

**FY19**  
ANNUAL  
REPORT

**TOGETHER,  
WE CAN BE HEROES!**

# FOREWORD

From earthquakes in Asia to a record number of refugees and displaced people around the world, last year was marked by vast humanitarian need. I am pleased to report that IMF staff and retirees generated a record \$3 million in donations during the Annual Giving Campaign, helping to support 1,352 nonprofit organizations worldwide. This represented an overall participation rate of 62 percent—another record. I would like to thank all staff and retirees for their generosity, with a special mention to our Giving Ambassadors, who have championed the program.

We also continued our strong tradition of volunteer activities. I was pleased to join staff in preparing Thanksgiving meal baskets for the needy families in our local community. We packed school supplies for children living in refugee camps in Africa and the Middle East, helped to replant coral reefs in Bali, and prepared parcels of books and writing supplies for incarcerated youth in the DC area. Staff also generously gave their time and talents yearlong by mentoring high school students in the Washington, DC metropolitan area.

I am extremely proud of how staff and retirees have come together to give back to the local and international communities in meaningful ways and for the record-breaking results. Together, let's continue to improve lives and make the world a better place for all.

## **David Lipton**

Acting Managing Director

The Fund as a corporate donor made lasting contributions through management donations during visits to emerging economies in Africa, Asia, Eastern Europe, Latin America, and MENA. IMF Giving Together also disbursed \$215,000 in community grants to 22 local and international charities to encourage economic independence through education and economic opportunities.

On behalf of my colleagues in IMF management, we would once again like to thank Fund staff, their families, and retirees for their generosity year after year.

## **Carla Grasso**

Deputy Managing Director and Chief Administrative Officer

Administrative & Merchant Fees*	\$200,392
<b>TOTAL BUDGET</b>	<b>\$1,819,658</b>

\*The IMF absorbs all administrative and merchant fees for staff contributions so that 100% of donations can go directly to beneficiaries.

# WE CAN BE HEROES THROUGH... GIVING!

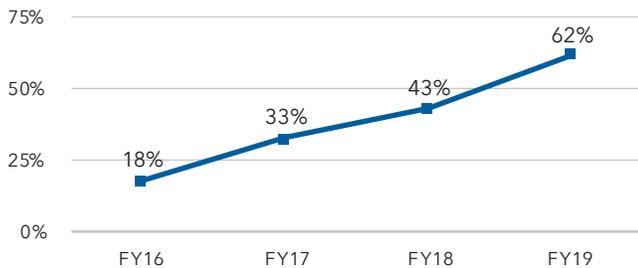

## GIVING TOGETHER IN FY19

Fund staff give generously, both during the annual Giving Campaign and in response to humanitarian appeals and disaster relief. In FY19, \$3 million, including matching, was raised for staff's supported causes, including \$288,134 for disaster relief.

### 2018 Fall Giving Campaign

The IMF Giving Campaign surpassed expectations in staff participation and donations, setting a new record for the sixth consecutive year. A total of 62 percent of staff members supported 1,352 charities around the world, exceeding both the campaign goal of 50 percent of staff participation and the previous year's record of 43 percent of staff participation.

**Staff Participation during the Fall Giving Campaign**

The Giving Together program broke a new record for staff participation.

Fund retirees once again demonstrated their generosity by donating \$1,214,102 to their favorite causes, which represents 41 percent of total Fund donations, channeled through 719 charities.

MD Lagarde acknowledged the "impressive participation milestone of 62%, a record in the history of the Giving Program."

**ON GIVING TUESDAY,

# LAUNCH OF THE 2018 FALL GIVING CAMPAIGN

Along with the 2018 Fall Giving Campaign launch on September 12, 2018, the Fund held its annual charity fair where 24 local and international charities represented

causes ranging from education and mental health, children and women’s welfare, animal rescue, the environment, and homelessness.

The Charity Fair included raffle prizes and a musical performance by children from the IMF Childcare Center. An estimated 300 Fund staff participated.

*“All of us in SEC agree that **making a contribution was a breeze**. Setting up the contribution took less than one minute. In just a few clicks you can choose to give to almost any charity you can imagine, and you can give as little or as much as you want. Kudos to the organizers of the campaign for making the process as easy as possible!”*

–Elena Budras, Fund staff

DMD Zhang, MD Lagarde, and DMD Furusawa don Giving Together capes.

Superheroes come in all sizes.

*“We are grateful for our decades-long relationship with the International Monetary Fund. Over our 36-year history, the IMF has always been a great neighbor. We rely on them for in-kind donations, volunteer support and financial assistance. Together we have **helped nearly 1,000 DC residents** move off the streets and into a safe, permanent home.”*

–Scott Schenkelberg, President & CEO, Miriam’s Kitchen

# GIVING AMBASSADORS

A highlight of the FY19 Giving Campaign was the steadfast commitment of the Giving Ambassadors, volunteers from all departments across the Fund, who engaged their colleagues in giving and volunteering through fun activities. The campaign achieved immense success with the tireless work of the ambassadors.

*“As Giving Ambassadors, it is so rewarding to see how our colleagues rally behind a good cause and are so willing to share their time and resources for those in need. It was extremely pleasant and emboldening to be on the soliciting side and see the reaction of colleagues when asked to donate and their generosity!”*

–Martha Serna, LEG Giving Ambassador

APD Director Chang Yong Rhee and Giving Ambassador Deb Loucks don superhero capes to promote the campaign.

*“Seeing my colleagues give back to the community through volunteering and donations makes me proud to work for this institution.”*

–Ethan Boswell, SPR Giving Ambassador

STA's Karim Guen Challenge Race fundraiser.

## MIDDLE EAST & CENTRAL ASIA

MCD holds a Giving Tuesday breakfast to encourage giving.

*“I come from a nonprofit background and being an Ambassador for the Giving Campaign allows me to keep in touch with my roots by continuing to help nonprofits and charities from the giving side. I love knowing that my work still allows me to make a difference in the lives of others.”*

–Vanessa Guerrero, MCM Giving Ambassador

FIN hosts a happy hour to encourage staff contributions to the Giving Campaign.

*“I became an Ambassador to spread the message to staff about the importance of giving back to communities and causes in need; no matter how small the contribution.”*

–Keith Clark, CSF Giving Ambassador

## HUMANITARIAN APPEALS AND DISASTER RELIEF

During FY19, the IMF Giving Together program launched humanitarian appeals in response to three natural disasters. These occur when a country (or the United Nations, on behalf of a country or region) makes an appeal for international assistance after a natural disaster. Donations by staff and retirees were matched at 100 percent by the Fund.

Credit: Salvation Army World Service Office

Families near Volcán de Fuego in Guatemala had to evacuate their homes after the deadly eruption.

### Lombok & Sulawesi Earthquakes

On August 5, 2018, a magnitude 7.0 earthquake shook the island of Lombok, Indonesia, causing widespread destruction. A second devastating 7.4 earthquake struck the Indonesian island of Sulawesi on September 28, triggering a tsunami and causing more damages and casualties. IMF staff—supported by management—contributed to the recovery efforts by raising funds for the victims of Indonesia’s earthquakes via Palang Merah Indonesia (PMI) and responding relief organizations. A total of \$148,808 was collected.

Credit: Josh Estey/CARE

Victims of the catastrophic cyclone seeking refuge.

*“In the wake of a deadly earthquake and tsunami in Indonesia, Americares is ensuring thousands of women continue to have the health care they need... The International Monetary Fund’s generous donation has allowed Americares to replace temporary emergency health centers with more stable structures for maternal health services, including deliveries. Each new baby is a sign of how much these health centers are needed.”*

—Kate Dischino, Vice President of Emergency Programs, Americares

### Guatemala’s Fuego Volcano

On Sunday, June 3, Volcán de Fuego had its largest eruption in over 40 years. Located 25 miles southwest of Guatemala City, the eruption sent molten lava, chunks of rock, and ash soaring into the air, forcing 3,100 people from their homes, with another 1.7 million affected. Nearly 100 people were killed. Donations totaling \$32,739 were channeled via Save the Children, Global Impact, and God’s Child Project.

DMD Furusawa, along with other members of management and department heads, staffed collection tables during the Annual Meetings in Bali to help raise funds for the victims of Indonesia’s earthquakes.

### Cyclone Idai

A devastating cyclone struck southeastern Africa on March 14 and 15, 2019, causing intense flooding in Mozambique, Zimbabwe, and Malawi. More than 300 people died, and hundreds went missing. Roads, homes, and bridges were washed away, leaving hundreds of thousands of people homeless and in need of immediate humanitarian assistance. A staggering 1.5 million people in the region were impacted. Donations totaling \$106,596 were channeled via Americares, CARE, Direct Relief, Mercy Corps, Save the Children, UNICEF, and World Vision.

## IN-KIND DONATIONS

Fund staff and retirees gave generously to those in need in our community by participating in several collection drives that support local causes, including: a toy drive in December for hospitalized children through **Children’s National Medical Center**; a clothing drive in January for **Suited for Change**, a charity that provides professional clothing and job skills training to local women; a bike drive in June for **Bikes for the World**, whose mission is to provide affordable bicycles to developing countries for transportation to work, school, and health services; and travel amenity kits donated throughout the year to **The Friendship Place**, a housing service provider for people experiencing homelessness in the DC region.

The 150 items of clothing donated during the collection drive held in January enables Suited for Change to provide professional attire to hundreds of women in the Washington, DC, area.

*“I looked great... And I was feeling good about myself. Maybe the suit got me the job. I don’t know, but I felt good. I felt pretty. I felt professional.”*

–Suited for Change client

Staff volunteers classified toys collected at Fund headquarters for Children’s National Medical Center during the annual **toy drive**. The toys purchased through the online platform were shipped directly to the hospital before December 20.

Travel **amenity kits** are donated by staff for homeless neighbors through The Friendship Place in Washington, DC.

*“Suited for Change and the clients we serve appreciate the generous support from the IMF community. Each client served means one more person and family with financial independence, a restored sense of dignity, increased self-sufficiency, and a real hope for a brighter future. Thank you!”*

–Judith Dunn, Acting Executive Director, Suited for Change

Volunteers helped to process bicycles for Bikes for the World destinations worldwide during the joint IMF/World Bank bike collection drive in June.

*“The support of the IMF has allowed Bikes for the World to more successfully forge strong bonds with individuals and organizations in the Washington, DC, area and around the world, especially based around the common vision of using bikes as a vehicle for individual and community empowerment.”*

–Taylor Jones, Executive Director, Bikes for the World

# ***WE CAN BE HEROES THROUGH... VOLUNTEERING!***

During the year, hundreds of IMF staff and retirees gave their time to make a difference in their communities. As part of the **Min Zhu Volunteer Program**, established in 2017, which seeks to serve the Washington, DC, metro area by mentoring children from less-privileged backgrounds and helping the homeless, several volunteering initiatives took place throughout FY19.

Students from local DC schools participate in the Financial Literacy Program, organized and delivered by Fund staff in coordination with Serve Your City.

## **PROGRAMS**

### **The Financial Literacy Program**

As in previous years, a group of IMF volunteers offered two financial literacy courses to high school students in the local community, providing them with practical financial literacy skills and a glimpse into the world of economics and the IMF. One 4-week course was offered in partnership with Serve Your City (a Washington, DC, nonprofit), while a second 2-day course was offered as part of the IMF Family Association's Teen Summer Program.

The initiative consisted of two parallel programs: the Fundamentals of Personal Finance (FPF) and the Young Economist Academy (YEA). Through the FPF, students were familiarized with everyday economic concepts, such as types of employment, budgeting, and taking on debt, and the link between these concepts and the state of the macroeconomy and macroeconomic policies. As part of the YEA, students learned about the basic principles of

economics and had the opportunity to design a program to solve economic issues in a fictional country case. The program culminated in student presentations, which were evaluated by senior Fund economists.

### **Mentoring to High School Students**

For the 2018-19 school year, the Legal and Communications departments continued working with Woodrow Wilson High School, a public school in Washington, DC, to help students hone their writing skills. A group of about 10 volunteers provided one-on-one support to dozens of students in a weekly college essay workshop to take essays from concept to polished product. Staff also worked with school administrators in the development of a new writing center.

Staff write encouragement cards for children recovering from cleft palate surgery (Smile Train).

## EVENTS

### Signature Annual Volunteering Event

The sixth annual Dr. Martin Luther King, Jr. Day of Service was held on January 23 where staff, lead by DMD Grasso, participated in a volunteer mini fair and collection drive. Ten charities offered information about volunteering opportunities in metro DC. Staff then participated in two hands-on projects by writing and decorating cards for children abroad recovering from cleft palate surgery (Smile Train) or using iPads to help map vulnerable populations in remote locations worldwide by using a mobile app (MapSwipe for Doctors Without Borders). Volunteers also helped classify and box books, dictionaries and writing supplies intended for incarcerated youth in the process of rehabilitation (Free Minds Book Club & Writing Workshop).

A volunteer showcases a get well card decorated with pictures and drawings for patients who are often too young to read.

Retiree volunteers package writing supplies for incarcerated youth via Free Minds Book Club & Writing Workshop during Dr. Martin Luther King, Jr., Day of Service.

*“Doctors Without Borders/Médecins Sans Frontières (MSF) is grateful to IMF employees for their support in mapping the Am Timan district in Chad, which has been battling a measles outbreak for over a year. Thanks to the mapping data contribution generated by IMF employees, 150 MSF staff carried out a four-week vaccination campaign that reached 107,000 children in April 2019.”*

–Avril Benoît, Executive Director, MSF USA

Staff map remote areas using MapSwipe for Doctors Without Borders.

## School Supplies for Refugees

On July 10, the Fund partnered with **World Vision**, a global humanitarian organization, to assemble and ship 750 Promise Packs containing basic school supplies and hygiene items destined for child refugees. The backpacks were distributed to East African and Syrian refugee communities in South Sudan, Somalia, Armenia and Lebanon.

Fund volunteers assembling school supplies for refugees.

## Thanksgiving Meals for D.C. Families

On November 14, Fund volunteers led by FDMD David Lipton, assembled 200 festively-wrapped meal baskets containing nonperishable food items and vouchers for turkey or ham so local families in need could enjoy a Thanksgiving dinner. They were channeled through **Horton's Kids**, a D.C. charity that works with at-risk children to prepare them for healthy, successful lives through educational and other programs, and **Friendship Place**, which provides housing services for the homeless, including helping them find jobs and rebuild their lives.

*“From Thanksgiving meals to volunteer hours to cash donations, the IMF and its employees are essential partners in Horton’s Kids’ work to empower children and their families in DC.”*

—Billy Fettweis, Development & Communications Director, Horton’s Kids

*“My role as Giving Ambassador for COM is enriching because it gives me a platform to share my passion for volunteering and encourage my colleagues to give however they can toward causes meaningful to them. Volunteering comes second nature to me, either in the form of contributing a monthly amount toward a cause or spending an evening in a kitchen serving our community members in need.”*

—Rumit Pancholi, Fund staff

FDMD Lipton delivering a Thanksgiving meal basket ready for delivery to Horton's Kids.

# SPOTLIGHT ON... BALI

## DISASTER RELIEF

Just before the 2018 Annual Meetings, Indonesia suffered two devastating natural disasters within two months of each other—a magnitude 7.0 earthquake on August 5 on the island of Lombok and a devastating 7.4 earthquake and tsunami in Central Sulawesi on September 28.

IMF management launched two fundraisers in response to the disasters in a show of solidarity and support for the people of Indonesia, marking a first for disaster relief fundraisers during the annual meetings. Additionally, the Managing Director visited the island of Lombok, and delivered three management donations to relief organizations responding to the disasters.

During the Annual Meetings in Bali, the management team also organized fundraisers at the meetings site encouraging participants to donate to the fundraisers, with staff, department heads and members of the management team manning the tables.

MD Lagarde visits earthquake damaged areas of Lombok, Indonesia on Monday, October 8.

Indonesia Red Cross (PMI), delegates, and Fund volunteers staff donation tables set up during the Annual Meetings for participants to contribute to relief efforts.

christinelagarde While visiting the area severely struck by the earthquake in Lombok, Indonesia, I expressed my support for those who have been so badly affected. I am profoundly impressed by the courage and resilience of the Indonesian people and the recovery efforts underway. I commended President Jokowi, Finance Minister Sri Mulyani Indrawati, Coordinating Minister for Maritime Affairs Luhut Binsar Pandjaitan, Bank Indonesia Governor Perry Warjiyo for their leadership.

Credit: Palang Merah Indonesia (PMI)

A member of PMI provides medical assistance to victims of the earthquake in North Lombok.

*“ In the middle of 2018, it was the toughest moment for the Indonesian people. Earthquakes, tsunamis, and volcanic eruptions are common disasters in Indonesia. Lombok and Central Sulawesi was the province affected by those disasters. Million of peoples lost their family members and thousands of homes and public facilities were damaged. People were forced to live in shelter camps due to the loss and damage to their homes. But we are human beings who help each other.*

*Not only from the Indonesian people but people from around the world gave their help through PMI to help the people who were affected by those disasters. One of them is the International Monetary Fund; thanks to the help from the IMF, we can help our brothers and sisters who were affected and return to their original lives. By building a house, schools, health facilities, and all public facilities that support their normal lives. The Indonesian Red Cross exists to help people who need our help.”*

—Arifin Muhammad Hadi, Head of Disaster Management Division, PMI

MD Lagarde and Indonesia Minister of Maritime Affairs Luhut Binsar Pandjaitan use coral fragments to help rehabilitate the threatened coral reefs at the start of the 2018 IMF/World Bank Annual Meetings October 7, 2018, in Bali, Indonesia.

# SPOTLIGHT ON... BALI

## CORAL REPLANTING DURING ANNUAL MEETINGS IN BALI

Because of pollution from burning of fossil fuels, disease, runoff from industrial chemicals, and the damaging effects of climate change, coral replanting is vital for promoting biodiversity and strengthening our ecosystem. Coral that is replanted can regrow and allow its natural inhabitants to subsist.

On October 7, a special event kicked off the 2018 IMF/World Bank Group Annual Meetings, in which Managing Director Christine Lagarde, Minister of Maritime Affairs Luhut Binsar Pandjaitan, and Minister of Finance of Indonesia Sri Mulyani Indrawati participated in coral reef replanting to help preserve Indonesia's threatened coral reefs and bring the world's attention to their plight. In partnership with the Nusa Dua Reef Foundation, over 100 volunteers gathered on the beach in Bali and helped attach corals to artificial reef structures that were then replanted underwater in barren areas. This marked the first time a volunteering event was held during the IMF/World Bank Group Annual Meetings. To mark the occasion, a commemorative plaque was placed along the planted coral structures.

The Nusa Dua Reef Foundation reported that the Fund's donation of \$15,000 has supported the installation and maintenance of 500 artificial structures and 7,500 coral fragments in 6-8-meter depth of Nusa Dua waters. The coral restoration benefits the coral reef ecosystem in areas that have greatly suffered from destructive practices, which have largely been curbed. The coral transplantation has grown and already attracted several species of fish since the installation. The area also benefits the local economy through marine tourism activities, such as snorkeling and diving, as well as research and education.

Coral replanting promotes biodiversity and strengthens our ecosystem.

Giving Together commemorative plaque, along with the coral reef structure. July 2019.

christinelagarde 🌍 I firmly believe that if everyone takes even a small step to protect and support the environment, we can together take a big step forward for the world. Today we are contributing by working with @NusaDuaReefFoundation to restore #Indonesia's coral reef. #InternationalMonetaryFund #IMFMeetings #IMF #BaliIndonesia #coralreef #environment #sustainableliving #volunteering #coralplanting

# WE CAN BE HEROES THROUGH... CORPORATE GIVING

DMD Grasso (center) and representatives of the Grants Review Committee and FY19 grants awardees.

## GRANTS

The Giving Together program provides monetary grants to charities that foster economic independence through the promotion of educational and economic opportunities.

The Grants Review Committee, which oversees the grants, consists of representatives from the Staff Association, the IMF Volunteers Club, the IMF Retirees Association, the IMF Family Association, and management appointees. The committee vets the applications and selects the charities to be awarded grants.

In FY19, grants totaling \$115,000 were awarded to 12 charities based in the Washington, DC, metro area. Another \$100,000 was awarded to 10 charities in developing countries.

*“The IMF’s support was integral to Excel being able to serve our students, who include individuals primarily from some of the lowest-income neighborhoods in the District, many of whom are young adults who are not currently engaged in school or work, long-term unemployed, and/or returning to the community from incarceration.”*

—Henry Schultz, Director of Operations,  
Excel Automotive Institute, Inc.

*“We thank IMF for supporting WEC’s efforts to serve adult immigrants. Your support this year made education and training opportunities possible for more than 1,400 immigrants working to advance in the workplace and engage more fully in their communities.”*

—Kathlyn Taylor Gaubatz, Interim Executive Director,  
Washington English Center

## MANAGEMENT DONATIONS

During official travel to developing countries, members of the IMF management team deliver donations, both cash and in-kind, to charities as part of the Fund's commitment to corporate social responsibility. More details of the donations made by management can be found in the Annex.

**GOODWILL**  
**NGO helping underprivileged children living near Ulaan Chuluut landfill receives donation**  
 By B.CHINTUSHIG

Just 10 kilometers from the city center in Sogtoldakhshuu District lies a landfill called Ulaan Chuluut, where hundreds of families have to resort to scavenging the massive piles of waste as a means of survival. Most of the children in these families are underfed, abused, and unable to attend school due to being forced to help their parents to look for anything that can be sold for money.

Without proper food, shelter, and education, many of these children have no hope or opportunity to escape from a fate of barely surviving. These children have slipped through the cracks and are left to fend for themselves as alcoholics and abuse run rampant among these families. Where government intervention is absent, the only hope for these children are people who have the goodwill to voluntarily help create a better life for these children.

One of the handful of organizations that actively help these underprivileged children is the Relations Development Center NGO. Established informally in 2006, the NGO was first established as a safe area to feed and educate the children of families that scavenge the Ulaan Chuluut landfill. The NGO was registered officially in 2014 and has been expanding its help to children with the help of donations from organizations and businesses.

Currently, the NGO operates a designated area to prepare the children for schools and integrate them into society. Since its inception, a handful of organizations have donated to the NGO.

In an effort to support the prolonged goodwill of the NGO, the International Monetary Fund's (IMF) Deputy Managing Director Mitsuhiro Furusawa and his wife visited the informal school and shelter that the NGO operates near the landfill. Through the IMF Giving Together program, Mr. Furusawa oversaw the donation of school uniforms, the construction of a gazebo, and bunk beds for the shelter.

With the donation of the bunk beds, the NGO will be officially allowed to operate as a safe shelter for the children who previously would have been left without supervision in their family per or forced to work alongside their parents to scavenge the landfill sites.

Many of the children belong to families who have lost their livelihood due to extreme winter conditions or drought. People living in Tolgoi settle close to Ulaanbaatar in search of jobs but unemployment remains high. Ulaan Chuluut is the largest landfill in the capital and collects general and bio-hazard waste from around the city.

*IMF Deputy Managing Director Mitsuhiro Furusawa and his wife handing donation to Relations Development Center*

**JUNE 2018** DMD Furusawa delivered two donations, one to the Relations Development Center and another to the Public School for Special Needs Children No. 63, in Ulaanbaatar, **Mongolia**.

**JULY 2018** DMD Furusawa interacted with vulnerable children and youth during his visit to Casa Alianza, a shelter that provides social services in Tegucigalpa, **Honduras**.

**OCTOBER 2018** When MD Lagarde visited for the Annual Meetings in **Indonesia**, she delivered donations to the Indonesian Red Cross (Palang Merah Indonesia) and World Central Kitchen in Lombok to provide relief and meals for the population affected by the earthquakes in late summer 2018.

**OCTOBER 2018** DMD Zhang met with representatives of the Women and Children Crisis Center in **Tonga**, which provides assistance to vulnerable children and families escaping domestic violence.

**DECEMBER 2018** While attending a conference in **Fiji**, DMD Grasso visited Champs on Wheels (a center for early childhood education) and Fiji Nature Conservation (a trust that helps protect endangered species) and delivered a donation to both.

**JANUARY 2019** MD Lagarde listened to students at GetOn Skills Development Center in Pretoria, **South Africa**, where they acquire computer skills and culinary arts training.

**JANUARY 2019** MD Lagarde interacted with young kayayei women who sell their crafts in Accra's markets, using skills they acquired via Purim African Youth Development Platform in **Ghana**.

**JANUARY 2019** MD Lagarde delivered critically needed incubators during her visit to the neonatal ward at David Bernardino Children's Hospital in **Angola**.

**WANT TO SAVE THE PLANET?**

**INVEST IN GIRL'S EDUCATION!**

*An educated girl has a positive ripple effect on her health, family and community.*

**WANT TO SAVE THE PLANET?**

**INVEST IN GIRL'S EDUCATION!**

*When girls are educated, communities are more stable and can recover faster after conflict.*

**BE A HERO TO OUR COMMUNITY**

**HELP END HOMELESSNESS!**

*A majority of homeless are people living with mental illness or severe health problems.*

**BE A HERO TO OUR COMMUNITY**

**HELP END HOMELESSNESS!**

*Safe and stable housing is a first step in moving people out of homelessness.*
