

G20 DGI Second Phase

**Global Conference of the Data Gaps Initiative (DGI) in
Washington, USA (June 16–17, 2015)**

**Ahmet Adnan EKEN
Central Bank of Republic of Turkey
Statistics Department**

- Served as a motivator to accelerate data improvement plans
- Clearly defined objectives
- Recommendations in compliance with data improvement plans of many countries
- Refreshed priorities of policy-makers
- Provided technical and analytical support

- Coordination
- Resource Constraint
- Increased Reporting Burden

«DGI Second Phase»

Inclusiveness

Implementation

Investment

DGI Second
Phase

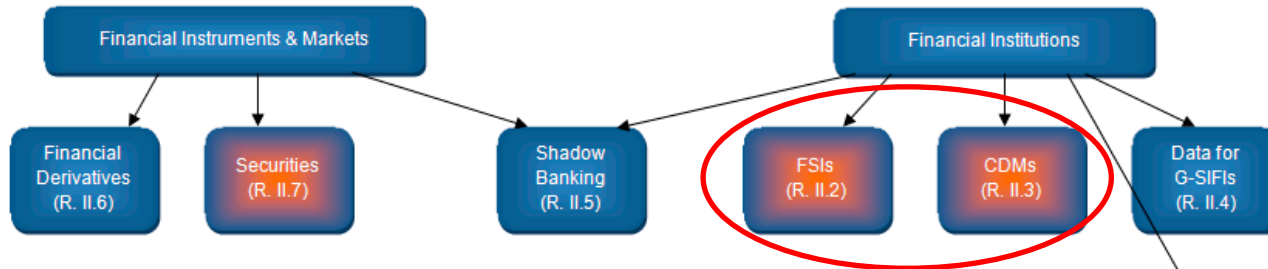

Finishing
uncompleted 1st
phase work

Strengthening
data collection

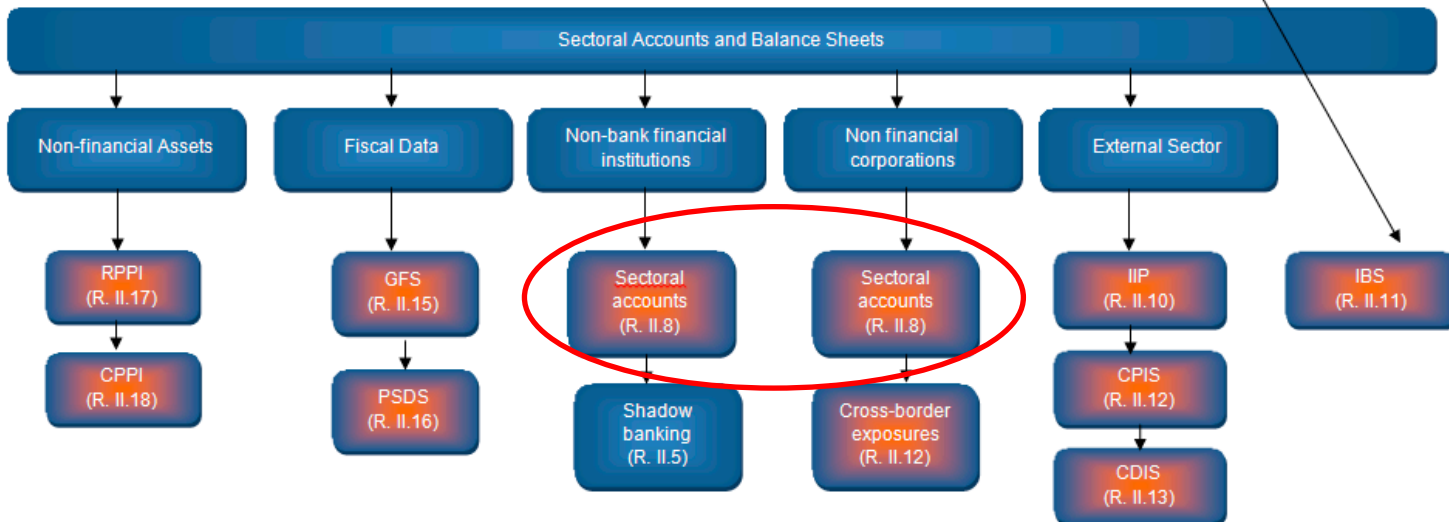

Regular
Collection of data

«General Strategy»

I. Monitoring risk in the financial sector

II. Vulnerabilities, Interconnections, and Spillovers

- Communication of Statistics
 - Data Sharing
 - International Data Cooperation and Communication
- Full adherence to SDDS Plus is a benefit
 - DGI could benefit from other related data initiatives especially LEI.
- Other possible headings
 - Need of standardize data on central bank operations and balance sheet
