, 2000, the IMF's Executive Board made a finding that the Federal Republic of Yugoslavia (Serbia/Montenegro) is able to fulfill its obligations under the Articles of Agreement and therefore succeeds to the membership in the IMF effective December 14, 1992. On December 20, 2000, the Federal Republic of Yugoslavia (Serbia/Montenegro) settled its overdue charges and assessments.

As of January 31, assessments and charges due from members that are six months or more overdue to the SDR Department were as follows:

|                                 | 2002        | 2001      |
|---------------------------------|-------------|-----------|

(In thousands of SDRs)

The accompanying notes are an integral part of these financial statements.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 1. Nature of Operations

The name of the Enhanced Structural Adjustment Facility Trust was changed to the Poverty Reduction and Growth Facility Trust ("PRGF Trust" or "the Trust") on November 22, 1999. The PRGF Trust, for which the IMF is Trustee, was established in December 1987 and was extended and enlarged in February 1994 to provide loans on concessional terms to qualifying low-income developing country members. The resources of the Trust are held separately from the assets of all other accounts of, or administered by, the IMF and may not be used to discharge liabilities or to meet losses incurred in the administration of other accounts.

The operations of the Trust are conducted through a Loan Account, a Reserve Account, and a Subsidy Account. Combining balance sheets and income statements and statements of changes in resources for each of these accounts are provided in Note 9 to these financial statements.

#### Loan Account

The resources of the Loan Account consist of the proceeds from borrowings, repayments of principal, and interest payments on loans extended by the Trust. At January 31, 2002, loans totaling SDR 5,971.6 million were outstanding (SDR 5,821.1 million at January 31, 2001).

#### **Reserve** Account

The resources of the Reserve Account consist of amounts transferred by the IMF from the Special Disbursement Account and net earnings from investment of resources held in the Reserve Account and in the Loan Account.

The resources held in the Reserve Account are to be used by the Trustee, in the event that amounts payable from borrowers' principal repayments and interest payments, together with the authorized interest subsidy, are insufficient to repay loan principal and interest on borrowings of the Loan Account.

#### Subsidy Account

The resources held in the Subsidy Account consist of donations to the Trust, including transfers of net earnings from PRGF Administered Accounts (formerly ESAF Administered Accounts), SDR 400 million transferred by the IMF from the Special Disbursement Account, net earnings on loans made to the Trust for the Subsidy Account, and the net earnings from investment of Subsidy Account resources.

The resources available in the Subsidy Account are drawn by the Trustee to pay the difference, with respect to each interest period, between the interest due from the borrowers under the Trust and the interest due on Loan Account borrowings.

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The financial statements of the PRGF Trust are prepared in accordance with International Accounting Standards (IAS). Specific accounting principles and disclosure practices are explained further below. The preparation of financial statements in conformity with IAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

In financial year 2001, the IMF elected early adoption of IAS 39, *Financial Instruments: Recognition and Measurement*. The adoption of IAS 39 had no material effect on the PRGF Trust's financial statements.

#### Revenue and Expense Recognition

The financial statements of the Trust are maintained on the accrual basis; accordingly, income is recognized as it is earned, and expenses are recorded as they are incurred.

#### Unit of Account

The financial statements are expressed in terms of SDRs. The value of the SDR is determined by the IMF each day by summing the values in U.S. dollars, based on market exchange rates, of the currencies in the SDR valuation basket. The IMF reviews the SDR valuation basket every five years. The latest review was completed in October 2000 and the new composition of the SDR valuation basket became effective on January 1, 2001. The value of the SDR in terms of U.S. dollars on the last business day prior to the change (December 29, 2000) was identical under both valuation baskets. The currencies in the basket as of January 31, 2002 and 2001 and their amounts were as follows:

| Currency       | Amount |
|----------------|--------|
| Euro           | 0.426  |
| Japanese yen   | 21.0   |
| Pound sterling | 0.0984 |
| U.S. dollar    | 0.577  |

As of January 31, 2002, one SDR was equal to 1.24204 U.S. dollars (one SDR was equal to 1.29779 dollars as of January 31, 2001).

#### - 59 -

#### **Poverty Reduction and Growth Facility Trust**

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### Cash and Cash Equivalents

Cash and cash equivalents include short-term deposits with a maturity of less than ninety days. These deposits are denominated in SDRs or other currencies and are carried at cost, not exceeding market value. Interest on these instruments varies and is based on prevailing market rates.

#### Investments

The resources of the Trust are invested pending their use. The Trust invests in debt securities and fixed-term deposits, either directly or by participation in an investment pool. Investments are marked to market on the last business day of the accounting period. Purchases are valued and reflected on the trade date basis and sales are based on the actual settlement date valuations. Investment income comprises interest income, realized and unrealized gains and losses, and currency valuation differences arising from exchange rate movements against the SDR.

Interest rate risk is managed by limiting the investment portfolio to a weighted-average effective duration that does not exceed three years. Currency risk is minimized by investing in securities denominated in SDRs or in the constituent currencies of the SDR basket. Risk is further minimized by ensuring that the currency composition of the investment portfolio matches, as closely as possible, the currency composition of the SDR basket.

#### Loans

Loans in the Trust are valued at historical cost. Allowances for loan losses would be established if and when the Trust expects to incur a loss; no losses have been incurred in the past, and it is the current expectation that no losses will be incurred in the future.

#### *Contributions*

Bilateral contributions are reflected as increases in resources after the achievement of specified conditions and are subject to bilateral agreements stipulating how the resources are to be used.

#### Transfers

Internal transfers of resources within the IMF are accounted for under the accrual method of accounting.

#### - 60 -

### **Poverty Reduction and Growth Facility Trust**

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### Foreign Currency Translation

Foreign currency transactions are recorded at the rate of exchange on the date of the transaction. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are reported using the closing exchange rates. Exchange differences arising from the settlement of transactions at rates different from those at the originating date of the transaction and unrealized foreign exchange differences on unsettled foreign currency monetary assets and liabilities are included in the determination of net income.

#### 3. Investments

The maturities of the investments are as follows:

| Maturity from January 31 | 2002             | 2001             |
|--------------------------|------------------|------------------|
|                          | In thousan       | ds of SDRs       |
| Less than 1 year         | 1,988,889        | 465,597          |
| 1-3 years                | 894,856          | 3,198,939        |
| 3-5 years                | -                | 218,375          |
| Over 5 years             | <u>31,952</u>    | 21,062           |
| Total                    | <u>2,915,697</u> | <u>3,903,973</u> |

At January 31, the investments consisted of the following:

|                     | 2002             | 2001             |
|---------------------|------------------|------------------|
|                     | In thousa        | nds of SDRs      |
| Debt securities     | 2,521,420        | 3,618,799        |
| Fixed-term deposits | 394,277          | 285,174          |
| Total               | <u>2,915,697</u> | <u>3,903,973</u> |

At January 31, investment income was comprised of the following:

|                                   | 2002           | 2001           |
|-----------------------------------|----------------|----------------|
|                                   | In thousand    | ds of SDRs     |
| Interest income                   | 166,671        | 181,722        |
| Realized gains (losses), net      | (13,765)       | (53,161)       |
| Unrealized gains (losses), net    | 50,331         | 89,881         |
| Exchange rate gains (losses), net | <u>(1,180)</u> | <u>(1,084)</u> |
| Total                             | <u>202,057</u> | <u>217,358</u> |

### **Poverty Reduction and Growth Facility Trust**

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### 4. Loans Receivable

Resources of the Loan Account are committed to qualifying members for a three-year period, upon approval by the Trustee of three-year arrangement in support of the member's macroeconomic and structural adjustment programs. Interest on the outstanding loan balances is currently set at the rate of ½of 1 percent per annum. Scheduled repayments of loans by borrowers are summarized below:

| Financial Year Ending April 30 |                      |
|--------------------------------|----------------------|
|                                | In thousands of SDRs |
|                                |                      |
| 2002                           | 128,554              |
| 2003                           | 722,241              |
| 2004                           | 834,998              |
| 2005                           | 876,190              |
| 2006                           | 857,453              |
| 2007 and beyond                | 2,522,841            |
| Overdue                        | 29,344               |
| Total                          | <u>5,971,621</u>     |
|                                |                      |

The above includes one member that is overdue as of January 31, 2002 for less than six months for an amount of SDR 29.3 million.

As of January 31, 2002 and 2001, use of credit in the Trust by the largest users was as follows:

|                               | 2002          | 2001                            |
|-------------------------------|---------------|---------------------------------|
|                               | v             | DRs and percent of<br>GF credit |
| Largest user of credit        | 636.2 10.6%   | 691.7 11.8%                     |
| Three largest users of credit | 1,450.1 24.3% | 1,506.3 25.9%                   |
| Five largest users of credit  | 2,003.5 33.5% | 1995.3 34.2%                    |

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 5. Borrowings

The following summarizes the borrowing agreements concluded as of January 31, 2002 and 2001:

|                 | Amount Ur            | Amount Undrawn |  |  |
|-----------------|----------------------|----------------|--|--|
|                 | 2002 2001            |                |  |  |
|                 | In thousands of SDRs |                |  |  |
| Loan Account    | 4,970,928            | 3,548,580      |  |  |
| Subsidy Account | 4,664                | 5,331          |  |  |

The Trustee has agreed to hold and invest, on behalf of a lender, principal repayments of Trust borrowing in a suspense account within the Loan Account. Principal repayments will be accumulated until the final maturity of the borrowing, when the full proceeds are to be transferred to the lender. Amounts deposited in this account are invested by the Trustee, and payments of interest to the lender are to be made exclusively from the earnings on the amounts invested.

The Trust borrows on such terms and conditions as agreed between the Trust and the lenders. Interest rates on borrowings at January 31, 2002 and January 31, 2001 varied between 0.5 percent and 4.0 percent a year. The principal amounts of the borrowings are repayable in one installment and their maturity dates.

Scheduled repayments of borrowings are summarized below:

| Financial Year Ending April 30 |                      |
|--------------------------------|----------------------|
|                                | In thousands of SDRs |
| 2003                           | 605,066              |
| 2004                           | 704,176              |
| 2005                           | 953,566              |
| 2006                           | 1,504,589            |
| 2007                           | 982,706              |
| 2008 and beyond                | <u>1,776,496</u>     |
| Total                          | <u>6,526,599</u>     |

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### 6. Contributions

The Trustee accepts contributions for the Subsidy Account on such terms and conditions as agreed between the Trust and the contributorS. At January 31, 2002, cumulative contributions received, including transfers from the Special Disbursement Account, amounted to SDR 2,343.8 million (SDR 2,232.2 million at January 31, 2001).

#### 7. Commitments Under Loan Arrangements

An arrangement is a decision of the IMF that gives a member the assurance that the PRGF Trust stands ready to provide foreign exchange or SDRs during a specified period and up to a specified amount in accordance with the terms of the decision. At January 31, 2002, undrawn balances under 36 loan arrangements amounted to SDR 2,757.2 million (SDR 1,848.1 million under 34 arrangements at January 31, 2001).

#### 8. Transfers Through the Special Disbursement Account

The expenses of conducting the business of the Trust are paid by the General Resources Account of the IMF and reimbursed by the Reserve Account of the Trust through the Special Disbursement Account; corresponding transfers are made from the Reserve Account to the Special Disbursement Account when and to the extent needed. For financial years 2002 and 2001, the Executive Board of the IMF decided to forgo such reimbursement to the General Department and to transfer an equivalent amount from the Reserve Account, through the Special Disbursement Account, to the PRGF-HIPC Trust. The amount transferred for the period ending January 31, 2002 was SDR 45.8 million. (SDR 42.5 million for the period ending January 31, 2001).

Resources of up to SDR 250 million may be transferred, as needed, from the Reserve Account through the Special Disbursement Account to the PRGF-HIPC Trust to be used to provide grants or loans to eligible members under the HIPC initiative. At January 31, 2002 and 2001, SDR 43.5 million had been transferred for this purpose.

#### 9. Combining Balance Sheets, Income Statements, and Statements of Resources

The balance sheets, income statements, and changes in resources for each of the accounts in the PRGF Trust are presented below:

# **Combining Balance Sheets** as at January 31, 2002 and 2001

|                                    | Loan A              | ccount    | <b>Reserve Account</b> |           | Subsidy Account     |                     | Combined              |                      |

1/ Since Structural Adjustment Facility (SAF) loans have been disbursed in connection with PRGF arrangements, the above list includes these loans, as well as loans disbursed to members under SAF arrangements. These loans are held by the Special Disbursement Account, and repayments of all SAF loans are transferred to the PRGF Reserve Account when received.

1/ The loans under this agreement are made at market-related rates of interest fixed at the time the loan was disbursed.

2/ The agreement with France made before the enlargement of PRGF (SDR 800 million) provides that the interest rate shall be 0.5 percent on the first SDR 700 million drawn, and for variable, market-related rates of interest thereafter. The agreement with France made for the enlargement of the PRGF (SDR 1.3 billion) provides that the interest rate shall be 0.5 percent until the cumulative implicit interest subsidy reaches SDR 250 million, and at variable, market-related rates of interest thereafter.

3/ The loans under these agreements are made at variable, market-related rates of interest.

4/ The agreement expired with an undrawn balance of SDR 3.6 million.

5/ The agreement with the OPEC Fund for International Development is for an amount of \$50 million.

6/ This amount represents principal repayments held and invested on behalf of a lender.

7/ The interest rate payable on the borrowing from Uruguay is equal to the rate on SDR-denominated deposits less 2.6 percent a year.

The accompanying notes are an integral part of these financial statements.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 1. Nature of Operations

The name of the Enhanced Structural Adjustment Facility Administered Accounts was changed to the Poverty Reduction and Growth Facility Administered Accounts ("the Administered Accounts" or "PRGF Administered Accounts") on November 22, 1999. At the request of certain member countries, the IMF established administered accounts for the benefit of the Subsidy Account of the Poverty Reduction and Growth Facility Trust (the PRGF Trust, formerly the Enhanced Structural Adjustment Facility Trust). The Administered Accounts comprise deposits made by contributors. The difference between interest earned by the Administered Accounts and the interest payable on deposits is transferred to the Subsidy Account of the PRGF Trust.

In addition to the PRGF Administered Accounts, the IMF also administers the Saudi Fund for Development (SFD) Special Account which was established at the request of the SFD to provide supplementary financing in association with loans under the Poverty Reduction and Growth Facility. Disbursements from the SFD Special Account are made simultaneously with PRGF disbursements. Payments of interest and principal due to the SFD under associated loans are to be transferred to the SFD.

The resources of each administered account are held separately from the assets of all other accounts of, or administered by, the IMF and may not be used to discharge liabilities or to meet losses incurred in the administration of other accounts.

#### 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The financial statements of the PRGF Administered Accounts are prepared in accordance with International Accounting Standards (IAS). Specific accounting principles and disclosure practices are explained further below. The preparation of financial statements in conformity with IAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

In financial year 2001, the IMF elected early adoption of IAS 39, *Financial Instruments: Recognition and Measurement*. The adoption of IAS 39 had no material effect on the PRGF Administered Accounts' financial statements.

# Notes to the Financial Statements as at January 31, 2002 and 2001

#### Revenue and Expense Recognition

The financial statements are maintained on the accrual basis; accordingly, income is recognized as it is earned and expenses are recorded as they are incurred.

#### Unit of Account

The financial statements are expressed in terms of SDRs. The value of the SDR is determined by the IMF each day by summing the values in U.S. dollars, based on market exchange rates, of the currencies in the SDR valuation basket. The IMF reviews the SDR valuation basket every five years. The latest review was completed in October 2000 and the new composition of the SDR valuation basket became effective on January 1, 2001. The value of the SDR in terms of U.S. dollars on the last business day prior to the change (December 29, 2000) was identical under both valuation baskets. The currencies in the basket as of January 31, 2002 and 2001 and their amounts were as follows:

| Currency       | Amount |
|----------------|--------|
| Euro           | 0.426  |
| Japanese yen   | 21.0   |
| Pound sterling | 0.0984 |
| U.S. dollar    | 0.577  |

As of January 31, 2002, one SDR was equal to 1.24204 U.S. dollars (1.29779 U.S. dollars as of January 31, 2001).

#### Cash and Cash Equivalents

Cash and cash equivalents include short term deposits with a maturity of less than ninety days. These deposits are denominated in SDRs or other currencies and are carried at cost not exceeding market value. Interest received on these instruments varies and is based on prevailing market rates.

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### Investments

The resources of the Administered Accounts are invested pending their use. Investments are made in debt securities and fixed deposits, either directly or by participation in an investment pool. Investments are marked to market value on the last business day of the accounting period. Purchases are valued and reflected on the trade date basis and sales are based on the actual settlement date valuations. Investment income comprises interest income, realized and unrealized gains and losses and currency valuation differences arising from exchange rate movements against the SDR.

Interest rate risk is managed by limiting the investment portfolio to a weightedaverage effective duration that does not exceed three years. Currency risk is minimized by investing in securities denominated in SDRs or in the constituent currencies of the SDR basket. Risk is further minimized by ensuring that the currency composition of the investment portfolio matches, as closely as possible, the currency composition of the SDR basket.

#### Transfers

Internal transfers of resources within the IMF are accounted for under the accrual method of accounting.

#### Foreign Currency Translation

Foreign currency transactions are recorded at the rate of exchange on the date of the transaction. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are reported using the closing exchange rates. Exchange differences arising from the settlement of transactions at rates different from those at the originating date of the transaction, and unrealized foreign exchange differences on unsettled foreign currency monetary assets and liabilities are included in the determination of net income.

#### Transfers to PRGF Subsidy Account

The difference between the income earned by the PRGF Administered Accounts on investments and the interest payable on the deposits, net of any cost, is to be transferred to the Subsidy Account of the PRGF Trust.

#### Administrative Costs

The expenses of conducting the activities of the Administered Accounts are incurred and borne by the General Department of the IMF.

# Notes to the Financial Statements as at January 31, 2002 and 2001

#### 3. Investments

The maturities of the administered accounts' investments are as follows:

| Maturity as at January 31 | 2002           | 2001           |
|---------------------------|----------------|----------------|
|                           | in thousa      | nds of SDRs    |
| Less than 1 year          | 169,314        | 115,250        |
| 1-3 years                 | 16,911         | 86,149         |
| 3-5 years                 |                | 2,993          |
| Over 5 years              |                | 179            |
| Total                     | <u>186,225</u> | <u>204,571</u> |

At January 31, investments consisted of the following:

|                     | 2002           | 2001           |
|---------------------|----------------|----------------|
|                     | in thousar     | nds of SDRs    |
| Debt securities     | 81,225         | 99,102         |
| Fixed-term deposits | 105,000        | <u>105,469</u> |
| Total               | <u>186,225</u> | 204,571        |

At January 31, investment income is comprised of:

|                                | 2002           | 2001          |
|--------------------------------|----------------|---------------|
|                                | In thousand.   | s of SDRs     |
| Interest income                | 5,617          | 13,041        |
| Realized gains (losses), net   | 2,069          | (715)         |
| Unrealized gains (losses), net | <u>(1,308)</u> | 1,405         |
| Total                          | <u>6,378</u>   | <u>13,731</u> |

#### 4. Deposits

#### Administered Account – Austria

The Administered Account Austria was established on December 27, 1988 for the administration of resources deposited in the account by the Austrian National Bank. Two deposits (one of SDR 60.0 million made on December 30, 1988 and one of SDR 50.0 million made on August 10, 1995) are to be repaid in ten equal semiannual installments beginning five and a half years after the date of each deposit and ending at the end of the tenth year after the date of each deposits bear interest at a rate of ½of 1 percent a year. The first deposit from Austria had been repaid in full.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### Administered Account – Belgium

The Administered Account Belgium was established on July 27, 1988 for the administration of resources deposited in the account by the National Bank of Belgium. Four deposits (SDR 30.0 million made on July 29, 1988; SDR 35.0 million made on December 30, 1988; SDR 35.0 million made on June 30, 1989; and SDR 80.0 million made on April 29, 1994) have an initial maturity of six months and are renewable by the IMF on the same basis. The final maturity of each deposit, including renewals, will be ten years from the initial dates of the individual deposits. The deposits bear interest at a rate of <sup>1</sup>/<sub>2</sub> of 1 percent a year. In accordance with an addendum to the account, effective on July 24, 1998, the maturities of the first three deposits will be extended by the National Bank of Belgium, for further periods of six months, provided that the total maturity period of each deposit does not exceed five years. The deposits are invested by the IMF, and the IMF pays the National Bank of Belgium interest on each deposit at an annual rate of ½of 1 percent. The difference between the interest paid to the National Bank of Belgium and the interest earned on the deposits (net of any cost to the IMF) was retained in the account and invested. As of January 31, 2001, the Ministry of Finance of Belgium authorized a transfer of SDR 8.2 million in net earnings to the PRGF-HIPC Trust. The first three deposits, totaling SDR 100 million, were paid in full as of August 31, 2001.

#### Administered Account – Botswana

The Administered Account Botswana was established on July 1, 1994 for the administration of resources deposited in the account by the Bank of Botswana. The deposit, totaling SDR 6.9 million, is to be repaid in one installment ten years after the date of deposit. The deposit bears interest at a rate of 2 percent a year.

#### Administered Account – Greece

The Administered Account Greece was established on November 30, 1988 for the administration of resources deposited in the account by the Bank of Greece. Two deposits of SDR 35.0 million each (December 15, 1988 and April 29, 1994) are to be repaid in ten equal semiannual installments beginning five and a half years after the date of deposit and will be completed at the end of the tenth year after the date of the deposits. The deposits bear interest at a rate of ½of 1 percent a year. The first deposit from Greece has been repaid in full.

#### Administered Account – Indonesia

The Administered Account Indonesia was established on June 30, 1994 for the administration of resources deposited in the account by the Bank of Indonesia. The deposit, totaling SDR 25.0 million, is to be repaid in one installment ten years after the date the

# Notes to the Financial Statements as at January 31, 2002 and 2001

deposit was made. The interest payable on the deposit is equivalent to that obtained for the investment of the deposit less 2 percent a year.

#### Administered Account – Iran

The Administered Account Islamic Republic of Iran was established on June 6, 1994 for the administration of resources deposited in the account by the Central Bank of the Islamic Republic of Iran (CBIRI). The CBIRI has made five annual deposits, each of SDR 1.0 million. All of the deposits will be repaid at the end of ten years after the date of the first deposit. Each deposit bears interest at a rate of ½of 1 percent a year.

#### Administered Account – Portugal

The Administered Account Portugal was established on May 16, 1994 for the administration of resources deposited in the account by the Banco de Portugal (BdP). The BdP has made six annual deposits, each of SDR 2.2 million. Each deposit is to be repaid in five equal annual installments beginning six years after the date of the deposit and will be completed at the end of the tenth year after the date of the deposit. Each deposit bears interest at a rate of ½of 1 percent a year.

#### 5. Associated Loans Under the Saudi Fund for Development Special Account

The SFD has provided additional resources to support arrangements under the PRGF. Funds become available under an associated loan after a bilateral agreement between the SFD and the recipient country has been effected. Amounts denominated in SDRs, for disbursement to a recipient country under an associated loan, are placed by the SFD in the Saudi Fund for Development Special Account for disbursement by the IMF simultaneously with disbursements under PRGF arrangement. These loans are repayable in ten equal semiannual installments commencing not later than the end of the first six months of the sixth year, and are to be completed at the end of the tenth year after the date of disbursement. Interest on the outstanding balance is currently set at a rate of ½of 1 percent a year.

The receipts and uses of resources for the Saudi Fund for Development Special Account as of January 31 were as follows:

The accompanying notes are an integral part of these financial statements.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 1. Nature of Operations

The PRGF-HIPC Trust and Related Accounts comprise the PRGF-HIPC Trust Account, the Umbrella Account for HIPC Operations, and the Post-SCA-2 Administered Account. The PRGF-HIPC Trust Account comprises three subaccounts: the PRGF-HIPC, PRGF, and HIPC subaccounts. Combining balance sheets and income statements and changes in resources for each of these accounts are provided in Note 6. Transactions between the above accounts are eliminated on combination in the combined balance sheets and combined income statements and changes in resources.

#### PRGF-HIPC Trust (formerly the ESAF-HIPC Trust)

The name of the Trust for Special ESAF Operations for the Heavily Indebted Poor Countries and for Interim ESAF Subsidy Operations was changed to the Trust for Special PRGF Operations for the Heavily Indebted Poor Countries and for Interim PRGF Subsidy Operations (the "PRGF-HIPC Trust") on November 22, 1999. The PRGF-HIPC Trust, for which the IMF is trustee, was established on February 4, 1997 to provide balance of payments assistance to low-income developing members by making grants or loans to eligible members for the purpose of reducing their external debt burden and for interim PRGF subsidy purposes. The resources of the PRGF-HIPC Trust are held separately from the assets of all other accounts of, or administered by, the IMF and may not be used to discharge liabilities or to meet losses incurred in the administration of other accounts.

The operations of the PRGF-HIPC Trust are conducted through the PRGF-HIPC Trust Account and the Umbrella Account for HIPC Operations.

#### PRGF-HIPC Trust Account (formerly the ESAF-HIPC Trust Account)

The resources of the PRGF-HIPC Trust Account consist of grant contributions, borrowings, and other types of investments made by contributors; amounts transferred by the IMF from the Special Disbursement Account or through the General Resources Account; and net earnings from investment of resources held in the PRGF-HIPC Trust Account.

The PRGF-HIPC subaccount holds resources that can finance either HIPC operations or interim PRGF subsidy operations; the PRGF subaccount holds resources earmarked for interim PRGF subsidy operations, while the HIPC subaccount holds resources earmarked for HIPC operations. PRGF-HIPC subaccount resources used to finance HIPC operations through the HIPC subaccount are repayable to the PRGF-HIPC subaccount and bear interest at a rate equal to the average return on investments in the Special Disbursement Account.

The resources held in the PRGF-HIPC Trust Account are to be used by the trustee to make grants or loans to eligible members that qualify for assistance under the HIPC Initiative and for subsidizing the interest rate on interim PRGF operations to PRGF-eligible members.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### Umbrella Account for HIPC Operations

The Umbrella Account for HIPC Operations ("the Umbrella Account") receives and administers the proceeds of grants or loans made to eligible members that qualify for assistance under the terms of the PRGF-HIPC Trust. Within the Umbrella Account, resources received are administered through the establishment of subaccounts for each eligible member upon the approval of disbursements under the PRGF-HIPC Trust.

The resources of a subaccount of the Umbrella Account consist of (1) amounts disbursed from the PRGF-HIPC Trust Account as grants or loans for the benefit of a member, and (2) net earnings from investment of the resources held in the subaccount.

The resources held in a subaccount of the Umbrella Account are to be used to meet the member's debt obligations to the IMF in accordance with the schedule agreed upon by the trustee and the member for the use of the proceeds of the PRGF-HIPC Trust disbursements.

#### Post-SCA-2 Administered Account

The Post-SCA-2 Administered Account, which is administered by the IMF on behalf of members, was established on December 8, 1999 for the temporary administration of resources transferred by members following the termination of the second Special Contingent Account (SCA-2), prior to the final disposition of those resources.

Resources received from a member's cumulative SCA-2 contributions, together with the member's pro rata share of investment returns, shall be transferred to the PRGF-HIPC Trust or to the member, in accordance with the member's instructions. The assets held in the Post-SCA-2 Administered Account are held separately from the assets and property of all other accounts of, or administered by, the IMF and may not be used to discharge liabilities or to meet losses incurred in the administration of other accounts.

#### 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The financial statements of the IMF are prepared in accordance with International Accounting Standards (IAS). Specific accounting principles and disclosure practices are explained further below. The preparation of financial statements in conformity with IAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclose contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

In financial year 2001, the IMF elected early adoption of IAS 39, *Financial Instruments: Recognition and Measurement*. The adoption of IAS 39 had no material effect on the PRGF-HIPC Trust and Related Accounts' financial statements.

#### - 91 -

#### **PRGF-HIPC Trust and Related Accounts**

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### Revenue and Expense Recognition

The financial statements are prepared on the accrual basis; accordingly, income is recognized as it is earned, and expenses are recorded as they are incurred.

#### Unit of Account

The financial statements are expressed in terms of SDRs. The value of the SDR is determined by the IMF each day by summing the values in U.S. dollars, based on market exchange rates, of the currencies in the SDR valuation basket. The IMF reviews the SDR valuation basket every five years. The latest review was completed in October 2000 and the new composition of the SDR valuation basket became effective from January 1, 2001. The value of the SDR in terms of U.S. dollars on the last business day prior to the change (December 29, 2000) was identical under both valuation baskets. The currencies in the basket as of January 31, 2002 and 2001 and their amounts were as follows:

| Currency       | Amount |
|----------------|--------|
| Euro           | 0.426  |
| Japanese yen   | 21.0   |
| Pound sterling | 0.0984 |
| U.S. dollar    | 0.577  |

As of January 31, 2002, one SDR was equal to 1.24204 U.S. dollars (one SDR was equal to 1.29779 U.S. dollars as of January 31, 2001).

#### Cash and Cash Equivalents

Cash and cash equivalents include short-term deposits with a maturity of less than ninety days. These deposits are denominated in SDRs or other currencies and are carried at cost not exceeding market value. Interest received on these instruments varies and is based on prevailing market rates.

#### Investments

The resources of the Trust are invested pending their use. The Trust invests in debt securities, either directly or by participation in an investment pool. Investments are valued at their market value on the last business day of the accounting period. Purchases are valued and reflected on the trade date basis and sales are based on the actual settlement date valuations. Investment income comprises interest income, realized and unrealized gains and losses, and currency valuation differences arising from exchange rate movements against the SDR.

Interest rate risk is managed by limiting the investment portfolio to a weightedaverage effective duration that does not exceed three years. Currency risk is minimized by

#### Notes to the Financial Statements as at January 31, 2002 and 2001

investing in securities denominated in SDRs or in the constituent currencies of the SDR basket. Regular portfolio rebalancing to ensure that the currency composition of the investment portfolio matches, as closely as possible, the currency composition of the SDR basket, further minimizes risk.

#### *Contributions*

Bilateral contributions are reflected as increases in resources after the achievement of specified conditions and are subject to bilateral agreements stipulating how the resources are to be used.

#### Transfers

Internal transfers of resources within the IMF are accounted for under the accrual method of accounting.

#### Foreign Currency Translation

Foreign currency transactions are recorded at the rate of exchange on the date of the transaction. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are reported using the closing exchange rates. Exchange differences arising from the settlement of transactions at rates different from those at the originating date of the transaction and unrealized foreign exchange differences on unsettled foreign currency monetary assets and liabilities are included in the determination of net income.

#### Administrative Costs

The expenses of conducting activities of the Trust and related accounts are incurred and borne by the General Department of the IMF.

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 3. Investments

The maturities of the investments in debt securities are as follows:

| Maturity as at January 31 | 2002            | 2001           |
|---------------------------|-----------------|----------------|
|                           | In thousands of | of SDRs        |
| Less than 1 year          | 170,963         | 529,723        |
| 1 - 3 years               | 74,722          | 211,954        |
| 3 - 5 years               |                 | 7,364          |

| Exchange rate gains (losses), net | 81            | (18)          |
| Total                             | <u>42,752</u> | <u>48,766</u> |

#### - 93 -

#### Notes to the Financial Statements as at January 31, 2002 and 2001

#### 4. Transfers Receivable and Payable

At January 31, 2002, the HIPC subaccount had transfers payable to the PRGF-HIPC subaccount arising from past disbursements to the Umbrella Account under the HIPC Initiative in the amount of SDR 384.8 million, including interest (SDR 209.5 million at January 31, 2001). Interest payable between subaccounts is eliminated on combination.

#### 5. Borrowings

The Trust borrows on such terms and conditions as agreed between the Trust and the lenders. Interest rates on borrowings at 2002 and 2001 varied between 0 percent and 2 percent a year. The principal amounts of the borrowings are repayable in one installment at their maturity dates. Scheduled repayments of borrowings are summarized below:

| Period Ending<br>January 31      |                                  |
|----------------------------------|----------------------------------|

The accompanying notes are an integral part of these financial statements.

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### 1. Nature of Operations

At the request of members, the IMF has established special purpose accounts to administer contributed resources and to perform financial and technical services consistent with the purposes of the IMF. The assets of each account and each subaccount are separate from the assets of all other accounts of, or administered by, the IMF and are not to be used to discharge liabilities or to meet losses incurred in the administration of other accounts.

#### Administered Account Japan

At the request of Japan, the IMF established an account on March 3, 1989 to administer resources, made available by Japan or other countries with Japan's concurrence, that are to be used to assist certain members with overdue obligations to the IMF. The resources of the account are to be disbursed in amounts specified by Japan and to members designated by Japan.

#### Administered Account for Selected Fund Activities - Japan

At the request of Japan, the IMF established the Administered Technical Assistance Account - Japan on March 19, 1990 to administer resources contributed by Japan to finance technical assistance to member countries. On July 21, 1997, the account was renamed the Administered Account for Selected Fund Activities - Japan and amended to include the administration of resources contributed by Japan in support of the IMF's Regional Office for Asia and the Pacific (OAP). The resources of the account designated for technical assistance activities are used with the approval of Japan and include the provision of scholarships. The resources designated for the OAP are used as agreed between Japan and the IMF for certain activities of the IMF with respect to Asia and the Pacific through the OAP. Disbursements can also be made from the account to the General Resources Account to reimburse the IMF for qualifying technical assistance projects and OAP expenses.

## Framework Administered Account for Technical Assistance Activities

The Framework Administered Account for Technical Assistance Activities ("the Framework Account") was established by the IMF on April 3, 1995 to receive and administer contributed resources that are to be used to finance technical assistance consistent with the purposes of the IMF. The financing of technical assistance activities is implemented through the establishment and operation of subaccounts within the Framework Account.

Resources are to be used in accordance with the written understandings between the contributor and the Managing Director. Disbursements can also be made from the Framework Account to the General Resources Account to reimburse the IMF for its costs incurred on behalf of technical assistance activities financed by resources from the Framework Account.

## - 112 -

## **Other Administered Accounts**

# Notes to the Financial Statements as at January 31, 2002 and 2001

## Subaccount for Japan Advanced Scholarship Program

At the request of Japan, this subaccount was established on June 6, 1995 to finance the cost of studies and training of nationals of member countries in macroeconomics and related subjects at selected universities and institutions. The scholarship program focuses primarily on the training of nationals of Asian member countries, including Japan.

## Rwanda-Macroeconomic Management Capacity Subaccount

At the request of Rwanda, this subaccount was established on December 20, 1995 to finance technical assistance to rehabilitate and strengthen Rwanda's macroeconomic management capacity.

## Australia-IMF Scholarship Program for Asia Subaccount

At the request of Australia, this subaccount was established on June 5, 1996 to finance the cost of studies and training of government and central bank officials in macroeconomic management so as to enable them to contribute to their countries' achievement of sustainable economic growth and development. The program focuses primarily on the training of nationals of Asian countries.

## Switzerland Technical Assistance Subaccount

At the request of Switzerland, this subaccount was established on August 27, 1996 to finance the costs of technical assistance activities of the IMF that consist of policy advice and training in macroeconomic management.

## French Technical Assistance Subaccount

At the request of France, this subaccount was established on September 30, 1996 to cofinance the costs of training in economic fields for nationals of certain member countries.

## Denmark Technical Assistance Subaccount

At the request of Denmark, this subaccount was established on August 25, 1998 to finance the costs of technical assistance activities of the IMF that consist of advising on policy and administrative reforms in the fiscal, monetary, and related statistical fields.

## - 113 -

## **Other Administered Accounts**

## Notes to the Financial Statements as at January 31, 2002 and 2001

## Australia Technical Assistance Subaccount

At the request of Australia, this subaccount was established on March 7, 2000 to finance the costs of technical assistance activities of the IMF that consist of advising on the design of policy and administrative reforms in the fiscal, monetary and related statistical fields, as well as to provide training in the formulation and implementation of macroeconomic and financial policies.

## The Netherlands Technical Assistance Subaccount

At the request of the Netherlands, this subaccount was established on July 27, 2000 to finance projects that seek to enhance the capacity of the members to formulate and implement policies in the macroeconomic, fiscal, monetary, financial, and related statistical fields, including training programs and projects that strengthen the legal and administrative framework in these core areas.

# The United Kingdom Department for International Development (DFID) Technical Assistance Subaccount

At the request of the United Kingdom, this subaccount was established on June 22, 2001 to finance projects that seek to enhance the capacity of the members to formulate and implement policies in the macroeconomic, fiscal, monetary, financial, and related statistical fields, including training programs and projects that strengthen the legal and administrative framework in these core areas.

## Italy Technical Assistance Subaccount

At the request of Italy, this subaccount was established on November 16, 2001 to finance projects that seek to enhance the capacity of certain members to formulate and implement policies related to fiscal, financial, and statistical standards and codes, including training programs and projects that strengthen the legal and administrative framework in these core areas.

## Administered Account – Spain

At the request of Spain, the IMF established an account on March 20, 2001 to receive and disburse resources up to \$1 billion contributed by Spain for Argentina. The resources of this account are to be used to assist Argentina in the implementation of the adjustment program supported by the IMF under the Stand-By Arrangement for Argentina approved on March 10, 2000 and augmented on January 12, 2001.

# Notes to the Financial Statements as at January 31, 2002 and 2001

## The Post-Conflict Emergency Assistance Subsidy Account for PRGF-Eligible Members

The Post-Conflict Emergency Assistance Subsidy Account for PRGF-Eligible Members was established in May 2001 to administer contributed resources for the purpose of providing assistance to PRGF-eligible members in support of their adjustment efforts. Contributions to the account will be used to provide grants to PRGF-eligible members that have made post-conflict emergency assistance purchases under the IMF General Resources Account, effectively subsidizing the basic rate of charge on these purchases to 0.5 percent per annum. The Subsidy to each eligible member would be prorated if resources are insufficient to reduce the basic rate of charge to 0.5 percent.

## **Trust Fund**

In addition to the aforementioned accounts, the IMF is also the trustee of the Trust Fund, which is in liquidation. The Trust Fund was established in 1976 to provide balance of payments assistance on concessional terms to eligible members that qualify for assistance.

In 1980, the IMF, as trustee, decided that, upon the completion of the final loan disbursements, the Trust Fund would be terminated as of April 30, 1981, and after that date, the activities of the Trust Fund have been confined to the conclusion of its affairs. The final Trust Loan settlement was due on March 31, 1991. As of January 31, 2002 and 2001, the Trust Fund had no assets other than loans receivable of SDR 88.6 million and SDR 88.8 million, respectively. Interest continues to be charged on the outstanding balances, all of which are overdue, and all interest recognition is deferred. Cash receipts on these loans are to be transferred to the Special Disbursement Account.

#### Loans

Loans in the Trust Fund are valued at historical cost. Allowances for loan losses would be established if and when the Trust expects to incur a loss; no losses have been incurred in the past, and it is the current expectation that no losses will be incurred in the future.

An overdue member would have to become current in the IMF and in the Trust Fund before access to credit could be restored and consequently no loss is expected on the loans. The member's resources or other resources would be used to reimburse the Trust Fund.

## - 115 -

## **Other Administered Accounts**

# Notes to the Financial Statements as at January 31, 2002 and 2001

## Deferred Income

Interest income and special charges (apply to overdue repayments and overdue charges that are less than six months) on outstanding Trust Fund loans in arrears for six months or more are being deferred and are recognized as income only when paid.

## **Overdue** Obligations

At January 31, 2002 and 2001, three members with obligations to the Trust Fund were six months or more overdue in discharging their obligations to the Trust Fund. The recognition of interest income on the loans outstanding to these members and of special charges due from them is being deferred. At January 31, 2002, total deferred income amounted to SDR 27.6 million (SDR 27.1 million at January 31, 2001). Overdue loan repayments and interest and special charges due from these members as at January 31, 2002 and 2001 were as follows:

|                             | Loan | S             | Interest<br>Special Cl |      |
|-----------------------------|------|---------------|------------------------|------|
|                             | 2002 | 2001          | 2002                   | 2001 |
|                             |      | In millions o | of SDRs                |      |
| Total overdue               | 88.6 | 88.8          | 27.6                   | 27.1 |
| Overdue six months or more  | 88.6 | 88.8          | 27.4                   | 26.9 |
| Overdue three years or more | 88.6 | 88.8          | 26.3                   | 25.8 |

The type and duration of the arrears of these members at January 31, 2002 were as follows:

| Membe                       | er Loans                   | Interest<br>and Special<br>Charges | Total                      | Longest Overdue<br>Obligation       |
|-----------------------------|----------------------------|------------------------------------|----------------------------|-------------------------------------|
|                             | In                         | n millions of SD                   | Rs                         |                                     |
| Liberia<br>Somalia<br>Sudan | 22.9<br>6.5<br><u>59.2</u> | 1.4                                | 30.0<br>7.9<br><u>78.3</u> | June 1985<br>July 1987<br>June 1985 |
| Total                       | 88.6                       | 27.6                               | 116.2                      |                                     |

### - 116 -

## **Other Administered Accounts**

## Notes to the Financial Statements as at January 31, 2002 and 2001

## Transfer of Resources

Since the activities of the Trust are limited to the conclusion of its affairs, the resources of the Trust Fund from the settlement of the overdue obligations will be transferred to the Special Disbursement Account.

## Supplementary Financing Facility Subsidy Account

The Supplementary Financing Facility Subsidy Account administered by the IMF was established in December 1980 to assist low-income developing country members to meet the costs of using resources made available through the IMF's Supplementary Financing Facility and under the policy on exceptional use. All repurchases due under these policies were scheduled for completion by January 31, 1991, and the final subsidy payments were approved in July 1991. However, two members (Liberia and Sudan), overdue in the payment of charges, remain eligible to receive previously approved subsidy payments of SDR 2.2 million when their overdue charges are settled. Accordingly, the Account remains in operation and has retained amounts for payment to these members after the overdue charges are paid.

### 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The financial statements of the Other Administered Accounts are prepared in accordance with International Accounting Standards (IAS). Specific accounting principles and disclosure practices are explained further below.

The preparation of financial statements in conformity with IAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

In financial year 2001, the IMF elected early adoption of IAS 39, Financial Instruments: Recognition and Measurement. The adoption of IAS 39 had no material effect on the other Administered Accounts' financial statements.

#### - 117 -

## **Other Administered Accounts**

## Notes to the Financial Statements as at January 31, 2002 and 2001

## Unit of Account

Administered Account Japan, Administered Account for Selected Fund Activities - Japan, and Framework Administered Account for Technical Assistance Activities, and Administered Account – Spain

These accounts are expressed in U.S. dollars. All transactions and operations of these accounts, including the transfers to and from the accounts, are denominated in U.S. dollars, except for transactions and operations in respect of the OAP, which are denominated in Japanese yen, or transactions in other currencies as agreed between Japan and the IMF. Contributions denominated in other currencies are converted into U.S. dollars upon receipt of the funds.

# The Post-Conflict Emergency Assistance Subsidy Account for PRGF-Eligible Members, Trust Fund, and the Supplementary Financing Facility Subsidy Account

These accounts are expressed in terms of SDRs. The value of the SDR is determined by the IMF each day by summing the values in U.S. dollars, based on market exchange rates, of the currencies in the basket. The IMF reviews the SDR valuation basket every five years. The latest review was completed in October 2000 and the composition of the SDR valuation basket became effective from January 1, 2001. The value of the SDR in terms of U.S. dollars on the last business day prior to the change (December 29, 2000) was identical under both valuation baskets. The method of valuing the SDR has been revised following the introduction of the euro as the common currency of a number of members. The currencies in the basket as of January 31, 2002 and 2001 and their amounts were as follows:

|                | Amount           |
|----------------|------------------|
| Currency       | January 31, 2002 |
| Euro           | 0.426            |
| Japanese yen   | 21.0             |
| Pound sterling | 0.0984           |
| U.S. dollar    | 0.577            |

As of January 31, 2002, one SDR was equal to 1.24204 U.S. dollars (one SDR was equal to 1.29779 U.S. dollars as of January 31, 2001).

Transactions and operations of the accounts are denominated in SDRs. Contributions denominated in other currencies are converted into SDRs upon receipt of the funds.

## - 118 -

## **Other Administered Accounts**

## Notes to the Financial Statements as at January 31, 2002 and 2001

## Revenue and Expense Recognition

The accounts are maintained on the accrual basis; accordingly, income is recognized as it is earned and expenses are recorded as they are incurred.

## Cash and Cash Equivalents

Cash and cash equivalents include short-term deposits with a maturity of less than ninety days. These deposits are denominated in SDRs or other currencies and are carried at cost not exceeding market value. Interest on these instruments varies and is based on prevailing market rates.

## *Contributions*

Bilateral contributions are reflected as increases in resources after the achievement of specified conditions and are subject to bilateral agreements stipulating how the resources are to be used.

## Payments to and on behalf of beneficiaries

Payments to and on behalf of beneficiaries are recognized when the specified conditions in the respective agreements are achieved.

## Transfers

Internal transfers of resources within the IMF are accounted for under the accrual method of accounting.

## Foreign Currency Translation

Foreign currency transactions are recorded at the rate of exchange on the date of the transaction. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are reported using the closing exchange rates. Exchange differences arising from the settlement of transaction at rates different from those at the date of the transaction and unrealized foreign exchange differences on unsettled foreign currency monetary assets and liabilities are included in the determination of net income.

## - 119 -

## **Other Administered Accounts**

# Notes to the Financial Statements as at January 31, 2002 and 2001

#### Administrative Expenses

The expenses of conducting the activities of the Other Administered Accounts and the Trust Fund are incurred and borne by the General Department of the IMF. To help defray the expenses incurred by the IMF in the administration of the Administered Account for Selected Fund Activities – Japan and the Framework Administered Account for Technical Assistance Activities, reimbursement equal to 13 percent of the expenses financed from the accounts is paid to the IMF from these accounts. The Administered Account - Spain pays the IMF, from investment earnings, an annual fee of \$40,000 for administrative costs incurred. As at January 31, 2002 the administrative costs for Administered Account for Selected Fund Activities – Japan amounted to \$1.6 million (\$1.4 million at January 31, 2001), and for Framework Administered Account for Technical Assistance Activities \$0.4 million (\$0.4 million at January 31, 2001). These amounts are included in payments to and on behalf of beneficiaries on the income statements and changes in resources.

#### *Comparatives*

When necessary, comparative figures have been reclassified to conform with changes in the presentation of the current year.

#### 3. Cumulative Contributions and Disbursements

The cumulative contributions to and disbursements from these administered accounts are as follows:

|  | January 31, 2002              |  | January 31, 2001            |  |  |  |

<sup>1</sup> Disbursements had been made from resources contributed to these accounts as well as from interest earned on these resources.

## 4. Transfer of Resources

Resources of the Supplementary Financing Facility Subsidy Account in excess of the remaining subsidy payments are to be transferred to the Special Disbursement Account. At January 31, 2002 and 2001, subsidy payments totaling SDR 2.2 million had not been made to Liberia and Sudan and were being held pending the payment of overdue charges by these members.

## **Other Administered Accounts**

## Notes to the Financial Statements as at January 31, 2002 and 2001

## 5. Accounts Termination

#### Administered Account Japan

The account can be terminated by the IMF or by Japan. Any remaining resources in the account at termination are to be returned to Japan.

#### Administered Account for Selected Fund Activities - Japan

The account can be terminated by the IMF or by Japan. Any resources that may remain in the account at termination, net of accrued liabilities under technical assistance projects or in respect of the OAP, are to be returned to Japan.

#### Framework Administered Account for Technical Assistance Activities

The Framework Account or any subaccount thereof may be terminated by the IMF at any time. The termination of the Framework Account shall terminate each subaccount thereof. A subaccount may also be terminated by the contributor of the resources to the subaccount. Termination shall be effective on the date that the IMF or the contributor, as the case may be, receives notice of termination. Any balances, net of the continuing liabilities and commitments under the activities financed, that may remain in a subaccount upon its termination are to be returned to the contributor.

#### Administered Account - Spain

The account will be terminated when Argentina repays all the resources that were distributed, or at an earlier time as agreed between Spain and the IMF. Any remaining resources in the account at termination are to be returned to Spain.

#### The Post-Conflict Emergency Assistance Subsidy Account for PRGF-Eligible Members

The account can be terminated by the IMF at any time. Any balances after discharge of all obligations of the account remaining in the account upon its termination are to be returned to the contributors.

The accompanying notes are an integral part of these financial statements.

## Notes to the Financial Statements as at January 31, 2002 and 2001

#### 1. Purpose

The Retired Staff Benefits Investment Account ("the RSBIA") was established to hold, administer, and invest resources contributed by the IMF for meeting postretirement medical and life insurance benefits to eligible retirees of the IMF and other beneficiaries. The RSBIA accumulates resources to finance benefits of current and future retirees.

The assets of the RSBIA consist of IMF contributions and the income earned thereon. Assets are owned solely by the IMF and are to be used to meet the claims of retirees and the administrative costs of the RSBIA. Contributions are made periodically from the General Resources Account to the RSBIA, taking into consideration the actuarial valuation of the IMF's cumulative cost of these benefits. Cumulative contributions received by the RSBIA amounted to \$316.8 million at January 31, 2002 (\$164.8 million at January 31, 2001).

On March 23, 2001, the RSBIA was amended to include the funding and administration of existing long terms benefits, other than pension benefits, including separation and repatriation benefits, accrued annual leave up to 60 days, payments in lieu of pension for contractual employees, and associated tax allowances. These benefits were partially funded with a contribution from the General Resources Account of \$128.2 million on March 29, 2001.

The assets of the RSBIA are kept separate from the assets of all other accounts of, or administered by, the IMF and are not to be used to discharge liabilities or to meet losses incurred in the administration of other accounts.

#### 2. Accounting Policies

#### Basis of Presentation

The financial statements of the RSBIA are prepared in accordance with International Accounting Standards (IAS). Specific accounting principles and disclosure practices are explained further below. The preparation of financial statements in conformity with IAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Valuation of Investments

In accordance with its investments policy, the RSBIA invests in short-term investments, debt securities, equity securities, and real estate. Cash equivalents are short-term investments with maturities of three months or less. These investments include short-term Treasury securities and other short-term, highly liquid investments and are carried at cost, which approximates market value. Investments in securities listed on stock exchanges are valued at the last

## Notes to the Financial Statements as at January 31, 2002 and 2001

reported market sales price on the last business day of the accounting period. Over-thecounter securities are valued at their bid price on the last business day of the accounting period. The valuation of purchases and sales is made on the trade date basis. For investments in real estate, market value is the last reported adjusted appraised value.

Investment income comprises interest and dividends, realized and unrealized gains and losses, and, for investments denominated in currencies other than the U.S. dollar, valuation differences arising from exchange rate changes of other currencies against the dollar market value.

## *Comparatives*

When necessary, comparative figures have been reclassified to conform with changes in the presentation of the current year.

## 3. Investments

A summary of the RSBIA's investments at market value or fair value as of January 31 is as follows:

| Investments            | 2002                | 2001      |
|------------------------|---------------------|-----------|
|                        | In millions of U.S. | dollars   |
| Short-term investments | 51                  | 12        |
| Debt securities        | 81                  | 49        |
| Equity securities      | 183                 | 143       |
| Real Estate            | 32                  | <u>31</u> |
|                        | <u>347</u>          | 235       |

## Notes to the Financial Statements as at January 31, 2002 and 2001

In addition to these investments, the RSBIA held commitments in fixed-income futures contracts to minimize interest rate risk. At January 31, 2002, the notional value of these derivatives amounted to \$2.6 million (\$2.3 million at January 31, 2001) and the unrealized gain was less than \$0.1 million (\$0.1 million at January 31, 2001)

## 4. Actuarial Valuation

The defined benefit obligation for long-term employee benefits other than pension benefits is actuarially determined, based on the data in effect at the beginning of the year. The IMF's actuarially determined cost was estimated at \$570 million at April 30, 2001 (\$561 million at April 30, 2000, including the obligation for benefits due to the March 23, 2001 amendment). Each year the IMF transfers amounts from the General Resources Account to the RSBIA to be held and invested pending their use by the IMF. During the nine months ended January 31, 2002, \$22.5 million was transferred to the RSBIA (\$5 million during the nine months ended January 31, 2001).

## 5. Account Termination

The RSBIA can be terminated by the IMF at any time. After meeting any existing obligations, the resources remaining in the RSBIA are to be transferred to the General Resources Account of the IMF.
