

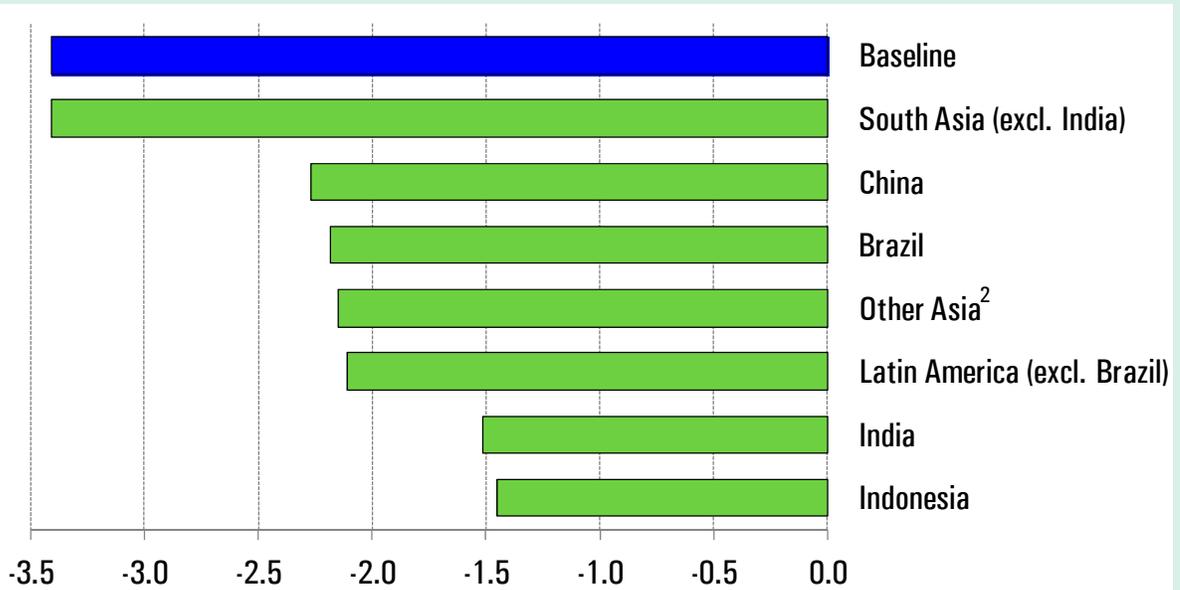

Figure 3.3. Income Elasticity of Poverty Reduction¹

(Impact on poverty headcount of a 1-percent increase in per capita income; in percent)

Sources: WorldBank, *PovcalNet* database; University of Pennsylvania, *Penn World Table*; and IMF staff calculations.

¹ The elasticity is set equal to that for baseline countries when the null hypothesis of a significant difference cannot be rejected.

² Other Asia here includes Cambodia, Malaysia, the Philippines, Thailand, and Vietnam.
